## **BUSINESS REVIEW** *(Continued)*

### **2. Garment**

J.L. Garment Group, a wholly-owned subsidiary of our Company with garment factory situated at Dongguan, the Mainland China, reported turnover of HK\$39 million (2015: HK\$45 million) with a net loss of HK\$7.0 million (2015: HK\$6.3 million) for the six months ended 30 September 2016.

The Group's garment business, which focused on fashionable garment production in Mainland China and exported mainly to European market, continued to encounter a challenging year filled with uncertainties. Despite the Eurozone had made considerable progress after the economic crisis, showing improvement in GDP and employment rate, the European countries showed divergence in the pace of recovery. In particular, Italy and Spain were still struggling to emerge from recession, whereas Germany had regained some growth momentum in economic recovery. Nevertheless, the feeble consumer market continued to dampen our customers' inventory replenishment plan and hit our garment sales volume.

J.L. Garment Group is undergoing transformation by scaling down its business structure while maintaining its solid business foundation. Besides, it continues to implement stringent cost control measures including office relocation, leasing out unoccupied office space and streamlining the production processes in Hong Kong and Dongguan operations. To improve its profitability, it endeavors to broaden its new customer base in the European countries while exploring new business opportunities in the local and Asian markets.

### **3. Construction and Trading**

Chinney Alliance Group Limited ("Chinney Alliance"), a 29.1% owned associate recorded turnover and net profit attributable to shareholders for the six months ended 30 June 2016 of HK\$2,227 million (2015: HK\$2,170 million) and HK\$74.3 million (2015: HK\$77.4 million).

The foundation piling and ground drilling businesses are conducted by Chinney Kin Wing Holdings Limited ("Chinney Kin Wing") (Stock Code: 1556). Chinney Kin Wing reported revenue of HK\$856 million (2015: HK\$871 million) and operating profit of HK\$73.5 million (2015: HK\$81.9 million) to Chinney Alliance Group. The slight decrease in revenue was mainly due to the drop in drilling business as certain infrastructure projects in Hong Kong are progressing to the completion stage, hence the market demand for drilling and site investigation dropped. Besides, the operating profit also slightly dropped due to the increase in staff costs and increase in depreciation charges resulting from the enhancement of piling plants and machinery for enlarging the operating capacity in past years.

### **3. Construction and Trading** *(Continued)*

The Building Construction division, mainly consists of Chinney Construction Company, Limited engaged in superstructure construction works, contributed a revenue of HK\$452 million (2015: HK\$514 million) and operating profit of HK\$22.3 million (2015: HK\$6.0 million). Despite a slight drop in revenue, operating profit increased significantly as a result of the profit recognition for new projects commenced in last year and substantially developed in the period under review. Current contracts included schools and institutions, hospital facilities and property development in Hong Kong and Macau.

The Building related contracting services division, consists of Shun Cheong Investments Limited and its subsidiaries, engaged in the electrical and mechanical contracting businesses, contributed a revenue of HK\$648 million (2015: HK\$503 million) and operating profit of HK\$19.6 million (2015: HK\$15.0 million). The increase in both revenue and profit was attributable to more contracts awarded and in progress, coupled with the cautiously monitoring of project expenses by the management. The division has diversified client base including public and private sectors in Hong Kong and hotels in Macau.

The Plastic Trading division, consists of Jacobson van den Berg (Hong Kong) Limited, contributed a revenue of HK\$260 million (2015: HK\$275 million) and operating profit of HK\$2.4 million (2015: HK\$4.6 million). The slight drop in revenue and profitability was mainly due to the weakened external market, causing the business to suffer in term of both business volume and profit margin. Nevertheless, the division continues to broaden the product lines to enhance its earning base and explores the market in the Mainland China to seize business opportunity.

### **4. Transferable term and revolving loan facilities**

In October 2016, Chinney Treasury Limited (“Chinney Treasury”), a wholly-owned subsidiary of the Company, as borrower entered into a facility agreement relating to HK\$1,000 million transferable term and revolving loan facilities with a syndicate of banks. The loan facilities have a term of 48 months commencing from the date of the facility agreement and will be used for refinancing the existing loan facilities with outstanding balance of HK\$290 million and financing the Group’s general working requirements.

### OUTLOOK

Looking ahead, the global economy is set to be volatile and uncertainty reigns. Although statistical data showed that the Eurozone economy is growing on track, albeit slowly, it is still far from achieving sustained robust growth. Recently, the unprecedented Brexit vote to leave the European Union distressed worldwide investors. It is likely that the long process of unwinding the ties with the European Union will deepen the uncertainties and induce further turmoil in the Eurozone. In the United States, the market regained momentum and grew modestly with satisfactory statistical data on inflation and employment. It is anticipated that the US Federal Reserve will adopt a cautious approach and proceed moderately in raising the interest rate under the prevailing strong dollar environment.

In Mainland China, the slowdown in economic growth remains the dominant concern underlying the global recovery. It not only deteriorated the domestic consumer market, but also diminished the demand for the US and European products. During the period under review the real estate market remained robust but showed signs of overheating during the second and third quarters. In order to stabilize the property market, the Central Government introduced tightening measures, including increasing down-payment ratios in major cities, to temper surging real estate prices and overheating markets. It is anticipated that the restrictive measures will continue in the near future in order to maintain a stable property sector to support a healthy economic growth.

In Hong Kong, the economy recorded a modest growth with GDP rebounded slightly and unemployment stayed at a low level. The local consumer market continues to be stable and underpinned by the relatively stable income and employment condition. Nevertheless, the prices for residential properties rose substantially in the third quarter. In order to dampen soaring residential housing prices, the local government raised its stamp duty to 15% in this month to cool down the over-heated property market. It is expected that the new stamp duty will curb the surging residential housing prices and put the market to a more healthy growth in the medium term.

Finally, I would like to thank my fellow directors for their contributions and all staff members for their efforts during the period under review.

2. CG Code provision A.5.1 stipulates that the Company should establish a nomination committee which should be chaired by the Chairman of the Board or an independent non-executive director. The Company has not established a nomination committee. The Board is responsible for considering the suitability of a candidate to act as a director, and collectively approving and terminating the appointment of a director as this allows a more informed and balanced decision to be made. The Chairman is mainly responsible for identifying suitable candidates for members of the Board when there is a vacancy or an additional director is considered necessary. The Chairman will propose the appointment of such candidates to the Board for consideration and the Board will determine the suitability of the relevant candidates on the basis of their gender, age, professional qualifications and experience as well as educational background.
3. CG Code provision A.6.7 stipulates that independent non-executive directors and other non-executive directors should attend general meetings and develop a balanced understanding of the views of shareholders. Dr. Clement Kwok-Hung Young and Mr. Peter Man-Kong Wong, independent non-executive directors of the Company, did not attend the 2016 annual general meeting of the Company held on 25 August 2016 due to their own business engagements or other commitments.
4. CG Code provision B.1.2 stipulates that the terms of reference of the remuneration committee should include, as a minimum, those specific duties as set out in the CG Code provisions. The Company has adopted the revised terms of reference of the Remuneration Committee on 30 March 2012 with certain deviations from the CG Code provisions. Pursuant to the revised terms of reference, the Remuneration Committee should review and make recommendations to the Board on the remuneration packages of directors (as opposed to directors and senior management).

#### Audit committee

The Company has established an Audit Committee comprising James C. Chen, William Chung-Yue Fan, Clement Kwok-Hung Young and Peter Man-Kong Wong.

Regular meetings have been held by the Audit Committee since its establishment and it meets at least twice each year to review and supervise the Group's financial reporting process and internal control. The Company's interim results for the six months ended 30 September 2016 have not been audited, but have been reviewed by the Audit Committee.

## FINANCIAL REVIEW

### Liquidity and financial resources

The total interest-bearing debts of the Group amounted to approximately HK\$6,135 million as at 30 September 2016 (as at 31 March 2016: HK\$6,451 million), of which approximately 48% (as at 31 March 2016: 52%) of the debts were classified as current liabilities. Included therein were debts of HK\$155 million (as at 31 March 2016: HK\$163 million) related to bank loans with repayable on demand clause and HK\$2,244 million related to project or term loans which will be refinanced during the forthcoming twelve months. Based on the repayment schedules pursuant to the related loan agreements and assuming that the aforesaid refinancing will be completed on schedule, the current portion of the total interest-bearing debts was approximately 9%.

Total cash and bank balances including time deposits were approximately HK\$1,202 million as at 30 September 2016 (as at 31 March 2016: HK\$1,872 million). Included in cash and bank balances are restricted bank deposits of HK\$551 million (as at 31 March 2016: HK\$623 million) which can only be applied in the designated property development projects prior to their completion of construction. The Group had committed but undrawn banking facilities of a total of approximately HK\$1,518 million at period end available for its working capital purpose.

Total shareholders' funds as at 30 September 2016 were approximately HK\$5,069 million (as at 31 March 2016: HK\$5,066 million). The increase was mainly due to current period's profit attributable to shareholders offset by depreciation in value of assets less liabilities denominated in Renminbi.

The gearing ratio of the Group, as measured by the net interest-bearing debts of approximately HK\$4,933 million (as at 31 March 2016: HK\$4,579 million) over the shareholders' funds plus non-controlling interests totalling of approximately HK\$7,931 million (as at 31 March 2016: HK\$7,867 million), was 62% as at 30 September 2016 (as at 31 March 2016: 58%).

### Funding and treasury policies

There are no significant changes in the Group's funding and treasury policies. As at 30 September 2016, the Group had no material exposure under foreign exchange contracts or any other hedging instruments.

### Pledge of assets

Properties and bank balances with an aggregate carrying value of approximately HK\$12,394 million as at 30 September 2016 (as at 31 March 2016: HK\$12,481 million) and shares in certain subsidiaries were pledged to secure certain banking facilities of the Group.

## 1. BASIS OF PREPARATION AND CHANGES IN ACCOUNTING POLICY AND DISCLOSURES

The unaudited condensed interim consolidated financial statements have been prepared in accordance with Hong Kong Accounting Standard (“HKAS”) 34 *Interim Financial Reporting* issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) and with the applicable disclosure requirements of Appendix 16 to the Listing Rules.

The unaudited condensed interim consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group’s annual financial statements for the year ended 31 March 2016.

The financial information relating to the year ended 31 March 2016 that is included in these unaudited condensed consolidated financial statements for the six months ended 30 September 2016 as comparative information does not constitute the statutory annual consolidated financial statements of the Company for that year but is derived from those consolidated financial statements. Further information relating to these statutory financial statements required to be disclosed in accordance with section 436 of the Companies Ordinance (Chapter 622 of the Laws of Hong Kong) (the “Companies Ordinance”) is as follows:

The Company has delivered the consolidated financial statements for the year ended 31 March 2016 to the Registrar of Companies as required by section 662(3) of, and Part 3 of Schedule 6 to, the Companies Ordinance.

The calculation of the basic earnings per share amount is based on the profit for the period attributable to ordinary equity holders of the Company of HK\$138,554,000 (2015: HK\$250,243,000) and the number of 551,368,153 ordinary shares in issue during both periods.

No adjustment has been made to the basic earnings per share amounts presented for the periods ended 30 September 2016 and 2015 in respect of a dilution as the Group has no potential dilutive ordinary shares in issue during both periods.

**8. TRADE AND BILLS RECEIVABLES** *(Continued)*

The Group's trading terms with its customers in the garment segment are mainly on credit, except for new customers, where payment in advance is normally required. The credit period is generally one month, extending up to four months for major customers. Each customer has a maximum credit limit. Monthly rent in respect of leased properties is payable in advance by the tenants pursuant to the terms of the tenancy agreements. The balance of the consideration in respect of sold properties is payable by the purchasers pursuant to the terms of the sale and purchase agreements. The Group seeks to maintain strict control over its outstanding receivables and has a credit control department to minimise credit risk. Overdue balances are reviewed regularly by senior management. In view of the aforementioned and the fact that the Group's trade and bills receivables relate to a large number of diversified customers, there is no significant concentration of credit risk. Trade and bills receivables are non-interest-bearing.

**9. TRADE PAYABLES AND ACCRUED LIABILITIES**

### 16. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS

The carrying amounts and fair values of the Group's financial instruments, other than those with carrying amounts that reasonably approximate to fair values, are as follows:

	<b>Carrying amounts</b>		<b>Fair values</b>	
	<b>30 September</b>	31 March	<b>30 September</b>	31 March
	<b>2016</b>	2016	<b>2016</b>	2016

<b>Financial liabilities</b>

Interest-bearing bank borrowings	<b>6,134,825</b>	6,451,089	<b>6,134,825</b>	6,451,089

Management has assessed that the fair values of cash and bank balances, pledged deposits, trade and bills receivables, financial assets included in prepayments, deposits and other receivables, financial liabilities included in customer deposits, trade payables and accrued liabilities, the current portion of interest-bearing bank borrowings and an obligation under a finance lease, and a balance with an associate approximate to their carrying amounts largely due to the short term maturities of these instruments.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

### **16. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS** *(Continued)*

The fair values of the non-current portion of interest-bearing bank borrowings and an obligation under a finance lease have been calculated by discounting the expected future cash flows using rates currently available for instruments with similar terms, credit risk and remaining maturities. The Group's own non-performance risk for interest-bearing bank borrowings and an obligation under a finance lease as at 30 September 2016 was assessed to be insignificant.

The fair values of listed equity investments are based on quoted market prices.

The Group did not have any financial liabilities measured at fair value as at 30 September 2016 and 31 March 2016. As at 30 September 2016, the Group's financial liabilities not measured at fair value but for which fair values were disclosed included interest-bearing bank borrowings (non-current portion) of HK\$3,165,792,000 (as at 31 March 2016 (audited): HK\$3,120,285,000) and an obligation under a finance lease (non-current portion) of HK\$160,000 (as at 31 March 2016 (audited): HK\$238,000). The fair values of these financial liabilities disclosed were measured based on valuation techniques for which all inputs which have a significant effect on the recorded fair value are unobservable (Level 3).

During the period, there were no transfers of fair value measurements between Level 1 and Level 2 and no transfers into or out of Level 3 for both financial assets and financial liabilities of the Group.

### **17. APPROVAL OF THE INTERIM FINANCIAL STATEMENTS**

These condensed interim consolidated financial statements were approved and authorised for issue by the board of directors on 29 November 2016.
