

---

Thank you for reading our Annual Report, which is one of our main channels to communicate with you and we would like to hear what you think. As a token of our appreciation, each stakeholder who sends us feedback on our Annual Report, [Sustainability Report](#) and [online snapshot](#) on or before 30 June 2019 will receive **four carbon credits**, which can be used to offset your carbon footprint. For example, this amount of carbon credits is sufficient to offset emissions generated by:

- a family of four taking an economy return flight from Hong Kong to Tokyo (average duration of four hours per flight); or
  - a passenger taking an economy return flight from Hong Kong to New York (average duration of 15 hours per flight).
- 

#### **About CLP Carbon Credits**

CLP Carbon Credits is a carbon credits e-commerce platform through which customers located anywhere in the world can calculate their carbon emissions, purchase carbon credits online from CLP and obtain an e-certificate in recognition of their move. These carbon credits represent the emissions avoided by generating electricity from CLP India's wind farms. The avoided emissions can be allocated to any individual or business through the purchase of a carbon credit and CLP completing a voluntary retirement of that credit on their behalf. Learn more at [www.clpcarboncredits.com](http://www.clpcarboncredits.com).
