The Company has assigned new annual caps for each of the three financial years ending 31 December, 2016 (the “**New Caps**”) in respect of the Continuing Connected Transactions.

Given that the New Caps in respect of the General Connected Transactions represent less than 5% of the applicable percentage ratios as defined in the Listing Rules, the General Connected Transactions fall within Rule 14A.34 of the Listing Rules, and are subject to the reporting and announcement requirements under Rules 14A.45 to 14A.47 and the annual review requirements under Rules 14A.37 to 14A.40 of the Listing Rules.

Given that the New Caps in respect of the Investment Connected Transactions and the Inter-bank Connected Transactions represent 5% or more of the applicable percentage ratios as defined in the Listing Rules, the Investment Connected Transactions and the Inter-bank Connected Transactions constitute non-exempt continuing connected transactions under Rule 14A.35 of the Listing Rules, and are subject to the reporting, announcement and independent shareholders’ approval requirements under Rules 14A.45 to 14A.48 and the annual review requirements under Rules 14A.37 to 14A.40 of the Listing Rules.

The Board has set up the Independent Board Committee to review and advise the Independent Shareholders on the Continuing Connected Transactions. The Company has appointed Investec Capital Asia Limited as an independent financial adviser to advise the Independent Board Committee and the Independent Shareholders for the purpose of considering the Investment Connected Transactions and the Inter-bank Connected Transactions.

A circular containing, among other things, (i) details of the Investment Connected Transactions and the Inter-bank Connected Transactions and the New Caps in respect thereof; (ii) a letter from Investec Capital Asia Limited to the Independent Board Committee and the Independent Shareholders containing its advice on the Investment Connected Transactions and the Inter-bank Connected Transactions; and (iii) the recommendation of the Independent Board Committee in respect of the Investment Connected Transactions and the Inter-bank Connected Transactions, will be dispatched to the shareholders of the Company on or about 3 January, 2014. These transactions are all executed on an arm's length basis and on normal commercial terms. Such transactions are entered into for various reasons, including to allow BOC and its associates to hedge their exposures to an underlying asset class or for the purpose of taking a risk position in relation to that underlying asset class.

During the years ended 31 December, 2011, 31 December, 2012 and the year ending 31 December, 2013, the trading income in relation to the derivatives transactions have been, or are expected to be, respectively, within the de minimis thresholds of 0.1% of the applicable percentage ratios as defined in the Listing Rules and hence were or are, respectively, exempt from the reporting and announcement requirements. REASONS AND BASIS FOR THE ANNUAL CAPS

General Connected Transactions

The Company intends to set the New Caps for each of the three financial years ending 31 December, 2016 in respect of each of the General Connected Transactions at HK\$1,000 million.

The General Connected Transactions in general are mainly transactions with BOC for mutual benefits or synergy (e.g. card services, information technology services, property transactions, bank-notes delivery, provision of insurance cover, custody business and call center services). Although the historical transaction amounts of the General Connected Transactions are relatively stable as compared to the Investment Connected Transactions and the Inter-bank Connected Transactions, the transaction amounts of the General Connected Transactions are subject to a number of uncertainties and may vary in the forthcoming three years. Such uncertainties include any possible increases in the inflation rate, the business environment of the banking industry, property markets and insurance market etc. The New Caps are set at a standard amount of HK\$1,000 million which have been determined with reference to the expected growth of transactions with BOC. With the further strengthening of the Group's relationship with BOC, the Group expects the amounts of the General Connected Transactions to increase as compared to the historical amounts. Given the New Caps are estimated to be less than 5% of all applicable percentage ratios as defined in the Listing Rules, it is beneficial to set the annual caps at a standard amount of HK\$1,000 million so as to allow more room for the Group's planned expansion into the PRC market. Given the continued growth of the PRC economy and the Group's strategy on long-term development of RMB banking business in Hong Kong, greater transaction volumes and amounts are expected between the Group and BOC (e.g. card services and bank-note delivery services). Therefore, it is reasonable to set a buffer for the New Caps by taking into account the further strengthening of the Group's business relationship with BOC. In this connection, the directors of the Company (including the independent non-executive directors) are of the view that the New Caps are in the interests of the Company and its shareholders as a whole.

Investment Connected Transactions and the Inter-bank Connected Transactions

The Investment Connected Transactions involve activities which are regulated by various regulatory bodies in Hong Kong, such as the Hong Kong Monetary Authority, the Securities and Futures Commission and the Office of the Commissioner of Insurance. The Investment Connected Transactions are market driven and unpredictable in nature. The securities and fund distribution transactions are subject to the sentiment of the investment market whereas the Inter-bank Connected Transactions are based on customers' decision on their wealth management portfolio (e.g. stock, trust fund and foreign currency etc.), both of which are not within the Group's control. The insurance agency transactions relate primarily to the insurance market and the volume and amounts of such transactions are also subject to external factors outside the Group's control. Accordingly, a standard cap amount of HK\$4,500 million is proposed for each of the Investment Connected Transactions for the year ending 31 December, 2014. Such annual cap is based on 5% of the revenue of the Group (being the benchmark figure adopted internally by the Company with reference to the Company's experience in similar transactions and which the Company considers reasonable given the volatility of the capital markets) of approximately HK\$57,717 million for the year ended 31 December, 2012 after taking into account the average growth rate of the Group for the five years ended 31 December, 2012, of approximately 4.78% and also an annual growth rate of approximately 50%. For each of the two years ending 31 December, 2016, an annual growth rate of approximately 50% is also applied on the annual cap for the year ending 31 December, 2014 to set the respective annual caps for each of the Investment Connected Transactions. Such annual growth rate, which is considered to be difficult for the Group to estimate, has been determined after taking into account the market-driven nature of the Investment Connected Transactions. Since the transaction amounts of the Investment Connected Transactions may vary significantly due to the unexpected fluctuations of the financial markets and economic conditions, the directors of the Company (including the independent non-executive directors) consider setting standard cap amounts for the Investment Connected Transactions for each of the three years ending 31 December, 2016 is in the interests of the Company and its shareholders as a whole.

The Inter-bank Connected Transactions involve transactions among banks or financial institutions, which are regulated by monetary authorities in all regions. For these transactions, a buy order and a sell order will be regarded as two transactions, and the amounts involved will therefore count twice. Accordingly, the historical transaction amounts are not a good indicator to estimate the future transaction amounts.

The foreign exchange transactions include spot, forward and outright transactions, which may vary significantly depending on the prevailing market rates. The revenue or loss generated from these transactions is largely dependent on the relative strength or weakness of the currency, which is beyond the Group's control. Given the market-driven nature of the foreign exchange transactions, it is difficult for the Group to estimate the future transaction amounts, the New Caps of this transaction are set at the same amounts as those of Investment Connected Transactions.

Derivatives transactions include both foreign exchange and interest rate plain vanilla derivatives products, such as interest rate swaps, cross currency interest rate swaps, foreign exchange options, bond options etc, and in future may include equity derivatives. The trading income generated from these transactions is largely dependent on the trend of interest rates in the global financial markets, which is beyond the control of the Group. Given the market-driven nature and the longer maturity of the derivatives transactions, it is expected that the mark-to-market value of the outstanding deals will demonstrate high fluctuation. In view of this, the Company needs to set up a cap that can provide flexibility to accommodate future unexpected volatility in rate movements in the global market.

The trading of financial assets and the inter-bank capital markets transactions involve dollar bills and exchange fund notes, of which the Group is one of the market makers in Hong Kong. The amount for the trading of financial assets transactions increased by approximately 46% in 2012 as compared to 2011. The amount for the inter-bank capital market transactions decreased by approximately 34% in 2012 as compared to 2011. Given the great uncertainties of these two transactions which may vary subject to market conditions, the annual cap for the year ending 31 December, 2014 is set with reference to 5% of the total assets of the Group (adjusted to take into account the payment of the final dividend for the year ended 31 December, 2012 of approximately HK\$7,327 million) of approximately HK\$1,823,436 million as at 31 December, 2012 (being the benchmark figure adopted internally by the Company with reference to the Company's experience in similar transactions and which the Company considers reasonable given the volatility of the capital markets) and after taking into account the average growth rate of the Group for the five years ended 31 December, 2012, of approximately 13% and also an annual growth rate of approximately 50%. For each of the two years ending 31 December, 2016, an annual growth rate of approximately 50% is also applied on the annual cap for the year ending 31 December, 2014 to set the respective annual caps for each of the trading of financial assets and the inter-bank capital markets transactions. Such annual growth rate, which is considered to be difficult for the Group to estimate, has been determined after taking into account the market-driven nature of the trading of financial assets and the inter-bank capital markets transactions.

Such annual caps provide flexibility for the Group to accommodate future unexpected volatility of the financial markets and the directors of the Company (including the independent non-executive directors) consider that the annual caps for the Inter-bank Connected Transactions for each of the three years ending 31 December, 2016 are in the interests of the Company and its shareholders as a whole.

LISTING RULES REQUIREMENTS

General Connected Transactions

Given that the New Caps in respect of the General Connected Transactions represent less than 5% of the applicable percentage ratios as defined in the Listing Rules, the General Connected Transactions fall within Rule 14A.34 of the Listing Rules, and are subject to the reporting and announcement requirements under Rules 14A.45 to 14A.47 and the annual review requirements under Rules 14A.37 to 14A.40 of the Listing Rules.

Investment Connected Transactions and Inter-bank Connected Transactions

Given that the New Caps in respect of the Investment Connected Transactions and the Inter-bank Connected Transactions represent 5% or more of the applicable percentage ratios as defined in the Listing Rules, the Investment Connected Transactions and the Inter-bank Connected Transactions constitute non-exempt continuing connected transactions under Rule 14A.35 of the Listing Rules, and are subject to the reporting, announcement and independent shareholders' approval requirements under Rules 14A.45 to 14A.48 and the annual review requirements under Rules 14A.37 to 14A.40 of the Listing Rules. As the Investment Connected Transactions and the Inter-bank Connected Transactions continue following the expiration of the financial year ending 31 December, 2013, each of the aggregate transaction values of the Investment Connected Transactions and the Inter-bank Connected Transactions will be closely monitored to ensure that they fall within 5% of the applicable percentage ratios as defined in the Listing Rules, prior to obtaining approval from the Independent Shareholders at the EGM. Various control mechanisms have been adopted by the Company to ensure that the relevant connected transactions fall within the 5% threshold. Such mechanisms include generating monthly reports showing the transaction figures for each of the relevant connected transaction, and imposing a lower threshold as an internal cap whereby a warning signal will be issued and preventive measures will be taken immediately if the relevant connected transactions reach the internal cap.

In the event that the Independent Shareholders do not grant approval for the New Caps of Investment Connected Transactions and the Inter-bank Connected Transactions at the EGM, the Company will ensure that the transaction amounts of such connected transactions fall within the 5% threshold for the remaining of the year. Further, pursuant to the Services and Relationship Agreement, the Company has the right to exit the relevant connected transactions by giving prior written notice to BOC or its associates, as the case may be.

The Board has set up the Independent Board Committee comprising all of the independent non-executive directors of the Company to review the Continuing Connected Transactions and the New Caps and to give recommendations to the Independent Shareholders. The Company has appointed Investec Capital Asia Limited as the independent financial adviser to advise the Independent Board Committee and the Independent Shareholders for the purpose of considering whether the Continuing Connected Transactions have been entered into in the ordinary and usual course of the Group's business, on normal commercial terms, are fair and reasonable, and are in the interests of the Company and its shareholders as a whole, and whether the New Caps are fair and reasonable and in the interests of the Company and its shareholders as a whole.

The directors of the Company (including the independent non-executive directors) have confirmed that they are satisfied that the General Connected Transactions, the Investment Connected Transactions and the Inter-bank Connected Transactions have been entered into in the ordinary and usual course of the Group's business, on normal commercial terms, are fair and reasonable, and are in the interests of the Company and its shareholders as a whole. Certain non-executive directors of the Company, namely Mr. Tian Guoli, Mr. Li Lihui, and Mr. Li Zaohang, are also executive directors of BOC. In addition, Mr. Chen Siqing, also a non-executive director of the Company, is an executive vice president of BOC. Accordingly, Mr. Tian Guoli, Mr. Li Lihui, Mr. Li Zaohang and Mr. Chen Siqing abstained from voting on the resolutions in respect of the Continuing Connected Transactions at the meeting of the Board.

A circular containing, among other things, (i) details of the Investment Connected Transactions and the Inter-bank Connected Transactions and the New Caps in respect thereof; (ii) a letter from Investec Capital Asia Limited to the Independent Board Committee and the Independent Shareholders containing its advice on the Investment Connected Transactions and the Inter-bank Connected Transactions; and (iii) the recommendation of the Independent Board Committee in respect of the Investment Connected Transactions and the Inter-bank Connected Transactions, will be dispatched to the shareholders of the Company on or about 3 January, 2014. A notice of the EGM will be dispatched to the shareholders of the Company separately.

Pursuant to Rule 14A.54 of the Listing Rules, any connected person and any shareholder and their associates with a material interest in the Investment Connected Transactions and the Inter-bank Connected Transactions are required to abstain from voting on the relevant resolutions at the EGM.
