Chairman's Report

Dear Shareholders,

I am pleased to present the annual report of the Company for the year ended 31 December 2018. On behalf of the Board of Directors, I would like to express my sincere gratitude to all shareholders for your continual support and care.

PERFORMANCE REVIEW

The Group's revenue in 2018 amounted to RMB15,657.9 million (2017: RMB15,143.7 million), representing an increase of 3.4% year-on-year. Net profit attributable to Shareholders of the Parent amounted to RMB2,612.5 million (2017: RMB2,523.5 million), representing an increase of 3.5% year-on-year. Basic earnings per share amounted to RMB2.22 (2017: RMB2.15), representing an increase of 3.3% year-on-year.

The Board considered and approved the profit distribution plan for 2018 to distribute cash dividends of RMB529.0 million in total to all Shareholders, equivalent to the distribution of RMB0.45 per share (tax inclusive) based on the total number of 1,175,476,637 shares of the Company. The proposed dividend to be distributed is subject to the approval of the Shareholders at the general meeting.

BUSINESS REVIEW AND OUTLOOK

Business Review

Railway development is the prerequisite of a country's transport capability. In 2018, fixed-asset investment in China's railway remained at the high level as evidenced by the commencement of operation of the Guangzhou-Shenzhen-Hong Kong High Speed Rail as well as the roll-out of the "Eight Vertical and Eight Horizontal" high speed railway network. The Group focused on its core strategic goal to launch the "Three-year Action Plan (2018-2020)" in full swing, thereby achieving progress amid stability.

In respect of the traction systems for locomotives, the Company has secured its foothold in the market with power head EMUs delivered in batches and put into operation; and actively promoted new products such as big data and expert diagnosis systems, passing no-voltage sectors by electronic switching as well as automatic driving systems for locomotives.

In respect of the traction systems for electric multiple units, the Company delivered China's standard electric multiple units with a speed of 350km/h in batches and the prototype of China's standard electric multiple units with a speed of 250km/h was loaded and achieved smooth running.

In respect of the urban rail transit, newly secured orders throughout the year hit another record high with market share of traction system products topping the industry; and several batch orders were secured for the permanent magnet traction system.

In respect of railway engineering machinery, the Company struck a balance among delivery of products, R&D of new products and marketing promotion and secured a batch order for rapid rail change cars and multi-platform railcars. The Company completed business integration and established a joint venture with CRRC Taiyuan.

In respect of signal & communication products, transit signal system "went out of Hunan" for the first time and self-owned ATP was first installed and utilized in the China's standard electric multiple units with a speed of 250km/h.

In respect of parts and components, press pack IGBT and IGBT module for automobiles secured bulk sales and IGCT landed a batch order.

In respect of new industries, products of Shanghai SMD were launched and domestic market was steadily expanded. The Company delivered electric drive system for EVs in batches and established a joint venture with German Hofer.

Chairman's Report

In the past year, the Company optimised its corporate operation management system through the IPD system and comprehensive budget management. Therefore, it can be more focused on realising its strategic objectives, responsibilities of various processes have been more clearly defined, and our management mode has become more refined and detailed.

Outlook

In 2019, China Railway Corporation will continue to deepen its reform and focus on bolstering the nation's weakness in railway infrastructure. Thus, we expect a steady increase in railway investment. The Group will further implement the "three-year action plan", build a management system that adapts to the current competition situation, adhere to the development strategy of concentric diversification, seek robust growth in the rail transit business and general competition businesses, and make a breakthrough in the top five incremental industries, thereby building a more stable development structure.

In respect of traction systems for locomotives and electric multiple units: the Company is fully committed to guaranteeing the batch delivery of power head EMUs and the China's standard electric multiple unit products with a speed of 250km/h. It will aggressively explore the inter-city market, new railway markets and overseas market.

In respect of urban rail transit, the Company will adhere to the philosophy of "operating cities" and develop tailored strategies based on the characteristics of different cities. It aims to lead the development in this industry and market through permanent magnet technology and facilitate breakthrough in relevant industries.

In respect of railway engineering machinery, the Company will concentrate on technology innovation, market exploration and quality control, with a view to enhancing efforts in promotion and bulk supply capacity of new products.

In respect of signal & communication products, the Company will focus on developing CBTC systems for urban rail transit in major cities and strengthen its market presence. It will continue to seek expansion in the national railway market and consolidate the position of LKJ and ATP in the market.

In respect of parts and components, the Company will strive to increase the market share of its IGBT products and promote batch application of the SiC module.

In respect of new industries, the Company will strive to boost the marine engineering business by coordinating resources at home and abroad and make greater efforts to expand in the domestic market. It aims to complete the construction of independent factories for electric drive systems for EVs and enhance its delivery capacity.

Looking forward, the Group has confidence that it can consolidate its position in the industries it operates in by leveraging advantages, and will strive to grow businesses, thereby creating greater value for the Shareholders.

Li Donglin
Chairman of the Board

Zhuzhou, Hunan, the PRC
26 March 2019

Management Discussion and Analysis

The following discussion and analysis should be read in conjunction with the Group's audited financial statements and their notes as set out in this Annual Report.

REVENUE

	2018 (RMB million)	2017 (RMB million)
Locomotives	2,397.3	2,692.1
Electric Multiple Units	3,715.7	3,438.0
Metropolitan rail transportation equipment	3,149.5	2,579.4
Railway maintenance machineries related products	3,176.7	3,041.1
Signal & communication products	788.7	652.6
Key electric system and component products	1,690.6	1,763.8
Marine engineering products and others	739.4	976.7
Total revenue	15,657.9	15,143.7

The Group's revenue increased by RMB514.2 million or 3.4% from RMB15,143.7 million for the year ended 31 December 2017 to RMB15,657.9 million for the year ended 31 December 2018.

In 2018, the Group's revenue was mainly derived from metropolitan rail transportation equipment and Electric Multiple Units. Of which, metropolitan rail transportation equipment recorded higher growth than other products, representing an increase of RMB570.1 million as compared to last year, which was mainly due to the delivery of Wuhan Metro Line 7, Zhengzhou Metro Line 5 and other products. This was followed by Electric Multiple Units, which increased by RMB277.7 million from last year, mainly due to product delivery of the China standard electric multiple units.

COST OF SALES

The Group's cost of sales increased by 2.7% from RMB9,529.0 million for the year ended 31 December 2017 to RMB9,790.2 million for the year ended 31 December 2018. The increase in the cost of sales was mainly due to the combined effects of the growth in the Group's revenue and the change of product sales mix.

GROSS PROFIT

The Group's gross profit increased by 4.5% from RMB5,614.7 million for the year ended 31 December 2017 to RMB5,867.7 million for the year ended 31 December 2018. The Group's gross profit margin increased from 37.1% for the year ended 31 December 2017 to 37.5% for the year ended 31 December 2018. The increase in gross profit margin was mainly due to the change of product sales mix.

SELLING EXPENSES

Selling expenses of the Group increased by 40.5% from RMB820.0 million for the year ended 31 December 2017 to RMB1,152.5 million for the year ended 31 December 2018. The increase in selling expenses was mainly due to the increase in product provisions as compared to last year.

Management Discussion and Analysis

ADMINISTRATIVE EXPENSES

The Group's administrative expenses increased by 14.8% from RMB680.0 million for the year ended 31 December 2017 to RMB780.6 million for the year ended 31 December 2018. The increase in administrative expenses was due to the increase in fixed management costs of the Group in 2018.

RESEARCH AND DEVELOPMENT EXPENSES

The Group's research and development expenses increased by 6.3% from RMB1,357.3 million for the year ended 31 December 2017 to RMB1,443.0 million for the year ended 31 December 2018. The increase in research and development expenses was due to the increase in investment in research and development of the Group in 2018.

FINANCE COSTS

The Group's finance costs increased by RMB7.2 million from negative RMB31.8 million for the year ended 31 December 2017 to negative RMB24.6 million for the year ended 31 December 2018. The increase in finance costs was mainly due to the decrease in exchange gains from exchange rate fluctuations of the Group in 2018.

ASSET IMPAIRMENT LOSSES

The Group's asset impairment losses decreased by RMB237.7 million from RMB133.7 million for the year ended 31 December 2017 to negative RMB104.0 million for the year ended 31 December 2018. The decrease in asset impairment losses was mainly due to the decrease in provision for inventory depreciation as compared to last year and the inclusion of bad debt losses on receivables into credit impairment losses in accordance with relevant requirements of the Enterprise Accounting Standards.

CREDIT IMPAIRMENT LOSSES

The Group's credit impairment losses for the year ended 31 December 2018 were RMB5.2 million, which represented the Group's provision for bad debts for receivables with signs of impairment.

OTHER INCOME

The Group's other income increased by RMB124.9 million from RMB253.4 million for the year ended 31 December 2017 to RMB378.3 million for the year ended 31 December 2018. The increase in other income was mainly due to the increase in refunds of technology project fund.

INVESTMENT INCOME

The Group's investment income increased by RMB41.5 million from RMB38.1 million for the year ended 31 December 2017 to RMB79.6 million for the year ended 31 December 2018. The increase in investment income was mainly due to the increase in gains from the Group's bank wealth management products in 2018.

Management Discussion and Analysis

GAINS (LOSSES) ON FAIR VALUE CHANGES

The Group did not incur gains or losses on fair value changes in 2018 while those in 2017 were RMB6.1 million.

GAINS (LOSSES) ON DISPOSAL OF ASSETS

The Group's gains (losses) on disposal of assets increased by RMB2.7 million from loss on disposal of assets of RMB1.3 million for the year ended 31 December 2017 to gain on disposal of assets of RMB1.4 million for the year ended 31 December 2018.

NON-OPERATING INCOME

The Group's non-operating income decreased by RMB55.4 million from RMB81.7 million for the year ended 31 December 2017 to RMB26.3 million for the year ended 31 December 2018.

NON-OPERATING EXPENSES

The Group's non-operating expenses decreased by RMB21.7 million from RMB23.8 million for the year ended 31 December 2017 to RMB2.1 million for the year ended 31 December 2018.

TOTAL PROFIT

The Group's total profit increased by 3.2% from RMB2,874.3 million for the year ended 31 December 2017 to RMB2,967.1 million for the year ended 31 December 2018. The increase in total profit was mainly due to the increase in revenue of the Group in 2018. The Group's sales profit margins for the years ended 31 December 2017 and 31 December 2018 were 19.0% and 18.9% respectively.

INCOME TAX EXPENSE

The Group's income tax expense increased by 1.4% from RMB312.1 million for the year ended 31 December 2017 to RMB316.6 million for the year ended 31 December 2018.

The Company, Times Electronics, Ningbo Times, Shenyang Times, Qingdao Electric, ZNERCC and Times Signal & Communication were accredited as high and new technology enterprises and received approvals from the relevant government authorities, and they were subject to the preferential corporate income tax rate of 15%.

Baoji Times was subject to the preferential tax policy of the Development of the Western Region in China, and they were entitled to be taxed at the preferential corporate income tax rate of 15%.

Times Software enjoyed the preferential tax policy of "Two years exemptions and three years halve" ("兩免三減半").

The effective income tax rates of the Group for the years ended 31 December 2017 and 31 December 2018 were 10.9% and 10.7% respectively.

Management Discussion and Analysis

NET PROFIT ATTRIBUTABLE TO SHAREHOLDERS OF THE PARENT

Net profit attributable to Shareholders of the Parent increased by 3.5% from RMB2,523.5 million for the year ended 31 December 2017 to RMB2,612.5 million for the year ended 31 December 2018. The increase in the net profit attributable to Shareholders of the Parent was mainly due to the increase in revenue of the Group in 2018.

NON-CONTROLLING INTERESTS

Non-controlling interests decreased by RMB0.7 million from RMB38.7 million for the year ended 31 December 2017 to RMB38.0 million for the year ended 31 December 2018. The decrease in non-controlling interests was mainly due to the decrease in net profit from the Group's non-wholly owned subsidiaries as compared to last year.

EARNINGS PER SHARE

Earnings per share increased by RMB0.07 from RMB2.15 for the year ended 31 December 2017 to RMB2.22 for the year ended 31 December 2018.

LIQUIDITY AND SOURCE OF CAPITAL

Cash flows and working capital

The Group's needs for working capital were mainly satisfied by cash generated from operations. The net increase in cash and cash equivalents of the Group amounted to RMB958.8 million for the current year.

Net cash inflows from operating activities

The Group's net cash inflow from operating activities increased by RMB2,289.4 million from RMB1,469.2 million for the year ended 31 December 2017 to RMB3,758.6 million for the year ended 31 December 2018, which was mainly due to the increase in the cash received from sale of goods or rendering of services by the Group as compared to last year.

Net cash outflows from investing activities

For the year ended 31 December 2018, the Group's net cash outflow from investing activities was approximately RMB2,350.4 million, which principally includes the cash received from disposal or returns of investments of RMB10,700.0 million, the cash paid for acquisition of investments of RMB12,458.8 million, and the cash paid for acquisition of fixed assets, intangible assets and other long-term assets of RMB671.4 million.

Net cash outflows from financing activities

For the year ended 31 December 2018, the Group's net cash outflow from financing activities was approximately RMB451.6 million. The cash outflow item in financing activities was mainly the amount of RMB553.4 million of cash paid for distribution of dividend or profits and for interest expenses.

Management Discussion and Analysis

LIQUIDITY

The Board considers that the Group has sufficient liquidity to meet the Group's present requirements for liquid funds.

COMMITMENTS

The Group's commitments as at the dates indicated are set out as follows:

	31 December 2018 (RMB million)	31 December 2017 (RMB million)
Contracted but not provided for		
Capital commitments	385.5	186.5
Investments in subsidiaries	27.5	–
Total	<u>413.0</u>	<u>186.5</u>

INDEBTEDNESS

The following table sets out the Group's indebtedness as at the dates indicated:

	31 December 2018 (RMB million)	31 December 2017 (RMB million)
Short-term borrowings	168.2	202.4
Long-term borrowings (inclusive of amounts due within one year)	237.3	102.0
Total	<u>405.5</u>	<u>304.4</u>

The Group's borrowings were mainly fixed rate loans.

Maturity analysis:

	31 December 2018 (RMB million)	31 December 2017 (RMB million)
Due within 1 year	173.1	205.0
Due within 1 to 2 years	5.1	6.7
Due within 2 to 5 years	154.6	15.0
Due over 5 years	72.7	77.7
	<u>405.5</u>	<u>304.4</u>

Management Discussion and Analysis

INDEBTEDNESS (continued)

As at 31 December 2018, the annual interest rates for loans above were 2.15%-4.92% (31 December 2017: 0-4.92%).

Pursuant to the relevant borrowing agreements, the loans amounting to RMB139.3 million on 31 December 2018 (31 December 2017: RMB204.1 million) were entitled to priority to be repaid with certain assets if the Group is incapable of repayment. The carrying amount of such assets as at 31 December 2018 and 31 December 2017 were RMB247.6 million and RMB332.5 million respectively.

PLEDGE

As at 31 December 2018, no fixed assets (31 December 2017: nil) was pledged to secure general banking facilities granted to the Group.

As at 31 December 2018, the Group pledged no land use rights (31 December 2017: nil) to obtain bank borrowings.

CAPITAL MANAGEMENT

The primary objectives of the Group's capital management are to safeguard the Group's ability to continue as a going concern and to maintain healthy capital ratios in order to support its business development and maximise Shareholders' value.

The Group manages its capital structure and makes adjustment to it in light of changes in economic conditions and risk characteristics of underlying assets. To maintain or adjust the capital structure, the Group may adjust the dividend payment to Shareholders, return capital to Shareholders or issue new shares. The Group is not subject to any externally imposed capital requirements. The Group made no changes in the objectives and processes for managing capital in 2018 and in 2017.

The Group monitors capital by using the gearing ratio, which is net debt divided by the adjusted capital plus net debt. The Group's policy is to maintain the gearing ratio below 30%. Net debt includes the net amount of financial liabilities at fair value through profit or loss, all borrowings, bills payable and trade payables, employee benefits payable, other taxes payable excluding income tax payable, other payables and long-term payables, less cash and cash equivalents. Capital includes equity attributable to Shareholders of the Parent. The Group's gearing ratio was 15.2% as at 31 December 2017 and 11.7% as at 31 December 2018.

OPERATING SEGMENTS

For management purposes, the Group's operating activities are attributable to a single operating segment, focusing on the provision of rolling stock and its extension products and services in the market. Therefore, no other operating segment is presented.

CANCELLATION OF SUBSIDIARIES

In May 2018, Times Equipment, a wholly-owned subsidiary of the Company, was merged by the Company. The related industrial and administrative registration is finished on 15 May 2018.

Management Discussion and Analysis

NON-CONTROLLING SHAREHOLDERS INCREASE CAPITAL AND LOSE CONTROL

The Company originally held an equity of 51% of Wenzhou Electric and had control over it. In May 2018, as approved by the extraordinary general meeting of Wenzhou Electric, Wenzhou Electric, a subsidiary originally included in the Group's consolidation scope, completed capital increase, the original minority shareholders added investments by means of cash and re-elected the board of directors. The Company no longer has control over Wenzhou Electric. According to the new joint venture agreement, Wenzhou Electric has become the Company's joint venture and subsequently accounted under equity method. The change of industrial and commercial registration was completed on 24 May 2018. Since then, the Group will no longer include Wenzhou Electric in the consolidation scope. At the date of loss of control over Wenzhou Electric, the balance of cash and cash equivalents was RMB30.7 million, the value of residual stock right was RMB15.8 million, which is subsequently accounted under equity method.

POST BALANCE SHEET EVENTS

On 26 March 2019, the 8th meeting of the fifth session of the Board of the Company approved the profit distribution plan for 2018 to distribute cash dividends of RMB529.0 million in total to all Shareholders, equivalent to the distribution of RMB0.45 per share (tax inclusive) based on the total number of 1,175,476,637 shares of the Company.

On 18 January 2019, the Company entered into a plan of arrangement with Dynex, pursuant to which, the Company acquired all the issued and outstanding shares of Dynex not held by the Company at a cash consideration of 0.65 Canadian dollar per share in accordance with the plan of arrangement under the Canada Business Corporations Act, at a total consideration of approximately Canadian dollar 13.1 million. The plan of arrangement was completed on 15 March 2019 and Dynex became a wholly-owned subsidiary of the Company. The delisting of the shares of Dynex from the TSX Venture Exchange took place at the close of trading on 19 March 2019 (Canada time).

CONTINGENT LIABILITIES

The Group did not have any material contingent liabilities as at 31 December 2018, and no member of the Group was engaged in any litigation, arbitration or claims of material importance and, so far as the Board was aware, no litigation or claim of material importance was pending or threatened by or against any member of the Group.

MAJOR RISKS AND UNCERTAINTIES

The Group has reviewed the possible risks and uncertainties which may affect its businesses, financial condition, operations and prospects, and considered that the major risks and uncertainties that may affect the Group are those as set out below:

Market Risks

The Group is subject to various market risks, including foreign exchange risk. The businesses of the Group are principally located in China, while most of the transactions of the Group are denominated in RMB, certain of its sales, purchases and borrowings are denominated in foreign currencies including Japanese yen, United States dollar and the UK Pound sterling. Fluctuations of exchange rates of RMB against such foreign currencies can affect the Group's results of operations. Details of such risks are set out in Note VIII. 2.

Policy Risk

The Group is subject to risks arising from changes in the construction policies of the railway market by the Chinese government.

Management Discussion and Analysis

Corporate Governance Report

The Company has always been dedicated to improving the quality of its corporate governance, and maximizing long-term Shareholder value by increasing the Group's accountability and transparency through strict implementation of corporate governance practices.

I. CORPORATE GOVERNANCE PRACTICES

The Company places great emphasis on the superiority, stability and reasonability of its corporate governance.

During the year ended 31 December 2018, the Company has fully complied with all the code provisions of the CG Code, except for code provision A.6.7 as set out below.

Due to other important commitments, Mr. Zhang Xinning, a non-executive Director of the Company and Ms. Liu Chunru, an independent non-executive Director of the Company did not attend the annual general meeting for 2017 of the Company on 8 June 2018, which constituted a deviation from the requirement of code provision A.6.7.

The Board and the management of the Company make every effort to comply with the CG Code in order to protect and enhance the interests of the Company's Shareholders. As the Company continues to grow, the Company will monitor and revise its corporate governance policy on an ongoing basis in order to ensure the relevant policy will be in compliance with the general regulations and standards required by the Shareholders.

In accordance with the relevant laws and regulations, the Company has set up a structure with general meetings, the Board, committees of the Board, the Supervisory Committee and the management to act as check and balance against one another. The division of responsibilities among the general meetings, the Board, committees of the Board, the Supervisory Committee and the management are distinct, and each of them is assigned with clearly defined responsibilities. The Board has delegated the execution and daily operations of the Group's business to the management. However, clear directions are given to the management as to the matters that must be approved by the Board before decisions are made on behalf of the Group. The Company will continue to improve its corporate governance mechanism, exercise discipline in the fulfilment of corporate duties, and enhance the disclosure of information.

II. SECURITIES TRANSACTIONS BY DIRECTORS

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers (the "Model Code") as set out in Appendix 10 to the Listing Rules as the code of conduct for Directors' securities transactions.

Having made specific inquiries of all Directors in relation to the compliance with the Model Code, the Company confirmed that all Directors have complied with the required standards set out in the Model Code during the reporting period.

Corporate Governance Report

III. BOARD OF DIRECTORS

1. Composition of the Board

According to the Articles, the Board of Directors shall comprise ten Directors, with one Chairman, one Vice Chairman and eight other Directors, among which three or more shall be independent non-executive Directors.

As at the date of this report, the Board consists of ten Directors, among whom Mr. Li Donglin is the Chairman of the Board and an executive Director; Mr. Yang Shouyi is the Vice Chairman of the Board and an executive Director; Mr. Liu Ke'an and Mr. Yan Wu are the other two executive Directors; Mr. Zhang Xinning is the non-executive Director; and Mr. Chan Kam Wing, Clement, Mr. Pao Ping Wing, Ms. Liu Chunru, Mr. Chen Xiaoming and Mr. Gao Feng are the five independent non-executive Directors.

On 12 July 2018, (1) Mr. Li Donglin was redesignated as the Chairman of the Board, appointed as the chairman and a member of the strategy committee and the chairman and a member of the nomination committee of the Company and ceased to be the chairman of the risk control committee of the Company; (2) Mr. Yang Shouyi was appointed as the Vice Chairman of the Board, an executive Director, the chairman and a member of the risk control committee of the Company and a member of the strategy committee of the Company. Mr. Gao Feng was appointed as an independent non-executive Director, a member of each of the strategy committee and the audit committee of the Company from 17 August 2018.

On 25 March 2018, due to other personal commitment, Mr. Ouyang Minggao resigned as an independent non-executive Director, a member of the strategy committee and a member of the audit committee of the Company. On 12 July 2018, due to adjustment in work allocation, Mr. Ding Rongjun resigned as the Chairman of the Board, an executive Director, the chairman and a member of each of the strategy committee and the nomination committee of the Company.

The Company has entered into a service contract with each of the Directors which sets out, among other things, the term of office and remuneration. Each session of the Board has a term of three years. Directors elected as the members of any new session of the Board will have a term of office commencing from the date on which he/she is elected up to the date on which members of the next session of the Board are elected or for a shorter period as may be decided upon at the general meeting. Directors appointed to fill casual vacancy will have a term of office commencing from the date of his/her appointment up to the next general meeting or for a shorter period as may be decided upon at the general meeting. The period of notice of termination of the service contracts given by either party shall not be less than three months.

The Directors have strictly complied with their undertakings, and have been honest, trust-worthy and diligent in the performance of their duties. The number of Board members and the composition of the Board of the Company have complied with the relevant laws and regulatory requirements. Other than working relationship, there is no other relationship among the members of the Board (especially the Chairman and the general manager), including any financial, business, family or other material or relevant relationship.

The Directors have distinguished themselves in their respective fields of expertise, and have demonstrated high standards of personal and professional ethics and integrity. All Directors have devoted sufficient time and attention to the Company's affairs. The Board believes that the ratio of executive Directors to non-executive Directors is reasonable and adequate to provide checks and balances that safeguard the interests of the Shareholders and the Company as a whole.

Corporate Governance Report

III. BOARD OF DIRECTORS (continued)

1. Composition of the Board (continued)

The Company has received the annual confirmation letters from each of the independent non-executive Directors, namely, Mr. Chan Kam Wing, Clement, Mr. Pao Ping Wing, Ms. Liu Chunru, Mr. Chen Xiaoming and Mr. Gao Feng of their independence as required under Rule 3.13 of the Listing Rules and the Company considers that they remain independent in accordance with the guidelines set out in the Listing Rules.

2. Board Meetings and Directors' Attendances at Board Meetings

During the reporting period, the Company held eight Board meetings and one general meeting.

The following is the attendance record of the Directors at the Board meetings and the general meetings held during the reporting period.

Name	Title	Attendances at the Board meetings	Attendances at the general meetings
Li Donglin	Chairman of the Board and Executive Director	8/8	0/1

Note 6: Mr. Ouyang Minggao was appointed as an independent non-executive Director of the Company on 18 August 2017 and resigned as an independent non-executive Director of the Company on 25 March 2018.

III. BOARD OF DIRECTORS (continued)

3. Directors' Continuous Training and Development Program

Pursuant to the CG Code, all Directors should participate in continuous professional development program to develop and refresh their knowledge and skills. This is to ensure that their contribution to the Board remains fully informed and relevant.

All Directors have received regular briefings and updates on the Group's business, operations, risk management and corporate governance matters, and have been provided with material information on new laws and ordinances or changes to important laws and ordinances applicable to the Group. All Directors are required to provide the Company with their respective training records pursuant to the CG Code.

During the reporting period, the Company has provided the Directors with appropriate and continuous training, and professional development courses, the Directors who held office at the material time attended the relevant training, and some of the independent non-executive Directors attended relevant trainings arranged by other organizers. The Company has received from each of the Directors the confirmation on attending continuous professional trainings. The trainings received by each Director in 2018 are as follows:

Executive Directors

Li Donglin	A, B, D, E
Yang Shouyi	B, D, E
Liu Ke'an	A, B, D, E
Yan Wu	A, B, D, E
Ding Rongjun	A, B, D

Non-Executive Directors

Zhang Xinning	A, B, D, E
---------------	------------

Independent non-Executive Directors

Chan Kam Wing, Clement	A, B, C, D, E
Pao Ping Wing	A, B, C, D, E
Liu Chunru	A, B, C, E
Chen Xiaoming	B, C, D, E
Gao Feng	B, D, E
Ouyang Minggao	C, D

Note: A, B, C, D and E in the above table represent trainings of the following types respectively:

- A. Attending trainings on value assessment by directors in acquisition or disposal transactions arranged by lawyers of the Company
- B. Attending trainings in relation to audit and financial knowledge arranged by the accountant of the Company
- C. Attending trainings in relation to connected transactions, directors' responsibilities, the CG Code and accounting standards arranged by other organizers
- D. Studying and reading briefings and analysis on the Group's business, operations, risk consciousness and corporate governance matters, as well as the latest laws and regulations on directors' responsibilities
- E. Attending online trainings for directors of listed issuers in relation to the newly revised Listing Rules effective from 1 January 2019 launched by the Hong Kong Stock Exchange.

Corporate Governance Report

III. BOARD OF DIRECTORS (continued)

4. Operation of the Board

The Board of Directors is responsible to the general meetings of Shareholders in relation to the leadership and control of the Company. The Board is responsible for formulating the Group's overall development strategies, reviewing and monitoring the Group's business performance, and preparing and reviewing its financial statements. The Board delegates the day-to-day management, administration and operation of the Group to the management. The delegated functions are reviewed by the Board periodically to ensure that they accommodate the needs of the Group.

The Board convenes regular and ad hoc meetings in accordance with legal procedures and complies strictly with relevant laws and regulations and the Articles in the exercise of its authorities with an emphasis on protecting the interests of the Company and all of the Shareholders.

All Directors are given no less than 14 days' notice of regular Board meetings and are generally given reasonable prior notice of Board meetings other than regular meetings.

The secretary to the Board records and prepares documents concerning matters that are discussed during the Board meetings. The minutes of every Board meeting are circulated to all Directors for their review. After the Board minutes have been finalized, the minutes will be signed by all Directors who have attended the meeting, the secretary to the Board and the person(s) recording at the meeting and will be permanently kept as an important record of the Company at the Company's domicile.

The Board of Directors is responsible to the general meetings of Shareholders and it principally exercises the following powers:

- (1) to convene general meetings of the Shareholders and to report its work at general meetings;
- (2) to implement the resolutions of general meetings;
- (3) to make decisions on business plans and investment plans of the Company;
- (4) to draw up annual financial budget and final budgetary reports;
- (5) to draw up profit distribution plans and plans for making up for losses;
- (6) to draw up plans for the material investments, material acquisitions or disposals, mergers, split or dissolution of the Company; and
- (7) to draw up proposals for any amendments to the Articles.

All Directors have access to the advice and services of the company secretary. The Company provides all Directors with the necessary information and data to enable them to make scientific, timely and prudent decisions. Any Director can request the general manager to request, or through the general manager request, the Company's relevant department to provide him/her with any necessary information and explanation to enable him/her to make scientific, timely and prudent decisions. If any of the independent non-executive Directors considers necessary, an independent institution can be engaged to provide independent opinions to assist his/her in decision-making. The Company is responsible for arranging the engagement of independent institution at the Company's costs.

Corporate Governance Report

III. BOARD OF DIRECTORS (continued)

4. Operation of the Board (continued)

When voting on any connected transaction of the Company, Director(s) with interest in such connected transaction shall abstain from voting. If a resolution cannot be passed due to the concerned Director(s) abstaining from voting, the resolution will be submitted directly to the Shareholders at a general meeting for consideration.

The Company has arranged appropriate liability insurance policies for Directors, supervisors and senior management members, for the purpose of covering their liability arising out of the Group's corporate activities.

5. Committees of the Board

The Company has established strategy, audit, risk control, remuneration and nomination committees under the Board. The function of each committee is to study specific issues in its area of expertise and to provide opinions and suggestions for consideration by the Board.

a. Strategy committee

The Company's strategy committee was established in October 2005. Currently, the strategy committee consists of three executive Directors, one non-executive Director and one independent non-executive Director, namely Mr. Li Donglin, Mr. Yang Shouyi, Mr. Liu Ke'an, Mr. Zhang Xinning and Mr. Gao Feng, among whom Mr. Li Donglin is the chairman of the committee. Mr. Li Donglin was appointed as the chairman of the strategy committee on 12 July 2018. Mr. Yang Shouyi was appointed as a member of the strategy committee on 12 July 2018. Mr. Gao Feng was appointed as a member of the strategy committee on 17 August 2018. Mr. Ouyang Minggao resigned as a member of the strategy committee on 25 March 2018. Mr. Ding Rongjun resigned as the chairman and a member of the strategy committee on 12 July 2018.

The main responsibilities of the strategy committee are:

- (1) to provide study reports to the Board in respect of government policies and industry trends;
- (2) to conduct strategic research concerning the Group;
- (3) to review and assess material investments and financial plans; and
- (4) to review material capital expenditure projects.

During the reporting period, the strategy committee of the Company held one meeting which was attended by all committee members who held office at the material time. Main issues discussed at the meeting were work report of the strategy committee and annual investment plan of the Company, etc.

Corporate Governance Report

III. BOARD OF DIRECTORS (continued)

5. Committees of the Board (continued)

b. Audit committee

The Company's audit committee was established in October 2005. Currently, the audit committee consists of five independent non-executive Directors. The committee's members are Mr. Chan Kam Wing, Clement, Mr. Pao Ping Wing, Ms. Liu Chunru, Mr. Chen Xiaoming and Mr. Gao Feng, among whom Mr. Chan Kam Wing, Clement is the chairman of the audit committee. Mr. Chan Kam Wing, Clement has appropriate professional qualifications and related financial management expertise. Mr. Ouyang Minggao resigned as a member of the audit committee on 25 March 2018. Mr. Gao Feng was appointed as a member of the audit committee on 17 August 2018.

The main responsibilities of the audit committee are: to consider and supervise the financial reporting processes and internal control procedures of the Company, to exercise its authority to guide and supervise internal audits; and to make recommendations on the appointment or change of external auditor. The terms of reference of the audit committee are posted on the Company's website and the Stock Exchange's HKExnews website.

The audit committee of the Company held four meetings during the reporting period. The committee mainly discussed issues concerning the Company's annual results, interim results, quarterly results, connected transactions, internal audit and internal monitoring related issues, etc. at the meetings.

The following table shows the record of attendance of the audit committee members:

Chan Kam Wing, Clement	4/4
Pao Ping Wing	4/4
Liu Chunru	4/4
Chen Xiaoming (Note 1)	3/4
Gao Feng (Note 2)	1/1
Ouyang Minggao (Note 3)	0/0

Note 1: Mr. Chen Xiaoming appointed Mr. Pao Ping Wing as his representative to attend the third meeting of the audit committee of the fifth session of the Board held on 25 March 2018.

Note 2: Mr. Gao Feng was appointed as a member of the audit committee on 17 August 2018.

Note 3: Mr. Ouyang Minggao was appointed as a member of the audit committee of the Company on 18 August 2017 and resigned as a member of the audit committee on 25 March 2018.

The Company has established an audit and risk control department with relatively independent internal audit functions. The audit and risk control department is under the guidance and supervision of the audit committee, and reports its work to the audit committee.

Corporate Governance Report

III. BOARD OF DIRECTORS (continued)

5. Committees of the Board (continued)

c. Risk control committee

The Company's risk control committee was established in June 2006. It currently consists of three Directors, including two executive Directors and an independent non-executive Director. The members of the risk control committee are Mr. Yang Shouyi, Mr. Yan Wu and Mr. Chan Kam Wing, Clement, among whom Mr. Yang Shouyi is the chairman of the risk control committee. Mr. Yang Shouyi was appointed as the chairman and a member of the risk control committee on 12 July 2018. Mr. Li Donglin ceased to be the chairman and a member of the risk control committee from 12 July 2018.

The main responsibility of the risk control committee is to establish, assess and revise risk management strategies.

During the reporting period, the risk control committee of the Company held one meeting which was attended by all committee members who held office at the material time. At such meeting, the committee mainly discussed issues concerning corporate governance report and internal control of the Company.

d. Remuneration committee

The Company's remuneration committee was established in October 2005. Its name was changed to nomination and remuneration committee on 27 June 2008. On 29 March 2012, it was approved that the nomination committee and remuneration committee be separated into two committees and renamed as nomination committee and remuneration committee, respectively. Currently the remuneration committee consists of three independent non-executive Directors. The committee members are Mr. Pao Ping Wing, Ms. Liu Chunru and Mr. Chen Xiaoming. Mr. Pao Ping Wing is the chairman of the remuneration committee.

The main responsibilities of the remuneration committee are to review the terms of the remuneration packages of individual Directors and senior management, and to make recommendations to the Board. The terms of reference of the remuneration committee are posted on the Company's website and the Stock Exchange's HKExnews website.

The remuneration committee has adopted the manner set out under the code provision B.1.2(c)(ii) of the CG Code to make recommendations to the Board on the remuneration packages of individual executive Director and senior management.

For the year ended 31 December 2018, the remuneration of senior management fell within the following bands:

HKD1,000,000 or below	4
HKD1,000,001 – HKD2,000,000	11

Further details required to be disclosed in respect of the remuneration of Directors, supervisors, general manager and five highest paid employees under Appendix 16 to the Listing Rules are set out in Note X.5(11) and XIII.3(3).

Corporate Governance Report

III. BOARD OF DIRECTORS (continued)

5. Committees of the Board (continued)

d. Remuneration committee (continued)

The remuneration committee of the Company held three meetings during the reporting period. Remuneration of the Directors and the senior management and other matters were the main issues discussed at the meetings. The following table shows the record of attendance of the remuneration committee members:

Pao Ping Wing	3/3
Liu Chunru	3/3
Chen Xiaoming (Note)	2/3

Note: Mr. Chen Xiaoming appointed Mr. Pao Ping Wing as his representative to attend the second meeting of the remuneration committee of the fifth session of the Board held on 26 March 2018.

e. Nomination committee

The nomination and remuneration committee was separated and changed its name to nomination committee and remuneration committee, respectively as approved by the Board on 29 March 2012. It currently consists of three Directors, including an executive Director and two independent non-executive Directors. The committee members are Mr. Li Donglin, Mr. Pao Ping Wing and Ms. Liu Chunru, among whom Mr. Li Donglin was appointed as the chairman and a member of the nomination committee on 12 July 2018. Mr. Ding Rongjun resigned as the chairman and a member of the nomination committee on 12 July 2018.

The main responsibilities of the nomination committee are to be responsible for nomination and appraisal of Directors and senior management members and to make recommendations to the Board on any related adjustments. The amended terms of reference of the nomination committee (incorporating the nomination policy) were approved by the Board on 26 March 2019 to take effect on 1 January 2019 and are posted on the Company's website and the Stock Exchange's HKExnews website.

Pursuant to the nomination policy, the nomination committee is responsible for, among other things, identifying suitably qualified candidates to become Board members and senior management members, and selecting and nominating the relevant person for appointment as a Director (and senior management member) or make recommendations to the Board on such matter. When identifying suitable candidates, the nomination committee shall comply with the principle of meritocracy, consider the strengths of the relevant candidate, the contributions they can make to the Board and give due consideration to the benefits of membership diversity in terms of objective conditions. When making recommendations to the Board on the appointment of independent non-executive Directors, the nomination committee shall take into account the process used for identifying that person, the reasons for the person to be independent and to be able to devote sufficient time to perform the duties of a director, the perspectives, skills and experience that the person can bring to the Board, and how the person would contribute to diversity of board members.

The procedures for Shareholders of the Company to nominate a candidate for election as a director are available on the Company's website.

Corporate Governance Report

III. BOARD OF DIRECTORS (continued)

5. Committees of the Board (continued)

e. Nomination committee (continued)

During the reporting period, the Company held four nomination committee meetings. Re-appointment of Directors, senior management, recommendation of candidates for Directors, and implementation of the board diversity policy were the main issues discussed at such meetings. The following table shows the record of attendance of the nomination committee members:

Ding Rongjun (Note 1)	2/2
Li Donglin (Note 2)	1/1
Pao Ping Wing	4/4
Liu Chunru	4/4

Note 1: Mr. Ding Rongjun resigned as the chairman and a member of the nomination committee on 12 July 2018.

Note 2: Mr. Li Donglin was appointed as the chairman and a member of the nomination committee on 12 July 2018.

f. Corporate governance functions

The Board is responsible for the following corporate governance functions:

- i. to draw up and review the Company's corporate governance policy and practices and make recommendations;
- ii. to review and monitor the training and professional development on an ongoing basis of the Directors and senior management members;
- iii. to review and monitor the Company's policies and practices on compliance, laws and regulations;
- iv. to draw up, review and monitor any code of conduct and compliance manual, where appropriate, applicable to employees and Directors; and
- v. to review the Company's compliance with the CG Code and the disclosure in the corporate governance report as set out in the annual report of the Company.

Corporate Governance Report

IV. CHAIRMAN AND GENERAL MANAGER

The offices of the Chairman and the general manager of the Company are held by different persons. Currently, Mr. Li Donglin is the Chairman, and Mr. Liu Ke'an is the general manager. The division of responsibilities between the Chairman and the general manager of the Company has been clearly established and set out in writing. The Chairman is responsible for leadership of the Board and chairing Board meetings, while the general manager is responsible for the Company's day-to-day operations.

According to the Articles, the Chairman exercises the following powers:

- (1) to preside at general meetings, and to convene and preside at Board meetings;
- (2) to supervise and check the implementation of the Board's resolutions;
- (3) to sign the securities issued by the Company; and
- (4) other powers and duties granted by the Board.

The general manager is responsible to the Board of Directors. The general manager and the management team under his leadership have the following powers:

- (1) to be in charge of the Company's production, operation and management and to organise the implementation of the Board's resolutions;
- (2) to organise the implementation of the Company's annual business plan and investment plan;
- (3) to establish plans for the establishment of the Company's internal management structure;
- (4) to establish the Company's basic management system;
- (5) to formulate the basic rules and regulations of the Company;
- (6) to propose the appointment or removal of deputy general managers, chief officers and general manager assistants of the Company;
- (7) to appoint or remove management personnel other than those required to be appointed or removed by the Board; and
- (8) to formulate plans for the wages, benefits, incentives and penalties of employees, to determine the appointment and removal, promotion and demotion, salary increment and decrement, appointment, employment, termination of employment of employees.

Corporate Governance Report

V. NON-EXECUTIVE DIRECTORS

According to the Articles, non-executive Directors of the Company are elected at general meetings for a term of three years. Upon expiry of terms of office, non-executive Directors are eligible for re-election.

VI. BOARD DIVERSITY POLICY

The Board has adopted a board diversity policy effective on 11 October 2013, which was subsequently amended by the Board on 26 March 2019 to take effect on 1 January 2019. When determining the composition of the Board, the Company seeks to achieve board diversity through the consideration of a number of aspects, including but not limited to gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service and any other factors that the Board may consider relevant and applicable from time to time. All appointments of the Board will be based on meritocracy, and candidates will be considered against objective criteria, having due regard to the benefits of diversity of the Board. Selection of candidates will be based on a range of diversity perspectives as mentioned above. The ultimate decision will be based on merits of the candidates and the contribution that they may bring to the Board, having due appropriate regard to the benefits of diversity to the Board and also the needs of the Board without focusing on a single diversity aspect.

The Board has set measurable objectives (including the aforesaid measurable objectives) to implement the policy and the nomination committee is responsible for reviewing such objectives from time to time to ensure their appropriateness and monitoring the progress made towards achieving those objectives, and reviewing the policy, as appropriate, to ensure its continued effectiveness from time to time.

During the year under review, the nomination committee has considered the board diversity policy and whether the Board has the appropriate balance of skills, experience and diversity of perspectives necessary to enhance the effectiveness of the Board and to maintain high standards of corporate governance. After due consideration, the nomination committee has concluded that the current composition of the Board is a balanced and diversified combination that suits the business development of the Company and satisfies the board diversity policy for the year under review.

VII. NOMINATION OF DIRECTORS

In accordance with the Articles, Directors are elected at general meetings. Written notice of intention to nominate a candidate for appointment as director and the candidate's consent to be nominated must be given to the Company after the notice of the general meeting has been issued and at least seven days prior to the holding of the general meeting.

Corporate Governance Report

VIII. DIVIDEND POLICY

The Board has adopted a dividend policy on 26 March 2019 to take effect on 1 January 2019, which aims to provide the Shareholders with stable dividends and sets out the principles and guidelines for declaring, paying and distributing the profits of the Company as dividends.

In deciding whether to propose a dividend and determining the amount of dividend, the Board takes into account (i) the Company's actual and expected financial performance, (ii) retained earnings and distributable reserves of the Company and each of the members of the Group, (iii) the debts to equity ratio, return on equity and relevant financial covenants of the Group, (iv) the Group's expected working capital requirements and future strategic plans, (v) the general economic conditions, the Group's financial conditions, business cycle of the Group's business and other internal or external factors that may have an impact on the business or financial performance and status of the Group, and (vi) other factors that the Board deems appropriate.

The Company does not have any pre-determined dividend distribution ratio. The declaration and payment of dividends is subject to the absolute discretion of the Board, and any restrictions under the Articles, the Company Law of the PRC, the Corporate Income Tax Law of the PRC and any other applicable laws and regulations. The Board will periodically review the dividend policy and reserves the right in its sole and absolute discretion to amend the policy at any time.

IX. REMUNERATION OF THE AUDITOR

With effect from the close of the annual general meeting of the Company held on 8 June 2018, Ernst & Young Hua Ming LLP ("Ernst & Young Hua Ming") retired as the auditor of the Company. On 8 June 2018, Deloitte Touche Tohmatsu Certified Public Accountants LLP ("Deloitte Touche Tohmatsu") was appointed as the auditor of the Company. For the year ended 31 December 2018, the services provided by Deloitte Touche Tohmatsu and the remuneration are as follows:

	For the year ended 31 December 2018 (RMB'000)
Service provided:	
Audit Service	3,070
Other Services	142

Corporate Governance Report

X. DIRECTORS' RESPONSIBILITIES IN RESPECT OF THE FINANCIAL REPORTS

The Directors confirm that they are responsible for the preparation of financial reports, and to give a true and fair view of the Group's financial status and operating results for the financial year ended 31 December 2018.

The Directors also confirm that there were no material uncertainties which may materially affect the ability of the Company to carry on as a going-concern.

XI. COMPANY SECRETARY

Mr. Tang Tuong Hock, Gabriel was appointed as the company secretary of the Company in July 2006. Biographical details of Mr. Tang are set out under the section headed "Directors, Supervisors and Senior Management".

Mr. Tang took no less than 15 hours of relevant professional training during the financial year ended 31 December 2018 as required under Rule 3.29 of the Listing Rules.

XII. CONSTITUTION

During the reporting period, in accordance with the requirements of the Notice on Inclusion of Matters Related to Party Construction of Central Enterprises in the Articles of Associations issued by the State-owned Assets Supervision and Administration Commission of the State Council of the PRC and taking into account the actual situation of the Company, the Company made amendments to the Articles, which were passed by way of a special resolution at the 2017 annual general meeting of the Company held on 8 June 2018. For details, please refer to the circular of the Company dated 23 April 2018 and the amended Articles effective from 8 June 2018.

XIII. RISK MANAGEMENT AND INTERNAL CONTROL

The Board is responsible for the establishment, improvement and effective implementation of risk management and internal control systems as well as carrying out supervision on the effectiveness of the risk management and internal control systems of the Company and its subsidiaries. The Company has a sound organization system of internal control and has established the audit and risk control department with internal audit functions. Guided by the Board, the audit committee and the risk control committee, the audit and risk control department carries out supervision and evaluation for internal controls of the Company and its branches and subsidiaries in respect of important control functions such as financial monitoring, operation monitoring, compliance monitoring and risk prevention and management, supervises and timely rectifies internal control deficiencies and effectively controls operating risks.

The Company continues to strengthen its risk management systems and further enhances its risk control capability by deeply developing comprehensive risk management. At present, the Company has a relatively sound risk management system. Through the integration and optimization of management systems, the Company has strengthened the risk control capability and effectively controlled the risk points across various businesses. On this basis, the Company implements annual risk assessment, the Company has developed its rolling risk database by formulating risk assessment plans, collecting and identifying risk information and organizing review by five professional risk management groups, it has also organized the risk management plans and conducted risk response and tracking, thereby developing a constant mechanism for risk management.

Corporate Governance Report

XIII. RISK MANAGEMENT AND INTERNAL CONTROL (continued)

The Company has a stable and reliable internal monitoring system in place. During the reporting period, the Company put great emphasis on the constant internal control of various businesses and fully implemented rectification of internal control deficiencies in prior years; focused on supervision of research and development, manufacture, procurement, sales, finance management, strategy management, after-sale service and other operations and persistently made use of various control measures, including control on separation of incompatible posts, authorization approval, property protection, budget control, operation analysis and performance appraisal, to maintain risk control within tolerable bounds. The Company has had no material monitoring failure during the year with annual internal monitoring evaluation to ensure the effective operation and appropriate implementation of internal monitoring systems. The Company has effective procedures in relation to financial reporting and compliance with requirements of the Listing Rules.

The risk management and internal monitoring systems of the Company are effective and sufficient to allow the continuing protection and improvement of the Company's internal control activities and ensure the Company's ability to withstand changes in internal business and external environment from financial, operational, compliance and risk control perspectives, so as to safeguard the Company's asset and interests of Shareholders.

XIV. SHAREHOLDERS' RIGHTS

1. Convening extraordinary general meetings

In accordance with the Articles and the rules of procedures of general meetings, Shareholder(s) who individually or jointly holding 10% or more of the Company's issued shares carrying voting rights may request to convene an extraordinary general meeting in writing and set out the proposals of the meeting. Such meeting shall be held within two months after the deposit of such requisition. If within 30 days after the Board has received such written requisition, the Board fails to give a notice to convene such meeting, such Shareholder(s) himself/herself (themselves) may do so within four months from the date the Board has received such requisition.

2. Enquiries to the Board

To ensure effective communication between the Board and the Shareholders, the Company adopted a Shareholders' communication policy (the "Policy") on 29 March 2012. Under the Policy, the Company's information shall be communicated to the Shareholders mainly through general meetings (including annual general meetings), the Company's financial reports (interim reports and annual reports), and its corporate communications posted on the Company's website and the Stock Exchange's HKExnews website.

Shareholders may at any time make a request for the Company's information to the extent such information is publicly available. Any relevant questions shall be first directed to the company secretary at the Company's principal place of business in Hong Kong or the Company's Hong Kong share registrar, Computershare Hong Kong Investor Services Limited, at 17M Floor, Hopewell Centre, 183 Queen's Road East, Wanchai, Hong Kong.

3. Putting proposals to general meetings

Shareholder(s) who individually or jointly holding 3% or more of the Company's total shares carrying voting rights is (are) entitled to put forward their proposals to an annual general meeting. Besides, Shareholder(s) may also follow the procedures set out in item 1 above for putting forward proposals at extraordinary general meetings. The Company shall include the proposed matters which are within the scope of authority of the general meetings in the agenda of the meeting.

Corporate Governance Report

XV. INVESTOR RELATIONS

The Company places great emphasis on communication with investors and has established relevant department to handle affairs regarding investor relation. When investors come to visit the Company, reception and site visit will be arranged by designated staff. The Company actively participates in various meetings concerning investor relations and organises management to conduct overseas roadshows, so as to enable investors to have better understanding about the Company.

During the reporting period, the Company has disclosed all necessary information to the Shareholders in compliance with the Listing Rules and the Articles, and has reported to shareholders and investors through various formal channels, which include (1) publishing quarterly reports, interim reports and annual reports; (2) holding annual general meetings and extraordinary general meetings to provide a platform for Shareholders to express their opinions and to communicate with the Board; (3) holding press conference and investors conferences from time to time; (4) organising the management to conduct overseas roadshows; (5) publishing corporate communications such as announcements and circulars on the Company's website and the Stock Exchange's HKExnews website; and (6) responding to the queries from Shareholders and investors in a timely manner.

The Company will continue to improve its relationship with investors, so as to further enhance the Company's transparency.

Directors' Report

The Board is pleased to present the Directors' Report and the audited financial statements of the Group for the year ended 31 December 2018.

THE COMPANY'S BUSINESS ACTIVITIES

The Group is mainly engaged in the research, development, manufacture and sale of locomotive train power converters, control systems, urban railway train electrical systems and other train-borne electrical systems, as well as engaged in the research, development, manufacture and sale of electric components for the railway industry, urban railway industry and non-railway purposes.

There was no material change in the nature of the Group's key business during the reporting period.

BUSINESS MODEL AND DIRECTION OF STRATEGY

In line with the strategy of "efficient organisation and global operation", the Company has made continuous efforts to consolidate its rail transit business and develop new non-rail businesses innovatively. Adhering to the market-oriented principle of development and focusing on the top five priorities of "internationalisation, diversification, high-end orientation, digitalization and coordination", the Company implemented the "three-year action plan", striving to expand its businesses scale continuously, create sustainable value for the Shareholders, realise all the goals of the 13th five-year plan and achieve sustainable development for the Company.

The revenue of the Company is generated mainly from selling products. The key strategies of the Company are:

1. Leveraging our platform advantages to consolidate our core business status of rail transit

By leveraging the platform advantages it has in the railway industry, the Company aims to take its overhaul and maintenance business to a new level and explore new kinds of markets with a view to achieving business growth; establish advantages in the urban railway industry by integrating R&D, market operation and brand services, coordinate internal and external resources and adjust its market competition strategy so that we can offer comprehensive solutions to our customers; enhance the synergy of "systems + overall units + service" in the business of railway engineering machinery, accelerate the research on key technologies relating to overall units and systems, develop new types of vehicles and enrich the product mix of railway engineering machinery, so as to achieve future business growth.

2. Further expanding businesses and making a breakthrough in the five incremental industries

In the field of signal & communication products, the Company will further consolidate our position in the market of trunk railways and plot a strategy for developing major markets of urban rail signal products, thereby bringing about a transformation of our signal and communication business. For the semiconductor business, the Company aims to rapidly enhance its development capabilities and boost market share and proportion of overseas sales. For the business of drive for EVs, it strives to foster and improve its batch delivery capability, strengthen strategic cooperation, quickly occupy a favorable position in the industry, and develop products and technologies that can meet market demands. It aims to become a key player in the niche market of industrial converters by cultivating differentiated competition strengths, developing alternatives to high-end benchmark products and enhancing overall capabilities for low-cost operation management. It also aims to gain core competitive edge in the sensors market, grasp the trend of intellectualization, build overall competitive strengths in apparatus and systems, and seize the opportunities in the development of automotive industry, thereby laying a solid foundation for further growth.

Directors' Report

3. Enhancing multi-dimension synergy and boosting development in the international arena

Targeting major markets in the world, the Company will accelerate its pace of internationalisation, build an overseas platform, implement a differentiated competitive strategy for different industries and regions, and strengthen its capability of coordinating resources from around the world, so as to make a breakthrough in the overseas market. It aims to enhance synergy between the marine engineering equipment business in the UK and that in the PRC, make special efforts to improve internal operation efficiency and cost control, strengthen the establishment of the engineering R&D management system, and promote the upgrading of core product technologies and the progress of key projects to meet evolving market needs.

RESULTS AND DIVIDENDS

Results of the Group for the year ended 31 December 2018, prepared in accordance with the PRC Accounting Standards, are set out on page 66 to page 257 of this annual report.

The Company has profit attributable to Shareholders (before proposed final dividend) of RMB10,568.4 million as at 31 December 2018, the Board proposed the distribution of cash dividend of RMB0.45 per Share (applicable tax inclusive) for the year.

The proposed dividend to be distributed is subject to the approval of the Shareholders at the annual general meeting to be held on 20 June 2019.

In order to determine the entitlements of Shareholders to attend the forthcoming annual general meeting to be held on 20 June 2019, the register of members of the Company will be closed from 21 May 2019 to 20 June 2019 (both days inclusive), during which no transfer of shares will be registered. In order to be entitled to attend and vote at the annual general meeting, all transfer documents together with the relevant share certificates must be lodged, for holders of the H Shares, with the Company's H Share registrar, Computershare Hong Kong Investor Services Limited at Shops 1712-1716, 17th Floor, Hopewell Centre, 183 Queen's Road East, Wanchai, Hong Kong or, for holders of the Domestic Shares, the registered office address of the Company at Times Road, Shifeng District, Zhuzhou, Hunan Province, 412001, the PRC, not later than 4:30 p.m. on 20 May 2019.

In order to determine the entitlements of the Shareholders to receive the final dividend, the register of members of the Company will be closed from 26 June 2019 to 1 July 2019 (both days inclusive), during which no transfer of shares will be registered. In order to be entitled to the final dividend, all transfer documents together with the relevant share certificates must be lodged, for holders of the H shares, with the Company's H Share registrar, Computershare Hong Kong Investor Services Limited at Shops 1712-1716, 17th Floor, Hopewell Centre, 183 Queen's Road East, Wanchai, Hong Kong or, for holders of the domestic shares, the registered office address of the Company at Times Road, Shifeng District, Zhuzhou, Hunan Province, 412001, the PRC, not later than 4:30 p.m. on 25 June 2019.

In respect of the distribution of dividends, dividends for domestic shares will be distributed and paid in Renminbi, while dividends for H shares will be declared in Renminbi and paid in Hong Kong Dollars (the Hong Kong Dollars equivalent shall be calculated at the average midpoint exchange rate of Renminbi to Hong Kong Dollars announced by the People's Bank of China for the five working days prior to the declaration of dividend at the 2018 annual general meeting to be held on 20 June 2019). If approved, the final dividends are expected to be distributed on or about 6 August 2019 to Shareholders whose names are registered on the register of members on 1 July 2019.

Directors' Report

For the investors of the Shanghai Stock Exchange and Shenzhen Stock Exchange (including enterprises and individuals) investing in the H shares of the Company listed on the Stock Exchange (the "Southbound Trading"), the Company has entered into the Agreement on Distribution of Cash Dividends of H shares for Southbound Trading (港股通H股股票現金紅利派發協議) with the China Securities Depository and Clearing Corporation Limited, pursuant to which, the China Securities Depository and Clearing Corporation Limited, as the nominee of the holders of H shares for Southbound Trading, will receive all cash dividends distributed by the Company and distribute the cash dividends to the relevant investors of H shares of Southbound Trading through its depository and clearing system.

The record date and the date of distribution of dividends and other arrangements for the investors of Southbound Trading will be the same as those for the holders of the H shares of the Company.

FINANCIAL HIGHLIGHTS

Fixed assets

Details of the changes in the fixed assets of the Group during the year are set out in Note V.10 to the financial statements.

Short-term borrowings

Details of the Group's short-term borrowings as at 31 December 2018 are set out in Note V.18 to the financial statements.

Long-term borrowings

Details of the Group's long-term borrowings as at 31 December 2018 are set out in Note V.26 to the financial statements.

Share capital

During the reporting period, the number of issued shares of the Company was 1,175,476,637 shares.

SHARE APPRECIATION RIGHTS SCHEME

As announced by the Company in its announcement dated 28 March 2013 and the circular dated 23 April 2013 (the "Circular"), the H Share appreciation rights scheme of the Company (the "Scheme") was approved by the State-owned Assets Supervision and Administration Commission of the State Council of the PRC ("SASAC") in February 2013. The Scheme was considered and approved by the Shareholders at the annual general meeting held on 10 June 2013 (the "2012 AGM"), which came into effect on 10 June 2013. The Scheme shall be automatically terminated after seven years from the date on which the Scheme was approved by the Shareholders in the 2012 AGM.

The purpose of the Scheme is to establish a long-term incentive mechanism that links the remuneration of the Eligible Participants (as defined below) with the Company's business results in order to promote the Company's long-term development and to maximize the Shareholders' value. Pursuant to the Scheme, share appreciation rights ("SARs") will be granted to the Directors (excluding independent non-executive Directors and external Directors), senior management, core technical staff and key management staff (the "Eligible Participants") who contribute substantially to the realization of the Company's strategic missions.

Directors' Report

SHARE APPRECIATION RIGHTS SCHEME (continued)

The Eligible Participants who are granted with such incentive do not actually hold the shares, and do not have any rights as Shareholders such as voting rights or rights to dividends. Under the Scheme, each SAR is linked with one H share of the Company and the SAR is to be settled by way of cash. Therefore, this does not affect the total number of H Shares outstanding and will not have any dilution effect on the shares of the Company. The SARs granted pursuant to the Scheme is valid for seven years from the date of grant. Upon expiry of the valid term, all unexercised SARs shall automatically lapse. After two years from the date of grant, if the Company and each Eligible Participant fulfil the conditions as set out in the Scheme, the SARs shall become effective and exercisable in batches as described in the Scheme.

Under the Scheme, the exercise price of the SARs shall be determined by the Board which, in principle, shall be the highest of the following three prices:

- (a) the closing price of the H shares of the Company on the Stock Exchange on the date of grant;
- (b) the average closing price of the H shares of the Company on the Stock Exchange for five consecutive trading days prior to the date of grant; and
- (c) the nominal value of the H shares of the Company.

Pursuant to the terms of the Scheme, upon exercise of the SARs, the Company shall calculate the cash gains from the exercise of the SARs and pay to the Eligible Participants in the manner as set out in the Scheme.

The proposed grant of an aggregate of approximately 9,868,000 units of SARs to a total of not more than 262 Eligible Participants, subject to the satisfaction of the conditions of grant, has already been approved by the Shareholders of the Company at the 2012 AGM. For details of the Scheme, please refer to the Circular.

During the reporting period, no SARs were granted by the Company to the Eligible Participants under the Scheme.

PRE-EMPTIVE RIGHTS

There are no provisions for pre-emptive rights under the Company Law of the PRC or in the Articles which oblige the Company to offer new shares on a pro-rata basis to its existing Shareholders.

PURCHASE, REDEMPTION OR SALE OF LISTED SECURITIES OF THE COMPANY

During the reporting period, there was no purchase, redemption or sale of any listed securities of the Company by the Company or any of its subsidiaries.

SHAREHOLDERS' EQUITY

Details of the changes in the Shareholders' equity of the Company and the Group during the year are set out in the statement of changes in equity and the consolidated statement of changes in equity respectively.

Directors' Report

PROFIT DISTRIBUTABLE TO THE SHAREHOLDERS

As at 31 December 2018, the Company's profit distributable to the Shareholders calculated in accordance with relevant regulations amounted to approximately RMB10,568.4 million, of which RMB529.0 million has been proposed to be paid as final dividend for the year.

MAJOR CUSTOMERS AND SUPPLIERS

The percentage of revenue for sales of goods attributable to the Group's five largest customers during the year was approximately 52.3% of the Group's total revenue for the year.

POSITIONS HELD BY DIRECTORS, SUPERVISORS AND SENIOR MANAGEMENT

Details of positions held by Directors, supervisors and senior management of the Company in entities of the substantial Shareholders and other entities are set out in page 13 to page 23 of this annual report.

SERVICE CONTRACTS WITH DIRECTORS AND SUPERVISORS

The Company has entered into service contracts with all Directors and supervisors which set out, among other things, their terms of office and remuneration. Each session of the Board has a term of three years. Directors elected as the members of any new session of the Board will have a term of office commencing from the date on which he/she is elected up to the date on which members of the next session of the Board are elected or for a shorter period as may be decided upon at the general meeting. Directors appointed to fill casual vacancy will have a term of office commencing from the date of his/her appointment up to the next general meeting or for a shorter period as may be decided upon at the general meeting. Similarly, each session of the Supervisory Committee of the Company has a term of three years and the term of office of the supervisors are determined similarly as the Directors except that references to general meeting should be replaced by the meeting of the representatives of the employees in respect of the employee representative supervisor. The period of notice of termination of the service contracts given by either party shall not be less than three months.

None of the Directors nor supervisors (including but not limited to those Directors proposed for re-election at the forthcoming general meeting of the Company and those supervisors proposed for re-election at the forthcoming general meeting or meeting of the representatives of the employees) has a service contract with the Company which is not determinable by the Company within one year without payment of compensation (other than statutory compensation).

PERMITTED INDEMNITY

The Company has arranged appropriate liability insurance policies for Directors, supervisors and senior management members, for the purpose of covering their liability arising out of the Group's corporate activities.

Directors' Report

DIRECTORS' AND SUPERVISORS' INTERESTS IN CONTRACTS

During the year and as at 31 December 2018, none of the Directors or supervisors had a material interest, whether directly or indirectly, in any contract of significance to the business of the Group to which the Company, its holding company or any of its subsidiaries was a party.

DIRECTORS' INTERESTS IN COMPETING BUSINESS

During the year and as at 31 December 2018, none of the Directors, directly or indirectly, had an interests in any business which competes or may compete with the business of the Company and/or its subsidiaries.

DIRECTORS' AND SUPERVISORS' RIGHTS TO ACQUIRE SHARES OR DEBENTURES

At no time during the year were rights to acquire benefits by means of the acquisition of shares or debentures of the Company granted to any Directors, supervisors or their respective spouse or children under 18 years of age, or were any such rights exercised by them, or was the Company, its holding company or any of its subsidiaries a party to any arrangement to enable the Directors and supervisors to acquire such rights in any other body corporate.

EMPLOYEES AND REMUNERATION POLICY

The Group's remuneration policy for its employees takes into account the individuals' post value, work performance and competence. The Group rewards the employees having outstanding performance with salary increments and bonuses. The bonus plan is discretionary and is determined by the Directors with reference to the performance of the staff and the Group's operation results. The Group places great emphasis on the provision of on-the-job-training and development to its employees. Each staff member is required to participate in trainings organised by the Group and its department prior to the commencement of his or her employment. The Company formulates training plans according to its staff position and career development needs and releases its annual training plan at the beginning of year pursuant to which all departments need to organise staff training. The management and other employees are required to undertake training for enhancing work ability as specified by the Group. The Company has established channels for career development of employees. Employees have opportunities of promotion and development according to the orders of different positions within the Company. As at 31 December 2018, the Group had 7,905 full-time employees (including overseas subsidiaries), and the total amount of remuneration (including salaries and allowances) for employees in 2018 was approximately RMB1,991.5 million.

Directors' Report

EMPLOYEES AND REMUNERATION POLICY (continued)

During the reporting period, the Company planned and organized trainings including Trainings on Outstanding Leadership, Training for Core Technology Staff, Training for Back-up Management Staff, Study on Implementation of Strategies and Cultivation of International Talents. The Company continued to innovate the internal training brands, namely Happy Learning Class (樂學講堂) and Expert Forum (專家講壇), planned internal training programs including professional skills training, quality management training and lean management training, which were well received. The Company held the first micro course competition with a total of 205 micro courses launched, covering professional quality, common skills, professional management and operating skills. The intelligent study platform went online successfully, which realizes online study, online test, and the informatisation of training resources and business management, facilitates the assessment and tracking of training results, thus further standardizing the training management procedures and enhancing the training management efficiency.

The remuneration of Directors and supervisors is proposed by the Board and subject to approval by Shareholders of the Company at the general meetings, taking into consideration their respective experience, level of responsibilities within the Group, performance of the Company as well as remuneration benchmark in the industry and the market situation. Details of the remunerations of Directors and supervisors are set out in Note XIII.3(3) to the financial statements.

The Company approved the share appreciation rights scheme at the annual general meeting of 2012. Details of the scheme are set out in the paragraph headed "Share appreciation rights scheme" above.

Directors' Report

CONTINUING CONNECTED TRANSACTIONS

Transactions conducted between the Group and the following parties (among which, CRRC Group, CRRC and CRRC ZELRI are the controlling Shareholders of the Company, CRRC Finance is the subsidiary of CRRC) constitute continuing connected transactions of the Company under the Listing Rules. During the reporting period, details of the Group's continuing connected transactions were as follows:

Non-exempt continuing connected transactions

The following transactions constitute non-exempt continuing connected transactions of the Group and thus are subject to reporting, announcement and independent Shareholders' approval requirements under the Listing Rules.

Mutual Supply Agreement with CRRC Group

On 28 March 2016, the Company and CRRC Group (together with its subsidiaries and their respective associates but excluding the Group, collectively, the "CRRC Group of Companies") entered into the 2017-19 CRRC Group Mutual Supply Agreement, pursuant to which the Company and CRRC Group agreed on mutual supply of certain products, parts and components, technical services, after-sales services, management services and other related services, and related facilities for research and development, production and testing purposes between the Group and the CRRC Group of Companies for a term of three years commencing on 1 January 2017 and ending on 31 December 2019. Please refer to the Company's announcement dated 31 March 2016 and circular dated 22 April 2016 for details, which included information on the connected relationship between the Company and the counterparty to the aforesaid agreement. The Company obtained the approval from relevant independent Shareholders at the annual general meeting held on 23 June 2016.

For the year ended 31 December 2018, the amount payable by the Group to the CRRC Group of Companies for the products and services supplied by the CRRC Group of Companies under the 2017-19 CRRC Group Mutual Supply Agreement was RMB2,093.2 million, and the amount payable by the CRRC Group of Companies to the Group for the products and services supplied by the Group under the 2017-19 CRRC Group Mutual Supply Agreement was RMB6,703.8 million, and both were within the aggregate annual caps of continuing connected transactions for the financial year ended 31 December 2018 approved by independent Shareholders at the annual general meeting held on 23 June 2016.

The Financial Services Framework Agreement with CRRC Finance

On 29 December 2017, the Company and CRRC Finance entered into the CRRC Financial Services Framework Agreement, pursuant to which, CRRC Finance agreed to provide the Group with deposits services, loan services and other financial services subject to the terms and conditions provided therein for a term commencing from 31 December 2017 to 30 December 2018. Please refer to the Company's announcement dated 29 December 2017 for details, which included information on the connected relationship between the Company and the counterparty to the aforesaid agreement.

The CRRC Financial Services Framework Agreement expired on 30 December 2018. On 28 December 2018, the Company and CRRC Finance entered into the 2018-19 CRRC Financial Services Framework Agreement (together with the CRRC Financial Services Framework Agreement, collectively, the "Financial Services Framework Agreements"), pursuant to which, CRRC Finance agreed to provide the Group with deposits services, loan services and other financial services subject to the terms and conditions provided therein for a term commencing from 31 December 2018 to 30 December 2019. Please refer to the Company's announcement dated 28 December 2018 for details, which included information on the connected relationship between the Company and the counterparty to the aforesaid agreement.

For the year ended 31 December 2018, the maximum daily amount of the Group's deposits with CRRC Finance under the Financial Services Framework Agreements was RMB695 million, which was within the respective maximum daily caps of continuing connected transaction for the financial year ended 31 December 2018 provided for by the Financial Services Framework Agreements. For the year ended 31 December 2018, the Group did not receive the loan services and other financial services which may be provided by CRRC Finance to the Group under the Financial Services Framework Agreements.

CONTINUING CONNECTED TRANSACTIONS (continued)

Mutual Supply Agreement with Qingdao Electric

On 22 December 2016, the Company entered into the 2017-19 Qingdao Mutual Supply Agreement with Qingdao Electric (together with its subsidiaries and their respective associates, collectively, the "Qingdao Electric Group"), pursuant to which the Company and Qingdao Electric agreed to provide mutual supply of certain products, parts and components, technical services, after-sales services, management services and other related services, and related facilities for research and development, production and testing purposes between the Group (excluding the Qingdao Electric Group) and the Qingdao Electric Group, for a term of three years commencing on 1 January 2017 and ending on 31 December 2019. Please refer to the Company's announcement dated 22 December 2016 for details, which included information on the connected relationship between the Company and the counterparty to the aforesaid agreement.

For the year ended 31 December 2018, the amount payable by the Group to the Qingdao Electric Group for the products and/or services supplied by the Qingdao Electric Group under the 2017-19 Qingdao Mutual Supply Agreement was RMB0.1 million, and the amount payable by the Qingdao Electric Group to the Group for the products and/or services supplied by the Group under the 2017-19 Qingdao Mutual Supply Agreement was RMB8.5 million, and both were within the relevant aggregate annual caps of continuing connected transactions for the financial year ended 31 December 2018 provided for in the 2017-19 Qingdao Mutual Supply Agreement.

Mutual Supply Agreement with China Railway

As at the date of this report, the Company owns 85.8% equity interest in Baoji Times, and China Railway Baoji Machinery Co., Ltd. (中鐵寶工有限責任公司) ("China Railway Baoji Machinery", an indirect wholly-owned subsidiary of China Railway Group Limited (中國中鐵股份有限公司), "China Railway" (together with its subsidiaries and their respective associates, collectively, the "China Railway Group")) owns 14.2% equity interest in Baoji Times. As China Railway Baoji Machinery is a substantial Shareholder of Baoji Times, which is a subsidiary of the Company, China Railway Baoji Machinery and its associates (including China Railway) are connected persons of the Company at the subsidiary level under the Listing Rules.

On 12 January 2017, the Company entered into the conditional 2017-19 China Railway Mutual Supply Agreement with China Railway, pursuant to which the Company and China Railway agreed to provide mutual supply of certain products, parts and components, technical services, after-sales services, management services and other related services, and related facilities for research and development, production and testing purposes between the Group and the China Railway Group for a term commencing from the time upon the 2017-19 China Railway Mutual Supply Agreement become effective (i.e. 26 March 2018) to 31 December 2019 or the time when China Railway or its subsidiaries ceases to be a substantial Shareholder of Baoji Times (whichever is earlier). The coming into force of the 2017-19 China Railway Mutual Supply Agreement is conditional upon, among others, the insignificant subsidiary exception under Rule 14A.09 of the Listing Rules in respect of Baoji Times being no longer applicable. Upon the fulfilment of all conditions, the 2017-19 China Railway Mutual Supply Agreement became effective on 26 March 2018. Please refer to the Company's announcement dated 26 March 2018 for details, which included information on the connected relationship between the Company and the counterparty to the aforesaid agreement.

For the year ended 31 December 2018, the amount payable by the Group to the China Railway Group for the products and/or services supplied by the China Railway Group under the 2017-19 China Railway Mutual Supply Agreement was RMB16.2 million, and the amount payable by the China Railway Group to the Group for products and/or services supplied by the Group under the 2017-19 China Railway Mutual Supply Agreement was RMB65.8 million, which did not exceed the relevant annual aggregate caps for the continuing connected transactions for the financial year ended 31 December 2018 as agreed in the 2017-19 China Railway Mutual Supply Agreement.

Directors' Report

CONTINUING CONNECTED TRANSACTIONS (continued)

Property Leasing Framework Agreement with CRR

On 17 August 2018, the Company and CRR (together with its subsidiaries (excluding the Group) and their respective associates, collectively, the "CRR Corporation Group") entered into the Property Leasing Framework Agreement, pursuant to which, the Company and CRR agreed to lease and procure their respective group members to lease to the other their lawfully owned properties and/or supporting equipment and facilities for a term of ten years commencing from 1 January 2018 and ending on 31 December 2027. Please refer to the announcement of the Company dated 17 August 2018 for details, which included information on the connected relationship between the Company and the counterparty to the aforesaid agreement.

For the year ended 31 December 2018, the rent and related fees paid by the CRR Corporation Group to the Group under the Property Leasing Framework Agreement was RMB9.2 million and the rent and related fees paid by the Group to the CRR Corporation Group under the Property Leasing Framework Agreement was RMB9.2 million, which did not exceed the relevant annual aggregate caps for the continuing connected transactions for the financial year ended 31 December 2018 as agreed in the Property Leasing Framework Agreement.

Mutual Supply Agreement with Taiyuan Times

On 28 December 2018, the Company entered into the 2019-21 Taiyuan Times Mutual Supply Agreement with Taiyuan Times (together with its subsidiaries and their respective associates, collectively, the "Taiyuan Times Group"), pursuant to which, the Company and Taiyuan Times agreed to provide mutual supply of other certain products, parts and components, technical services, after-sales services, management services and other related services, and related facilities for research and development, production and testing purposes between the Group and the Taiyuan Times Group for a term of three years commencing from 1 January 2019 and ending on 31 December 2021. Please refer to the announcement of the Company dated 28 December 2018 for details, which included information on the connected relationship between the Company and the counterparty to the aforesaid agreement.

ANNUAL REVIEW OF CONTINUING CONNECTED TRANSACTIONS

The Board has engaged the auditor of the Company to perform certain procedures in respect of the continuing connected transactions of the Group. The auditor has issued its unqualified letter containing its findings and conclusions in respect of the continuing connected transactions to the Board in accordance with the Rule 14A.56 of the Listing Rules. The Company provided a copy of the said letter to the Stock Exchange. The Directors (including independent non-executive Directors) have reviewed and confirmed that the continuing connected transactions of the Group comply with the agreed procedures and principles and the Group's continuing connected transactions above:

- (1) were entered into in the ordinary and usual course of business of the Group;
- (2) were entered into on normal commercial terms or if there were not sufficient comparable transactions to judge whether they were on normal commercial terms, on terms no less favourable to the Group than those available to or from (as the case may be) independent third parties;
- (3) were conducted in accordance with the agreements governing such transactions, and the terms are fair, reasonable and in the interests of the Company and the Shareholders as a whole; and
- (4) did not exceed the caps of continuing connected transactions for the financial year ended 31 December 2018 provided for by the continuing connected transactions agreements above.

RELATED-PARTY TRANSACTIONS

Details of the related-party transactions undertaken by the Group during the year are set out in Note X to the financial statements. The Company has complied with the applicable requirements under the Listing Rules for those related party transactions which constituted non-exempt connected transactions/continuing connected transactions under the Listing Rules. Other related party transactions either did not constitute connected transactions/continuing connected transactions or constituted connected transactions/continuing connected transactions but were exempted from all disclosure and independent Shareholders' approval requirements under the Listing Rules.

CONNECTED TRANSACTIONS

On 30 October 2018, the Company, Chongqing Chang'an Automobile Company Limited, Electric Power Research Institute, CSG., Gree Electric Appliances, Inc. of Zhuhai, Tianjin Zhonghuan Semiconductor Co., Ltd., Hunan Xiangtuo Holdings Group Co., Ltd., Hunan CRRC Times Electric Vehicle Co., Ltd., and Times New Material entered into the JV Agreement for the establishment of a joint venture company, Guoxin Technology in Zhuzhou, Hunan Province, the PRC with a registered capital of RMB500 million, of which the Company holds 25% equity interests with initial contribution of RMB25 million and total contribution of RMB125 million. Please refer to the announcement of the Company dated 30 October 2018 for details, which included information on the connected relationship between the Company and the counterparties to the aforesaid agreement.

On 13 December 2018, Baoji Times and CRRC Taiyuan entered into the JV Agreement for the establishment of Taiyuan Times in Taiyuan City, Shanxi Province, the PRC with a registered capital of RMB50 million, of which 55% (being RMB27.5 million) and 45% (being RMB22.5 million) would be contributed by Baoji Times and CRRC Taiyuan in cash respectively. Please refer to the announcement of the Company dated 14 December 2018 for details, which included information on the connected relationship between the Company and the counterparty to the aforesaid agreement.

MECHANISM FOR PROTECTING NON-CONTROLLING INTERESTS

To protect non-controlling interests, the Company has established and implemented certain governance measures, which include:

- (i) Interested directors should declare their respective interests, and would not attend and vote at the Board meeting in respect of the connected transactions in which they are interested. Accordingly, Mr. Li Donglin, Mr. Yang Shouyi and Mr. Zhang Xinning did not attend and vote at the Board meeting in respect of the connected transactions between the Group and the CRRC Group of Companies.
- (ii) An independent professional management team of the Group responsible for negotiating and reviewing the terms of transactions with the suppliers and customers (including the CRRC Group of Companies) has been established. The members of the management team include the staff of the Group with relevant techniques and sales expertise, and the terms of duties of the management team allow it to make independent business judgments. The management team reports to the Board, while the Board is accountable to the Shareholders of the Company as a whole.
- (iii) The Company's auditor has provided quarterly reports to the independent non-executive Directors on all transactions conducted between the Group and the CRRC Group of Companies.
- (iv) When making purchases, the Group has endeavoured to obtain tenders or quotations from a number of independent suppliers, and select successful bidders (where applicable) based on objective standards such as the price and quality of products, delivery schedule and services.

Directors' Report

MECHANISM FOR PROTECTING NON-CONTROLLING INTERESTS (continued)

- (v) Subject to (i) above, all independent non-executive Directors have attended the Board meetings for deciding whether the Group should conduct special transactions with the CRRC Group of Companies.
- (vi) The terms for the supply and purchase arrangements entered into between the Group and the CRRC Group of Companies are subject to quarterly review by the independent non-executive Directors, and opinions regarding such transactions are disclosed by the Company to Shareholders by way of announcements. Independent non-executive Directors may request an independent party having at least 10 years' experience in the locomotive and rolling stock manufacturing industry to participate in assessing the terms of the sales and purchases agreements, and to provide their findings to the independent non-executive Directors.

NON-COMPETITION AND INDEMNITY DEEDS

The Company entered into a non-competition and indemnity deed with the Parent Company and CRRC Group on 30 November 2006 (collectively the "Non-Competition and Indemnity Deeds"), respectively, pursuant to which the Parent Group and the CRRC Group of Companies (excluding the Parent Group) respectively undertook not to carry on businesses that are in competition with the Company's businesses.

In 2015, CSR merged with CNR and formed CRRC; China Northern Locomotive & Rolling Stock Industry (Group) Corporation merged with CSR Group and formed CRRC Group. As certain businesses of the subsidiaries of CNR overlap with that of the Group, there are certain business overlaps between CRRC Group and the Group. Accordingly, CRRC Corporation Limited issued an undertaking letter regarding the avoidance of competition with the Company (the "Undertaking Letter") to the Company on 5 August 2015, in which it provided non-competition undertakings as follows:

- (1) CRRC will grant the Company a call option, pursuant to which, the Company will be entitled to elect, at its own discretion, when to request CRRC to sell the competing businesses of CRRC to Company;
- (2) CRRC further granted the Company a pre-emptive right, pursuant to which, if CRRC proposes to sell the competing business to an independent third party, CRRC shall offer to the Company the competing business first on the same conditions, and the sale to the third party may only be effected after the Company declined to purchase the competing business;
- (3) the decision of the Company to exercise the aforesaid option and the pre-emptive right to purchase shall be made by the independent non-executive Directors of the Company;
- (4) the exercise of the aforesaid option and the pre-emptive right to purchase will be subject to the applicable regulatory and disclosure requirements and Shareholders' approval at the general meeting in the places of listing of CRRC and the Company respectively;
- (5) the aforesaid non-competition undertaking will be effective from the date of issuance to the time when the Company is de-listed or CRRC ceases to be an indirect controlling Shareholder of the Company.

Directors' Report

NON-COMPETITION AND INDEMNITY DEEDS (continued)

The independent non-executive Directors have reviewed the compliance issue of the Non-Competition and Indemnity Deeds with the Parent Group and the CRRC Group of Companies (excluding the Parent Group) for the year ended 31 December 2018, and reviewed relevant information provided by the Parent Group and the CRRC Group of Companies (excluding the Parent Group). The independent non-executive Directors were of the opinion that (1) the Parent Group complied with the relevant terms of the Non-Competition and Indemnity Deeds in 2018. The Parent Group carried on its businesses independent of the Group's businesses, having different technology applications and different customers, which would not be in competition with that of the Group; (2) in 2018, CRRC Group continued to procure CRRC to perform its undertakings to the Company and continued to promote the resolution of the business competition with the Group arising from the merger of CSR and CNR; and (3) the Board operated and managed the Company's businesses independently in the interests of the Company and the Shareholders as a whole.

SUFFICIENCY OF PUBLIC FLOAT

According to publicly available information and as far as the Directors were aware, as at the date of this report, there was a sufficient public float of the Company's issued shares as required under the Listing Rules.

POST BALANCE SHEET EVENTS

On 26 March 2019, the 8th meeting of the fifth session of the Board of the Company approved the profit distribution plan for 2018 to distribute cash dividends of RMB528,964,487 in total to all Shareholders, equivalent to the distribution of RMB0.45 per share (tax inclusive) based on the total number of 1,175,476,637 shares of the Company.

On 18 January 2019, the Company entered into a plan of arrangement with Dynex, pursuant to which, the Company acquired all the issued and outstanding shares of Dynex not held by the Company at a cash consideration of Canadian dollar 0.65 per share in accordance with the plan of arrangement under the Canada Business Corporations Act, at a total consideration of approximately Canadian dollar 13.1 million. The plan of arrangement was completed on 15 March 2019 and Dynex became a wholly-owned subsidiary of the Company. The delisting of the shares of Dynex from the TSX Venture Exchange took place at the close of trading on 19 March 2019 (Canada time).

TAXATION

Pursuant to the provisions of the Corporate Income Tax Law of the People's Republic of China and the Implementing Regulations of the Corporate Income Tax Law of the People's Republic of China, effective from 1 January 2008, any PRC domestic enterprise shall withhold the corporate income tax upon the distribution of dividends payable to the Shareholders being non-resident enterprises (legal persons) for accounting periods starting from 1 January 2008, and the payer shall serve as the withholding agent. The Company will strictly abide by the law and identify all Shareholders who are subject to the withholding and payment of corporate income tax, whose names appear in the Company's register of members as holders of H shares on the record date and who are not individuals (including HKSCC Nominees Limited, other corporate nominees or trustees, and other entities or organisations which are all considered as non-resident enterprise Shareholders, but excluding any H shares of the Company registered in the name of HKSCC Nominees Limited which are held by China Securities Depository and Clearing Corporation Limited as nominee Shareholder on behalf of investors who invest in the H shares of the Company through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect), the Company will distribute the relevant dividends after deducting corporate income tax of 10%.

Directors' Report

TAXATION (continued)

Pursuant to the requirements of "Notice of the Ministry of Finance and the State Administration of Taxation on Certain Policies Regarding Individual Income Tax (Cai Shui Zi [1994] 020)" (《財政部、國家稅務總局關於個人所得稅若干政策問題的通知》(財稅字[1994]020號)), individual foreigners are exempt from individual income tax on dividend and bonus from foreign-invested enterprises in the PRC. As the Company is a foreign-invested joint stock limited company, the individual Shareholders who hold the H shares of the Company and appear in the H-share registrar are not required to pay the individual income tax of the PRC.

Pursuant to the relevant requirements under the Notice on the Tax Policies Related to the Pilot Program of the Shanghai-Hong Kong Stock Connect (關於滬港股票市場交易互聯互通機制試點有關稅收政策的通知) (Cai Shui [2014] No. 81), for dividends received by domestic investors from investing in H shares listed on the Stock Exchange through Shanghai-Hong Kong Stock Connect, the H shares companies shall withhold and pay individual income tax at the rate of 20% on behalf of the investors. For dividends received by domestic securities investment funds from investing in H shares listed on the Stock Exchange through Shanghai-Hong Kong Stock Connect, the tax payable shall be the same as that for individual investors. The H shares companies will not withhold and pay the income tax of dividends for domestic enterprise investors and those domestic enterprise investors shall report and pay the relevant tax themselves.

Pursuant to the Notice on Tax Policies for Shenzhen-Hong Kong Stock Connect Pilot Program (Cai Shui [2016] No.127) (《關於深港股票市場交易互聯互通機制試點有關稅收政策的通知》(財稅[2016]127號)), for dividends received by domestic investors from investing in H shares listed on the Stock Exchange through Shenzhen-Hong Kong Stock Connect, the H shares companies shall withhold and pay individual income tax at the rate of 20% on behalf of the investors. For dividends received by domestic securities investment funds from investing in H shares listed on the Stock Exchange through Shenzhen-Hong Kong Stock Connect, the tax payable shall be the same as that for individual investors. The H shares companies will not withhold and pay the income tax of dividends for domestic enterprise investors and those domestic enterprise investors shall report and pay the relevant tax themselves.

The proposed dividend to be distributed is subject to the approval of the shareholders at the annual general meeting to be held on 20 June 2019. The time arrangement such as record date and the cash payment date for the investors of Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect are the same as the holders of the H shares of the Company.

Save as disclosed above, for the year ended 31 December 2018, no foreign shareholder who is non-PRC resident is liable to individual or corporate income tax, capital gains tax, stamp duty or estate duty of the PRC in relation to their holding of H shares of the Company. Shareholders are urged to consult their tax advisers regarding the applicable PRC and Hong Kong tax laws and other tax consequences of the owning and disposing of the H shares of the Company.

MANAGEMENT CONTRACTS

No contracts concerning the management and administration of the whole or any substantial part of the business of the Company were entered into by the Group or existed during the reporting period.

Directors' Report

ENVIRONMENTAL POLICY AND PERFORMANCE

The Company adheres to its safety and environmental protection principles of “People-oriented, Continuous Improvement, Environmental Friendly and Health and Safety”. In addition to strict compliance with the national laws and regulations in relation to environmental protection and principles and policies of energy saving and emission reduction, the Company continuously promotes the use of environmental-friendly materials and application of environmental-friendly crafts. Through continuous implementation and optimization of environmental protection management, the Company ensures that its production and business activities always comply with the requirements of ISO14001 environmental management system. As a green enterprise and one of the Credit Enterprises of Environmental Protection, the Company plays an active role in fulfilling its social responsibility and obligations and upholding a good social image. For further information about the Company's environmental performance during the year, please refer to the Social Responsibility Report to be published separately on or before 30 May 2019 by the Company, which will be available on the Company's website and the Stock Exchange's HKExnews website in due course.

COMPLIANCE WITH LAWS AND REGULATIONS

The Group has worked out the compliance procedures to ensure observance of the applicable laws, rules and regulations that have a significant impact on it. The securities and legal affairs department and other relevant departments of the Company are responsible for supervising the policies and practices for compliance with laws and supervision by reviewing the same regularly. The relevant employees and subsidiaries will be notified from time to time of any material change in the applicable laws, rules and regulations.

The Group has abided by relevant applicable rules and regulations of the jurisdictions in which the Group operates in all material aspects and has obtained relevant qualifications required for the provision of services. During the year and as far as the Company is aware, there was no material breach of or non-compliance with the applicable laws and regulations by the Group that has a significant impact on its business and operations.

RELATIONSHIP WITH EMPLOYEES, CUSTOMERS AND SUPPLIERS

The Group provides a harmonious and professional working environment to employees and ensures that all of them are reasonably remunerated. The Company regularly optimises and updates its policies on remuneration and benefits, training as well as occupational health and safety in accordance with laws and policy requirements at all levels. Details of the employees of the Company are set out in “Employees and remuneration policy”.

The Group recognises the importance of maintaining good cooperative relationship with business partners to achieve mutual development goals. It has always strived to cooperate with customers and suppliers to create and share value to achieve mutual promotion and co-win results. In the course of corporate operation, the Company pays close attention to various stakeholders such as the customers, suppliers and government and communication with them smoothly through green service centers, dedicated account managers, customer satisfaction survey and business activities in various areas, with a view to fully understands, collects and analyses their concerns and makes responses positively based on the actual circumstances, so as to enhance product quality, take into full account of their demands and promote outstanding services on an ongoing basis. During the reporting period, there are no material disputes between the Group and stakeholders such as its customers and suppliers.

Directors' Report

SOCIAL RESPONSIBILITY REPORT

The social responsibility report containing information on the Company's performance of its responsibilities on the environment and the society in 2018 will be published and will also be posted on the websites of the Company and the HKExnews website on or before 30 May 2019.

AUDITOR

The financial statements for the year have been audited by Deloitte Touche Tohmatsu.

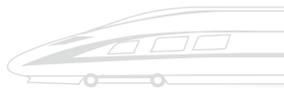

With effect from the close of the annual general meeting of the Company held on 8 June 2018, Ernst & Young Hua Ming retired as the auditor of the Company. Thereafter, on 8 June 2018, Deloitte Touche Tohmatsu was appointed as the new auditor of the Company. For details of the above change of the auditors, please refer to the announcement of the Company dated 26 March 2018.

By order of the Board

Li Donglin

Chairman of the Board

Zhuzhou, Hunan, PRC
26 March 2019

Supervisory Committee's Report

During the reporting period, pursuant to the Company Law of the PRC, the Articles, the Listing Rules and the Rules of Meetings of the Supervisory Committee, members of the Supervisory Committee performed their duties prudently and effectively with respect to the supervision of the Company's operations and business activities in accordance with the applicable rules and regulations in order to safeguard Shareholders' and the Company's interests.

I. MEETINGS OF THE SUPERVISORY COMMITTEE HELD DURING THE REPORTING PERIOD

1. During the year, the Company held three Supervisory Committee meetings. The notices, convening, holding and passing of resolutions of the meetings were in compliance with the requirements of the relevant laws and regulations and the Articles. Contents of review mainly included the 2017 working report of the Supervisory Committee, the 2017 financial report, the 2017 annual report, the 2018 interim report and connected transactions etc.
2. During the year, members of the Supervisory Committee attended all the general meetings and the Board meetings of the Company in person or by way of telecommunication.

II. INDEPENDENT OPINION OF THE SUPERVISORY COMMITTEE

1. The Company carried on its operations lawfully

In 2018, in accordance with the applicable laws and regulations, the Supervisory Committee reviewed the procedures adopted in the convening, passing of resolutions, decision-making procedures, results of voting of the Company's general meetings and the Board meetings, implementation of resolutions of general meetings by the Board, the performance of duties of senior management and the management system of the Company. The Supervisory Committee is of the opinion that the Directors and senior management of the Company had diligently performed their responsibilities and in compliance with the applicable laws and regulations. During the reporting period, no breaches of laws or regulations which were materially prejudicial to the Company or the interests of Shareholders were found.

2. Financial reports give a true and accurate view

The Supervisory Committee seriously and thoroughly reviewed the Group's financial system and financial position. The Supervisory Committee considers that the Group's 2018 financial report is true and accurate and presents the financial position and operating results fairly, and Deloitte Touche Tohmatsu has issued a standard and unqualified audit opinion.

3. Connected transactions

The Supervisory Committee considers that the connected transactions between the Group and the CRRC Group of Companies during the year were entered into in the ordinary and usual course of our business. The transactions were on the principles of openness, fairness and justness and were entered into in the interests of the Group and the Shareholders as a whole. After its review, the Supervisory Committee considers that the Group's transactions in 2018 were in compliance with the relevant laws and regulations of the PRC and is not aware of any impairment to the Company's and Shareholders' interest by means of connected transactions, and the total value of the continuing connected transactions was within the 2018 aggregate annual caps approved by the independent Shareholders at the extraordinary general meeting held on 23 June 2016.

Supervisory Committee's Report

II. INDEPENDENT OPINION OF THE SUPERVISORY COMMITTEE (continued)

4. The implementation of non-competition and indemnity deeds

The Supervisory Committee is of the opinion that (1) the Parent Group complied with the relevant terms of the Non-Competition and Indemnity Deeds in 2018. The Parent Group carried on its businesses independent of the Group's businesses, having different technology applications and different customers, which would not be in competition with that of the Group. (2) In 2018, CRRC Group continued to procure CRRC to perform its undertakings to the Company and continued to promote the resolution of the business competition with the Group arising from the merger of CSR and CNR. (3) The Board operated and managed the Company's businesses independently in the interests of the Company and the Shareholders as a whole.

5. The implementation of the resolutions of the general meeting

During the year, members of the Supervisory Committee attended eight Board meetings and one general meeting. There were no objections to the various reports and resolutions submitted by the Board for consideration at the general meetings. The Board had seriously carried out the resolutions of the general meeting.

Auditors' Report

Deloitte.
德勤

De Shi Bao (Shen) Zi (19) No.P01758

TO THE SHAREHOLDERS OF ZHUZHOU CRRC TIMES ELECTRIC CO., LTD.

1. OPINION

We have audited the financial statements of Zhuzhou CRRC Times Electric Limited ("CRRC Times Electric"), which comprise the consolidated and Company's statement of financial position as at 31 December 2018, and the consolidated and Company's statement of profit or loss, the consolidated and Company's statement of cash flow, the consolidated and Company's statement of change in equity for the year then ended, and the notes to the financial statements.

In our opinion, the accompanying financial statements of the Group are prepared and present fairly, in all material respects, the consolidated and Company's financial position as of 31 December 2018, and the consolidated and Company's results of operations and cash flows for the year then ended in accordance with Accounting Standards for Business Enterprises.

2. BASIS FOR OPINION

We conducted our audit in accordance with China Standards on Auditing. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the code of ethics for Chinese Certified Public Accountants, and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

3. KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current year. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We determine the followings are key audit matters in need of communication in our report.

Auditors' Report

3. KEY AUDIT MATTERS (continued)

(1) Measurement of Expected credit losses of Trade Receivables and Contract Assets

Description of Matter

As disclosed in Note V.3 (2) and Note V.7 to the financial statements, as at 31 December 2018, the gross carrying amount of trade receivables and contract assets of CRRC Times Electric were RMB6,753,802,633 and RMB222,360,099 respectively, and the provisions for expected credit losses trade receivables and contract assets were RMB267,838,040 and RMB5,173,409, respectively. As disclosed in Note III. 9.2 to the financial statements, CRRC Times Electric adopts the expected credit losses model to recognise provisions for expected credit losses, and measures provisions for losses of all the trade receivables and contract assets at the full lifetime amounts of expected credit losses. The measurement of expected credit losses involves significant management judgements and assumptions, including the estimation on expected credit risk and expected lifetime expected credit losses rate on a basis of portfolios grouped as per credit risk characteristics. In the meantime, due to credit risk exposures of trade receivables and contract assets and significant amounts of provisions for the losses, we consider it as a key audit matter.

Audit Response

1. Test and evaluate the effectiveness of the design, implementation and operation of internal control related to the provisions for expected credit losses;
2. Understand and evaluate whether the management of CRRC Times Electric grouped the credit risk portfolios of trade receivables and contract assets in a reasonable manner;
3. Review the reasonableness and consistency of the expected credit losses model and major parameters adopted by the management of CRRC Times Electric to determine the expected credit losses;
4. Review whether the management of CRRC Times Electric estimates the cash flows available in the future based on trade receivables and contract assets with different credit risks and review the rationality on sample basis;

(2) Impairment of Goodwill

Description of Matter

As disclosed in Note V. 14 to the financial statements, as at 31 December 2018, the net goodwill of CRRC Times Electric was 475,530,053. The CRRC Times Electric acquired Specialist Machine Developments (SMD) Limited with its subsidiaries, through CRRC Times Electric (Hong Kong) Co., Limited on 9 April 2015. The acquisition brought a goodwill of RMB536 million, and the provision for impairment of goodwill of RMB128 million was made in 2016. As disclosed in Note III. 4.2 and Note III. 17 to the financial statements, CRRC Times Electric measures the goodwill acquired in the business combination according to the amount of the cost less the accumulated impairment loss after the initial recognition, and tests for impairment at least at the end of each year. Since the closing balance of the foresaid goodwill is significant at the end of year and the goodwill impairment test involves a large number of assumptions and judgments, including estimation of future cash flow generated from asset groups or asset group portfolios, and selection of discount rate which properly reflects the currency time value of present market and particular risk of assets, and therefore, we consider this matter to be a key audit matter.

Auditors' Report

3. KEY AUDIT MATTERS (continued)

(2) Impairment of Goodwill (continued)

Audit Response

1. Test and evaluate the effectiveness of the design, implementation and operation of internal control related to the impairment of goodwill;
2. Review and evaluate the reasonableness and consistency of the management's estimation method of recoverable amount based on the discount model of free cash flow generated from asset group portfolio;
3. Involve internal experts, and assess the reasonableness of the impairment test model and key parameters used by the management of CRRC Times Electric including future cash flow forecast and applicable discount rate;
4. Perform sensitivity test on possible changes related to key assumptions in the impairment test model.

4. OTHER INFORMATION

Management of CRRC Times Electric is responsible for other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

5. RESPONSIBILITIES OF THE MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE FINANCIAL STATEMENTS

Management of CRRC Times Electric is responsible for the preparation of the financial statements that give a true and fair view in accordance with Accounting Standards for Business Enterprises, and for such internal control as management determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the ability of CRRC Times Electric to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate CRRC Times Electric or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the financial reporting process of CRRC Times Electric.

Auditors' Report

6. AUDITORS' RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with China Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with China Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- (1) Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (2) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control.
- (3) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- (4) Conclude on the appropriateness of the management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of CRRC Times Electric to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause CRRC Times Electric to cease to continue as a going concern.
- (5) Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- (6) Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within CRRC Times Electric to express an opinion on the financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

Auditors' Report

6. AUDITORS' RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

(continued)

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

I. GENERAL

Zhuzhou CRRCTimes Electric Co., Ltd. (the “Company”), (formerly named Zhuzhou CSR Times Electric Co., Ltd.) is a joint stock limited company registered in Hunan Province, the People’s Republic of China (the “PRC”). It was jointly established by CRRCTimes Zhuzhou Institute Co., Ltd. (中車株洲電力機車研究所有限公司) (formerly named CSR Zhuzhou Electric Locomotive Research Institute Co., Ltd. (南車株洲電力機車研究所有限公司)), CRRCTimes Changzhou Industrial Management Co., Ltd. (中車常州實業管理有限公司) (formerly named CRRCTimes Changzhou Qishuyan Locomotive & Rolling Stock Works (中車集團常州戚墅堰機車車輛廠)), CRRCTimes Zhuzhou Locomotive Co., Ltd. (formerly named CSR Zhuzhou Electric Locomotive Co., Ltd. (南車株洲電力機車有限公司)), CRRCTimes Investment & Leasing Co., Ltd. (中車投資租賃有限公司) (formerly named CSR Investment & Leasing Co., Ltd. (南車投資租賃有限公司)) and CRRCTimes High-Tech Equipment Corporation Limited (中國鐵建高新裝備股份有限公司) (formerly named China Railway Large Maintenance Machinery Co., Ltd. Kunming (昆明中鐵大型養路機械集團有限公司)) at the date of 26 September 2005. The H shares of the Company were listed on the Stock Exchange of Hong Kong Limited (the “Hong Kong Stock Exchange”).

The registered office of the Company is located at Times Road, Shifeng District, Zhuzhou City, Hunan Province, the PRC. The Company and its subsidiaries (together, the “Group”) are principally engaged in the sale and manufacture of train-borne electrical systems and electrical components.

In December 2006, the Company issued 414,644,000 H Shares (including H shares issued via the exercise of the over-allotment option) with a nominal value of RMB1 each through the Hong Kong Stock Exchange. The issue price was HKD5.3 per share. The total proceeds before deducting issuing expenses amounted to HKD2,197,613,000 (equivalent to approximately RMB2,209,968,000). These H shares were listed and traded on the Main Board of the Hong Kong Stock Exchange in December 2006.

In October 2013, the Company issued 91,221,000 H Shares with a nominal value of RMB1 each through the Hong Kong Stock Exchange. The issue price was HKD25 per share. The total proceeds before deducting issuing expenses amounted to HKD2,280,525,000 (equivalent to approximately RMB1,803,872,470). These H shares were listed and traded on the Main Board of the Hong Kong Stock Exchange in October 2013. Consequently upon the issue of the H Shares, the registered capital and paid-in capital of the Company was increased to RMB1,175,476,637.

As at 31 December 2018, the Company had issued an aggregate of 1,175,476,637 shares as share capital, as detailed in Note V. 30.

As at 31 December 2018, the Group’s parent and ultimate holding company are CRRCTimes Zhuzhou Institute Co., Ltd. (中車株洲電力機車研究所有限公司) and CRRCTimes Group (中國中車集團有限公司), respectively, both established in the PRC.

The consolidation scope of the consolidated financial statements is determined on the basis of control. Amendments for current year are referred to Note VI.

The financial statements were approved by the board of directors of the Company on 26 March 2019. According to the Articles of Association of the company, the financial statements will be submitted to the general meeting for consideration.

Notes to the financial statements

For the year ended 31 December 2018
Renminbi Yuan

II. BASIS OF PREPARATION

Basis of preparation

The financial statements are prepared in accordance with the accounting standards for business enterprises issued by the China Ministry of Finance that have taken effect and other related regulations (Accounting Standards for Business Enterprises, collectively). The Group has adopted the Accounting Standards for Business Enterprises No. 14 – Revenue (“New Standards of Revenue”) as well as the Accounting Standards for Business Enterprises No.22 – Recognition and Measurement of Financial Instruments, the Accounting Standards for Business Enterprises No.23 – Transfer of Financial Assets, the Accounting Standards for Business Enterprises No.24 – Hedging Accounting and the Accounting Standards for Business Enterprises No.37 – Presentation of Financial Instruments (“New Standards of Financial Instruments”) amended by the Ministry of Finance (“MoF”) in 2017 since 1 January 2018. The impact of the changes in relevant accounting policies are referred to Note III. 28.

Basis of accounting and principle of measurement

The Group has adopted the accrual basis of accounting. Except for certain financial instruments which are measured at fair value, the Group adopts the historical cost as the principle of measurement in the financial statements. Where assets are impaired, provisions for asset impairment are made in accordance with relevant requirements.

Where the historical cost is adopted as the measurement basis, assets are recorded at the amount of cash and cash equivalents paid or the fair value of the consideration given to acquire them at the time of their acquisition. Liabilities are recorded at the amount of proceeds or assets received or the contractual amounts for assuming the present obligation, or, at the amounts of cash and cash equivalents expected to be paid to settle the liabilities in the normal course of business.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurements date, regardless of whether that price is directly observable or estimated using valuation technique. Fair value measurement and/or disclosure in the financial statements are determined according to the above basis.

The Group considers the ability of market participants to put assets into best use for economic benefits or sell the assets to other market participants who are able to put the assets into best use for economic benefits when measuring non-financial assets at fair value.

For financial assets with transaction prices as the fair value upon initial recognition and the valuation technique of unobservable inputs employed in the subsequent measurement at the fair value, the technique is adjusted during the valuation to match the initial recognition results determined with the transaction prices.

Notes to the financial statements

For the year ended 31 December 2018
Renminbi Yuan

II. BASIS OF PREPARATION (continued)

Basis of accounting and principle of measurement (continued)

Fair value measurements are categorized into Level 1, 2 or 3 based on degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than inputs within Level 1, that are observable for the asset or liability, either directly or indirectly;
- Level 3 inputs are unobservable inputs for the asset or liability.

Going concern

The Group assessed its ability to continue as a going concern for the 12 months from 31 December 2018 and did not notice any events or circumstances that may cast significant doubt upon its ability to continue as a going concern. Therefore, the financial statements have been prepared on a going concern basis.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES

1. Statement of compliance with the Accounting Standards for Business Enterprises (“ASBE”)

The financial statements of the Company have been prepared in accordance with ASBE, and present truly and completely, the Company’s and consolidated financial position as of 31 December 2018, and the Company’s and consolidated results of operations, changes in shareholders’ equity and cash flows for the year then ended.

2. Accounting period

The accounting period of the Group is from 1 January to 31 December of each calendar year.

3. Functional currency

Renminbi (“RMB”) is the currency of the primary economic environment in which the Company and its domestic subsidiaries operate. Therefore, the Company and its domestic subsidiaries choose RMB as their functional currency. The Company’s primary foreign subsidiary chooses GBP as its functional currency on the basis of the primary economic environment in which it operates. The Group adopts RMB to prepare its financial statements, unless otherwise stated.

4. Business combination

A business combination is a transaction or event that brings together two or more separate entities into one reporting entity. Business combinations are classified into business combinations involving entities under common control and business combinations not involving entities under common control.

Notes to the financial statements

For the year ended 31 December 2018
Renminbi Yuan

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (continued)

4. Business combination (continued)

4.1 Business combinations involving enterprises under common control

A business combination involving entities under common control is a business combination in which all of the combining entities are ultimately controlled by the same party or parties both before and after the business combination, and that control is not transitory. For a business combination involving entities under common control, the party that, on the combination date, obtains control of another entity participating in the combination is the acquirer, while that other entity participating in the combination is the acquiree. The combination date is the date on which the acquirer effectively obtains control of the acquiree.

Assets and liabilities that are obtained by the acquirer in a business combination (including the goodwill generated by the ultimate holding party in the acquisition of the acquiree) shall be measured at their carrying amounts at the combination date as recorded by the acquiree. The difference between the carrying amount of the net assets obtained and the carrying amount of the consideration paid for the combination (or the aggregate face value of shares issued as consideration) shall be adjusted to share premium under capital surplus. If the capital surplus is not sufficient to absorb the difference, any excess shall be adjusted against retained earnings.

Various direct expenses incurred as a result of business combination are recorded to profit or loss for the current period upon incurrence.

4.2 Business combinations not involving enterprises under common control and goodwill

A business combination not involving entities under common control is a business combination in which all of the combining entities are not ultimately controlled by the same party or parties both before and after the combination. For a business combination not involving entities under common control, the party that, on the acquisition date, obtains control of another entity participating in the combination is the acquirer, while that other entity participating in the combination is the acquiree. The acquisition date is the date on which the acquirer effectively obtains control of the acquiree.

The acquirer shall measure the acquiree's identifiable assets, liabilities and contingent liabilities acquired in the business combination at their fair values on the acquisition date.

Goodwill is initially recognised at cost being the excess of the aggregate fair value of the consideration transferred (or the fair value of the equity securities issued) and any fair value of the acquirer's previously held equity interest in the acquiree over the net identifiable assets acquired at the acquisition date. After initial recognition, goodwill is measured at cost less any accumulated impairment losses. In the event that the sum of the fair value of the consolidation consideration paid (or the fair value of the equity securities issued) and the fair value of the equity interests in the acquiree held before the date of acquisition is less than the share of the fair value of the net identifiable assets of the acquiree acquired in the consolidation, the measurement of the fair value of the various identifiable assets, liabilities and contingent liabilities of the acquiree acquired and the fair value of the consolidation consideration paid (or the fair value of the equity securities issued) and the fair value of the equity interests in the acquiree held before the date of acquisition shall first be reviewed. If the sum of this consideration and other items mentioned above is lower than the fair value of the net identifiable assets acquired, the difference is, after reassessment, recognised in profit or loss of the current period.

Goodwill arising on a business combination is measured at cost less accumulated impairment losses, and is presented separately in the consolidated financial statements.

5. Consolidated financial statements

The scope of the consolidated financial statements is determined on the basis of control. Control is achieved when the investor has power over the investee; is exposed, or has rights, to variable returns from its involvement with the investee; and has the ability to use its power to affect its returns.

Notes to the financial statements

For the year ended 31 December 2018
Renminbi Yuan

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (continued)

5. Consolidated financial statements (continued)

In preparation of the consolidated financial statement, when the accounting policies of a subsidiary are inconsistent with those of the Company, the Company shall make adjustments to the financial statements of the subsidiary based on its own accounting policies. The effect of all intra-group transactions are eliminated on consolidation.

The portion of subsidiaries' equity that is not attributable to the Company is treated as non-controlling interests and presented as "non-controlling interests" in the shareholders' equity in the consolidated balance sheet. The portion of net profits or losses of subsidiaries for the period attributable to non-controlling interests is presented as "profit or loss attributable to non-controlling interests" in the consolidated income statement below the "net profit" line item.

Where the amount of losses of a subsidiary attributable to non-controlling shareholders exceeds the opening balance of owners' equity attributable to non-controlling shareholders of the subsidiary, the excess shall still be allocated against non-controlling interests.

For subsidiaries acquired through business combinations not involving entities under common control, the operating results and cash flows of the acquiree shall be included in the consolidated financial statements, from the date on which the Group obtains control, till the Group ceases to have control to it. While preparing the consolidated financial statements, the acquirer shall adjust the subsidiary's financial statements, on the basis of the fair values of the identifiable assets, liabilities and contingent liabilities recognised on the acquisition date.

For subsidiaries acquired through business combinations involving entities under common control, the operating results and cash flows of the acquiree shall be included in the consolidated financial statements from the beginning of the period in which the combination occurs. While preparing the comparative financial statements, adjustments are made to related items in the financial statements for the prior period as if the reporting entity established through combination had been in existence since the ultimate holding party began to exercise control.

The Group shall reassess whether it controls an investee if facts and circumstances indicate that there are changes to one or more of elements of control.

When the Group loses control over a subsidiary due to disposal of certain equity interest or other reasons, any retained interest is re-measured at its fair value at the date when control is lost. The difference between (i) the aggregate of the consideration received on disposal and the fair value of any retained interest and (ii) the share of the former subsidiary's net assets cumulatively calculated from the acquisition date according to the original proportion of ownership interest is recognised as investment income in the period in which control is lost. Other comprehensive income associated with investment in the former subsidiary is reclassified to investment income in the period in which control is lost.

When the Group loses control of a subsidiary in two or more arrangements (transactions), terms and conditions of the arrangements (transactions) and their economic effects are considered. One or more of the following indicate that the Group shall account for the multiple arrangements as a 'package deal': (i) they are entered into at the same time or in contemplation of each other; (ii) they form a complete transaction designed to achieve an overall commercial effect; (iii) the occurrence of one transaction is dependent on the occurrence of at least one other transaction; (iv) one transaction alone is not economically justified, but it is economically justified when considered together with other transactions. Where the transactions of disposal of equity investments in a subsidiary until the loss of control are assessed as a package deal, these transactions are accounted for as one transaction of disposal of a subsidiary with loss of control. Before losing control, the difference of consideration received on disposal and the share of net assets of the subsidiary continuously calculated from acquisition date is recognised as other comprehensive income. When losing control, the cumulated other comprehensive income is transferred to profit or loss of the period of losing control. If the transactions of disposal of equity investments in a subsidiary are not assessed as a package deal, these transactions are accounted for as unrelated transactions.

Notes to the financial statements

For the year ended 31 December 2018
Renminbi Yuan

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (continued)

6. Joint arrangements classification and joint operations

Joint arrangement is classified as joint operation and Joint Ventures. A joint operation is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the assets, and obligations for the liabilities, relating to the arrangement. Joint Ventures is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the Joint Ventures.

The Group recognises in relation to its interest in a joint operation: its assets, including its share of any assets held jointly; its liabilities, including its share of any liabilities incurred jointly; its revenue from the sale of its share of the output arising from the joint operation; its share of the revenue from the sale of the output by the joint operation; and its expenses, including its share of any expenses incurred jointly.

7. Cash and cash equivalents

Cash comprises the Group's cash on hand and deposits that can be readily withdrawn on demand. Cash equivalents are short-term highly liquid investments held by the Group that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Notes to the financial statements

For the year ended 31 December 2018
Renminbi Yuan

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (continued)

8. Foreign currency transactions and foreign currency translation

The Group translates the amounts of foreign currency transactions occurred into its functional currency.

Foreign currency transactions are initially recorded using the functional currency rates ruling at the transaction dates. At the balance sheet date, foreign currency monetary items are translated using the spot exchange rate at the balance sheet date. All the resulting exchange differences are taken to profit or loss, except for those relating to foreign currency borrowings specifically for the construction and acquisition of qualifying assets, which are capitalized in accordance with the principle of capitalization of borrowing costs. Non-monetary foreign currency items measured at historical cost shall still be translated at the spot exchange rate prevailing on the transaction date, and the amount denominated in the functional currency is not changed. Non-monetary foreign currency items measured at fair value are translated at the spot exchange rate prevailing at the date on which the fair values are determined. The exchange difference thus resulted are recognised in profit or loss or as other comprehensive income of the current period.

For foreign operations, the Group translates their functional currency amounts into RMB in preparing the financial statements as follows: all the asset and liability items in the balance sheet are translated using the spot exchange rates at the balance sheet date, and shareholders' equity items are translated using the spot exchange rates at the dates of transactions; all the items in the income statement and the items reflecting the profit distribution are translated using the average exchange rate for the year during which the transactions occur. The resulted exchange of differences of total asset items and liability items as well as the shareholders' equity items are recognised in other comprehensive income and included in shareholders' equity. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation recognised is profit or loss of the current period. If the disposal only involves a portion of a particular foreign operation, the component of other comprehensive income relating to that particular foreign operation recognised is profit or loss of the current period on a pro-rata basis.

In the circumstances of the Group has the foreign currency monetary item of net investment in substance to subsidiary (foreign operation), offsetting entry should be made when preparing consolidated financial statements in two ways as follows:

- (1) In substance the foreign currency monetary item of net investment to subsidiary was created and disclosed by the functional currency of parent company or subsidiary, the exchange difference arising from foreign currency monetary item should be recognised in "Other comprehensive income."
- (2) In substance the foreign currency monetary item of net investment was created and disclosed by other currency of parent company and subsidiary except functional currency, the offsetting balance arising from foreign currency monetary item exchange of the parent and subsidiary should be recognised in "Other comprehensive income."

If the foreign currency monetary item of net investment in substance was created to another subsidiary (foreign operation) between subsidiaries in consolidated financial statement, the principles above should be referred to when preparing consolidated financial statements.

Foreign currency cash flows and the cash flows of foreign subsidiaries are translated using the average exchange rate for the year during which the cash flows occur. The effect of exchange rate changes on cash and cash equivalents is separately presented as an adjustment item in the statement of cash flows as "Effect of foreign exchange rate changes on cash and cash equivalents".

Notes to the financial statements

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (continued)

9. Financial instruments

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instrument. For financial assets purchased or sold in regular ways, assets to be received and liabilities to be assumed are recognised on the transaction date or assets sold are derecognised on that date. Financial assets and financial liabilities are initially measured at fair value. For financial assets and financial liabilities at fair value through profit or loss, transaction costs are immediately recognised in profit or loss. For other financial assets and financial liabilities, transaction costs are included in their initial recognised amounts. For trade receivables initially recognised based on *Accounting Standard for Business Enterprises No. 14 – Revenue* (“standards for revenue”), trade receivables shall be measured at transaction price defined based on the Standard – Revenue on initial recognition initially.

The effective interest method is a method of calculating the amortized cost of a financial asset or a financial liability and of allocating the interest income or interest expense over each accounting period.

The effective interest rate is the rate that exactly discounts estimated future cash flows through the expected life of the financial asset or financial liability to the net carrying amount of the financial asset or the amortized cost of financial liability. When calculating the effective interest rate, the Group estimates future cash flows considering all contractual terms of the financial asset or financial liability including earlier repayment, extension, call option or other similar options etc. without considering future credit losses.

The amortized cost of a financial asset or a financial liability is the amount of a financial asset or a financial liability initially recognised net of principal repaid, plus or less the cumulative amortized amount arising from amortization of the difference between the amount initially recognised and the amount at the maturity date using the effective interest method, net of cumulative loss allowance (only applicable to financial assets).

9.1 Classification and measurement of financial assets

Subsequent to initial recognition, the Group’s financial assets of various categories are subsequently measured at amortized cost, fair value through other comprehensive income or fair value through profit or loss.

If contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding, and the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows, such asset is classified into financial asset measured at amortized cost. Such type of financial assets mainly comprise cash and bank balances, Bills receivable and trade receivables, other receivables, equity investment, long-term receivables, etc.

Notes to the financial statements

For the year ended 31 December 2018
Renminbi Yuan

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (continued)

9. Financial instruments (continued)

9.1 Classification and measurement of financial assets (continued)

The contract clauses of financial assets stipulate that cash flows generated on a specified date are only payments of principal and interest based on the amount of outstanding principal and the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling the financial assets. The financial assets that meet the above conditions are classified as at fair value through other comprehensive income ("FVTOCI"). Such type of financial assets with a period of over one year since obtaining are presented as other equity investments and financial assets due within one year (inclusive) since the balance sheet date are presented as non-current assets due within one year; financial assets with a period within one year (inclusive) upon obtaining are presented as other current assets.

Financial assets at FVTPL including financial assets at fair value through profit and loss and those designated as at fair value through profit or loss are all presented under held-for-trading financial assets except derivative financial assets. Financial assets due over one year since the balance sheet date (or without a fixed term) and expected to be held for over one year are presented under other non-current financial assets.

- (1) Financial assets that are unqualified for the classification as at amortized cost and at fair value through other comprehensive income are classified as at fair value through profit or loss.
- (2) Upon initial recognition, to eradicate or significantly reduce accounting mismatches, the Group can irrevocably designate financial assets as at fair value through profit or loss.

Upon initial recognition, the Group irrevocably designates non-held-for-trading equity instrument investment except contingent considerations recognised in the business combination not under the same control as financial assets at fair value through other comprehensive income. Such type of financial assets are presented as other equity instrument investment.

Financial assets meeting one of the following requirements indicate that the financial assets held by the Group are for trading:

- (1) The obtaining of relevant financial assets is mainly for the purpose of sale in the near future;
- (2) Relevant financial assets are part of the identifiable financial instrument combination under centralized management upon initial recognition and there is objective evidence indicating that recently there exists a short-term profit model.
- (3) Relevant financial assets are derivatives, excluding derivatives following the definition of financial guarantee contracts as well as derivatives designated as effective hedging instruments.

Notes to the financial statements

For the year ended 31 December 2018
Renminbi Yuan

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (continued)

9. Financial instruments (continued)

9.1 Classification and measurement of financial assets (continued)

9.1.1 Financial assets measured at amortized cost

Financial assets at amortized cost are measured subsequently at amortized cost using the effective interest method. Gains or losses arising from impairment or derecognition are recorded to profit or loss for the period.

The Group recognises interest income for financial assets measured at amortized cost using the effective interest method. The Group determines the interest income by multiplying the carrying amount of financial assets by effective rate except the following situations:

- (1) For purchased or original credit-impaired financial assets, the Group recognises their interest income based on amortized cost and credit-adjusted effective interest rate of such financial assets since initial recognition.
- (2) For purchased or original financial assets without credit-impairment but subsequently becoming credit-impaired, the Group subsequently recognises their interest income based on amortized costs and effective interest rate of such financial assets. If there exists no credit impairment due to improvement in credit risk of the financial instruments subsequently and the improvement is relevant to an event incurred subsequent to the application of above provisions, the Group recognises interest income based on applying effective interest rate to carrying amount of the financial assets.

9.1.2 Financial assets classified as at fair value through other comprehensive income (FVTOCI)

Except that gains or losses on impairment relating to financial assets at fair value through other comprehensive income, interest income calculated using effective interest rate and exchange gains or losses are recognised in profit or loss for the period, fair value changes in the above financial assets are included in other comprehensive income. The amount of the financial assets included into profit or loss of each period shall be regarded as equal as the amount measured at amortized cost through profit or loss over each period. Upon derecognition of the financial assets, cumulative gains or losses previously recognised in other comprehensive income are transferred and reclassified into profit or loss for the period.

9.1.3 Financial assets designated as at fair value through other comprehensive income (FVTOCI)

Subsequent to designation of non-held-for-trading equity investment to FVTOCI, fair value change of such financial asset is recognised in other comprehensive income. Upon derecognition of the financial asset, cumulative gains or losses previously recognised in other comprehensive income are transferred and included in retained earnings. During the period for which the Group holds the investments in the non-held-for-trading equity instruments, dividend income is recognised and included in profit or loss for the period when 1) the Group's right to collect dividend has been established; 2) it is probable that economic benefits associated with dividend will flow to the Group; and 3) the amount of dividend can be reliably measured.

Notes to the financial statements

For the year ended 31 December 2018
Renminbi Yuan

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (continued)

9. Financial instruments (continued)

9.1 Classification and measurement of financial assets (continued)

9.1.4 Financial assets classified as at fair value through profit and loss (FVTPL)

FVTPL is measured subsequently at fair value with gains or losses arising from changes in the fair value and dividend and interest income relevant to the financial assets are recorded to profit or loss for the period.

9.2 Impairment of financial instruments

The Group recognised loss allowance for financial instruments classified as at amortized and at FVOCI, lease receivables, contract assets, trade receivables and lending commitment based on expected credit losses ("ECL").

The Group measures loss provision based on the amount equal to the lifetime ECL for all the contractual assets and trade receivables arising from the transactions under revenue standards.

For other financial instruments, except for purchased or original credit-impaired financial assets, at each balance sheet date, the Group assesses changes in credit risk of relevant financial instruments since initial recognition. If the credit risk of the above financial instruments has increased significantly since initial recognition, the Group measures loss allowance based on the amount of full lifetime; if credit risk of the financial instrument has not increased significantly since initial recognition, the Group recognises loss allowance based on 12-month ECL of the financial instrument. Increase in or reversal of credit loss allowance is included in profit or loss as loss/gain on impairment, except for financial assets classified as at fair value through other comprehensive income. The Group recognises credit loss allowance for financial assets at FVOCI in other comprehensive income and recognises loss/gain on impairment in profit or loss for the period, without reducing the carrying amount of the financial assets presented in the balance sheet.

The Group measured loss allowance at the full lifetime ECL of the financial instruments in the prior accounting period. However, as at the balance sheet date for the current period, for the above financial instruments, due to failure to qualify as significant increase in credit risk since initial recognition, the Group measures loss allowance for the financial instrument at 12-month ECL at the balance sheet date for the current period. Relevant reversal of loss allowance is included in profit or loss as gain on impairment.

9.2.1 Credit risk

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition.

Notes to the financial statements

For the year ended 31 December 2018
Renminbi Yuan

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (continued)

9. Financial instruments (continued)

9.2 Impairment of financial instruments (continued)

9.2.1 Credit risk (continued)

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- (1) Whether internal price indicator resulted from change in credit risk has changed significantly;
- (2) If the existing financial instruments are derived into or issued as new financial instruments at the balance sheet date, whether interest rates or other terms of the above financial instruments have changed significantly (including harsher contractual terms, increase in collaterals or higher yield rate etc.);
- (3) Whether external credit rating of the financial instrument has actually changed significantly or is expected to change significantly;
- (4) Whether expected detrimental changes in business, financial and economic conditions of the borrower which will affect borrower's ability to perform repayment obligation have changed significantly;
- (5) Whether the actual or expected operating results of the borrower have changed significantly;
- (6) Whether credit risk of other financial instruments issued by the same borrower has increased significantly;
- (7) Whether supervisory, economic or technical environment for the borrower has significant detrimental changes;
- (8) Whether the economic motive that will lower the borrower's repayment based on contractual stipulation has changed significantly;
- (9) Whether the borrower's expected performance and repayment activities have changed significantly;
- (10) Whether the contract payment is overdue.

No matter whether the credit risk is increased significantly after above assessment, it indicates that the credit risk of such financial instrument has been increased significantly if it lasts over 30 (inclusive) days after the overdue payment of the financial instrument contract.

At the balance date, the Group assumes that credit risk of the financial instrument has not increased significantly since initial recognition when the Group determines that the financial instrument is only exposed to lower credit risk. The financial instrument is regarded to have relatively low credit risk provided that 1) the financial instrument has low default risk, 2) the borrower has strong ability to perform its contractual cash flow obligation within a short term, and 3) it may not reduce the ability of the borrower to perform its contractual cash obligation even though the economic situation and operating environment are changed adversely within a relatively long term.

Notes to the financial statements

For the year ended 31 December 2018
Renminbi Yuan

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (continued)

9. Financial instruments (continued)

9.2 Impairment of financial instruments (continued)

9.2.2 Credit-impaired financial assets

A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Evidence of credit-impairment includes observable data about the following events:

- (1) Significant financial difficulty of the issuer or obligor;
- (2) A breach of contract by the borrower, such as a default or delinquency in interest or principal payments;
- (3) The lender of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession that the lender would not otherwise consider;
- (4) It becoming probable that the borrower will enter bankruptcy or other financial reorganizations;
- (5) Whether the contract payment is overdue significantly.

9.2.3 Recognition of ECL

The Group recognises credit loss of related financial instruments for trade receivables, contract assets, other receivables and bills receivable on a collectively basis using a provision matrix. The Group classifies financial instruments into different groups based on shared risk characteristics. Shared credit risk characteristics include type of financial instruments, type of debtors, industry of debtors, initial recognition date, and contract collection term etc. The Group divides the trade receivables and contract assets into portfolios on a basis of the credit risk characteristics, and determines that the portfolios include central state-owned enterprises, local state-owned enterprises, railway corporations and their subsidiaries, and other enterprises.

For the grouped trade receivables and contract assets, the Group takes consideration of the aging analysis, historical loss and other factors, and properly adjusts the lifetime expected credit losses rate in respect of the future economic condition and other factors so as to calculate the expected credit losses by default risk exposures and lifetime expected credit losses rate.

ECL of relevant financial instruments is recognised based on the following methods:

- For a financial asset, credit loss is the present value of difference between the contractual cash flow receivable and the expected cash flows to be received.
- For credit-impaired financial assets other than the purchase or original of credit-impaired financial assets at the balance date, credit loss is difference between the carrying amount of financial assets and the present value of expected future cash flows discounted at original effective interest rate.
- For financial guarantee contract, credit loss is the present value of the remainder between the expected payment made by the Group for the credit loss incurred to the contract holder and the amount that the Group expects to collect from such contract holder, debtor or other parties.

The Group's measurement of ECL of financial instruments reflects factors including unbiased probability weighted average amount recognised by assessing a series of possible results, including time value of money, reasonable and supportable information related to historical events, current condition and forecast of future economic position that is available without undue cost or effort at the balance date.

Notes to the financial statements

For the year ended 31 December 2018
Renminbi Yuan

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (continued)

9. Financial instruments (continued)

9.2 Impairment of financial instruments (continued)

9.2.4 Reduction in financial assets

The Group directly reduces the carrying amount of financial assets when ceasing to reasonably expect that the contractual cash flow of such financial assets may be fully or partially recoverable. Such reduction comprises derecognition of relevant financial assets.

9.3 Transfer of financial assets

The Group derecognises a financial asset if one of the following conditions is satisfied: (1) the contractual rights to the cash flows from the financial asset expire; or (2) the financial asset has been transferred and substantially all the risks and rewards of ownership of the financial asset is transferred to the transferee; or (3) although the financial asset has been transferred, the Group neither transfers nor retains substantially all the risks and rewards of ownership of the financial asset but has not retained control of the financial asset.

If the Group neither transfers nor retains substantially all the risks and rewards of ownership of a financial asset, and it retains control of the financial asset, it recognises the financial asset to the extent of its continuing involvement in the transferred financial asset and recognises an associated liability. Relevant liabilities are measured using the following methods:

- (1) For transferred financial assets carried at amortized cost, the carrying amount of relevant liabilities is the carrying amount of financial assets transferred with continuing involvement less amortized cost of the Group's retained rights (if the Group retains relevant rights upon transfer of financial assets) with addition of amortized cost of obligations assumed by the Group (if the Group assumes relevant obligations upon transfer of financial assets). Relevant liabilities are not designated as financial liabilities at fair value through profit or loss.
- (2) For financial assets carried at fair value, the carrying amount of relevant financial liabilities is the carrying amount of financial assets transferred with continuing involvement less fair value of the Group's retained rights (if the Group retains relevant rights upon transfer of financial assets) with addition of fair value of obligations assumed by the Group (if the Group assumes relevant obligations upon transfer of financial assets). Accordingly, the fair value of relevant rights and obligations shall be measured on an individual basis.

For a transfer of a financial asset in its entirety that satisfies the derecognition criteria, regarding financial assets classified as carried at amortized cost and fair value through other comprehensive income (FVTOCI), the difference between (1) the carrying amount of the financial asset transferred; and (2) the sum of the consideration received from the transfer and any cumulative gain or loss that has been recognised in other comprehensive income, is recognised in profit or loss. While regarding non-trading equity instruments designated as at FVTOCI, cumulative gains or losses previously recognised in other comprehensive income are transferred and included in retained earnings.

If a part of the transferred financial asset qualifies for derecognition, the overall carrying amount of the financial asset prior to transfer is allocated between the part that continues to be recognised and the part that is derecognised, based on the respective fair values of those parts at the date of transfer. The difference between (1) the carrying amount allocated to the part derecognised on the date of derecognition; and (2) the sum of the consideration received for the part derecognised and any cumulative gain or loss allocated to the part derecognised which has been previously recognised in other comprehensive income, is recognised in profit or loss or retained earnings.

For a transfer of a financial asset in its entirety that does not satisfy the derecognition criteria, the Group continues to recognise the transferred financial asset entirety. The consideration received from transfer of assets is recognised as a liability upon receipt.

Notes to the financial statements

For the year ended 31 December 2018
Renminbi Yuan

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (continued)

9. Financial instruments (continued)

9.4 Classification of financial liabilities and equity instrument

Financial instruments issued by the Group are classified into financial liabilities or equity instruments on the basis of the substance of the contractual arrangements and the economic nature not only its legal form, together with the definition of financial liability and equity instruments.

9.4.1 Classification and measurement of financial liabilities

On initial recognition, financial liabilities are classified into financial liabilities at fair value through profit or loss and other financial liabilities.

9.4.1.1 Financial liabilities at fair value through profit or loss ("FVTPL")

Financial liabilities at FVTPL consist of financial liabilities held for trading (including derivative instruments of financial liabilities) and those designated as at FVTPL on initial recognition.

It is indicated that the Group undertakes the financial liabilities for a trading objective if the financial liabilities meet one of the following conditions:

- (1) The objective to undertake the relevant financial liabilities is mainly for the repurchase in the near future.
- (2) The relevant financial assets are a part of the identifiable financial instrument combination under the concentrated management of the Group upon initial recognition, and there is an objective evidence indicates that a short-term profitability mode exists actually in a short term.
- (3) The relevant financial liabilities are derivatives, excluding the derivatives consistent with the definition of financial guarantee contract and the derivatives designated as effective hedging instruments.

On initial recognition, financial liabilities that meet one of the following conditions are irrevocably designated as financial liabilities at fair value through profit or loss: 1) Such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise result from measuring liabilities or recognising the gains or losses on them on different bases; 2) The financial liability forms part of a group of financial liabilities or a group of financial assets and financial liabilities, which is managed and its performance is evaluated on a fair value basis, in accordance with the documented risk management or investment strategy, and information about the grouping is reported to key management personnel on that basis; 3) The qualified hybrid financial instrument combines financial liability with embedded derivatives.

Held-for-trading financial liabilities are subsequently measured at fair value, and any gains or losses arising from changes in fair value and any dividend or interest income earned on the financial liabilities are recognised in profit or loss.

The amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability shall be presented in other comprehensive income, and upon the derecognition of such liability, the accumulated amount of change in fair value that is attributable to changes in the credit risk of that liability, which is recognised in other comprehensive income, is transferred to retained earnings. Other gains or losses arising from changes in fair value and any dividend or interest income earned on the financial liabilities are recognised in profit or loss. If the impact of the change in credit risk of such financial liability dealt with in the above way would create or enlarge an accounting mismatch in profit or loss, the Group shall present all gains or losses on that liability (including the effects of changes in the credit risk of that liability) in profit or loss.

Notes to the financial statements

For the year ended 31 December 2018
Renminbi Yuan

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (continued)

9. Financial instruments (continued)

9.4 Classification of financial liabilities and equity instrument (continued)

9.4.1 Classification and measurement of financial liabilities (continued)

9.4.1.2 Other financial liabilities

The Group shall classify all financial liabilities as subsequently measured at amortized cost, except for financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition or when the continuing involvement approach applies, and gains or losses arising from derecognition or amortization are recognised in profit or loss for the period.

When the contractual cash flows are changed due to the renegotiation or modification of the contract made between the Group and the counterparty and the renegotiation or modification does not result in the derecognition of the financial asset that is subsequently measured at amortized cost, the Group shall recalculate the carrying amount of the financial asset and shall recognised related gains or losses in profit or loss. The carrying amount of the financial asset shall be recalculated as the present value of the renegotiated or modified contractual cash flows that are discounted at the financial liability's original effective interest rate. Any costs or fees incurred adjust the carrying amount of the modified financial liability and are amortized over the remaining term of the modified financial liability.

9.4.1.2.1 Financial guarantee contracts

A financial guarantee contract is a contract by which the issuer is required to compensate specific amount to the contract holder who suffers from losses when the specific debtor cannot repay the debts in accordance with the initial or revised debt instrument terms upon maturity of debts. Financial guarantee contracts that are not designated as financial liabilities at fair value through profit or loss, or are for the financial liabilities arising as the transfer of financial assets do not meet the derecognition condition or arising from continuous involvement of transferred financial assets, are measured at the higher of: (i) the loss provision after initial recognition, and (ii) balance of amount recognised initially less the accumulated amortization amount determined on the basis of relevant revenue standards.

9.5 Derecognition of financial liabilities

The Group derecognises a financial liability (or part of it) only when the underlying present obligation (or part of it) is discharged. An agreement between the Group (a borrower) and a lender to replace the original financial liability with a new financial liability with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability.

When the Group derecognises a financial liability or a part of it, it recognises the difference between the carrying amount of the financial liability (or part of the financial liability) derecognised and the consideration paid (including any non-cash assets transferred or new financial liabilities assumed) in profit or loss.

9.6 Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments issued (including refinanced), repurchased, sold and cancelled by the Group are recognised as changes of equity. Change of fair value of equity instruments is not recognised by the Group. Transaction costs related to equity transactions are deducted from equity.

The Group recognises the distribution to holders of the equity instruments as distribution of profits, and dividends paid do not affect total amount of shareholders equity.

Notes to the financial statements

For the year ended 31 December 2018
Renminbi Yuan

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (continued)

9. Financial instruments (continued)

9.7 Derivative instrument and embedded derivatives

The derivative instruments of the Group include forward exchange contract. The derivative instruments are measured initially at fair value on the relevant contractual signing date, and measured subsequently at fair value. At the end of reporting period, the derivative financial instruments at a positive fair value are presented in trading financial assets, and those at a negative fair value are presented in trading financial liabilities.

Any gains or losses arising from changes in fair value of derivatives are taken directly to the statement of profit or loss, except for the effective portion of cash flow hedges, which is recognised in other comprehensive income and later reclassified to profit or loss when the hedged item affects profit or loss.

For the hybrid contract comprised of embedded derivatives and master contract, if the master contract belongs to financial assets, the Group shall apply the hybrid contract as a whole to the accounting standards on the classification of financial assets rather than split embedded derivatives from the hybrid contract.

The Group will split the embed derivatives from the hybrid contract to treat as a stand-alone derivative instrument if the master contract included in the hybrid contract does not belong to financial assets, and the following conditions are met:

- (1) The economic characteristics of the embedded derivatives are not closely related to the economic characteristics and risk of the master contract.
- (2) The stand-alone instrument which has the same terms of embedded derivatives conforms to the definition of derivative instruments.
- (3) The hybrid contract is not measured at fair value through profit or loss over the current period.

Where an embedded derivative is split from a hybrid contract, the Group performs accounting treatment for the master contract of the hybrid contract in accordance with applicable accounting standards. Where the Group is unable to measure the fair value of an embedded derivative reliably in accordance with the terms and conditions of the embedded derivative, the fair value of such embedded derivative is determined as the difference between the fair value of the hybrid contract and that of the master contract. Where the fair value of such embedded derivative on the acquisition date or the subsequent balance sheet dates is still unable to be measured separately, the Group designates the hybrid contract in a whole into the financial instrument at fair value through profit or loss over the current period.

9.8 Offsetting financial assets and financial liabilities

Where the Group has a legal right that is currently enforceable to set off the recognised financial assets and financial liabilities, and intends either to settle on a net basis, or to realise the financial asset and settle the financial liability simultaneously, a financial asset and a financial liability shall be offset and the net amount is presented in the statement of financial position. Except for the above circumstances, financial assets and financial liabilities shall be presented separately in the statement of financial position and shall not be offset.

Notes to the financial statements

For the year ended 31 December 2018
Renminbi Yuan

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (continued)

10. Inventories

Inventories include raw materials, semi-finished products, work in progress, finished goods and turnover materials.

Inventories are initially carried at actual cost. Cost of inventories comprises all costs of purchase, costs of conversion and other costs. The actual cost of inventories transferred out is determined by using the weighted average method. Turnover materials include low value consumables and packing materials, which are amortized by using the immediate write-off method.

The Group adopts a perpetual inventory system.

At the balance sheet date, inventories are measured at the lower of cost and net realizable value. If the cost of inventories is higher than the net realizable value, a provision for decline in value of inventories is recognised in profit or loss. If factors that previously resulted in the provision for decline in value of inventories no longer exist, the amount of the write-down is reversed. The reversal is limited to the amount originally provided for the provision for the decline in value of inventories, and is recognised in profit or loss of the current period.

Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale and relevant taxes. The provision for decline in values of raw materials, semi-finished products, work in progress, finished goods, and turnover materials are made on an individual basis. For items of inventories that relate to a product line that is produced and marketed in the same geographical area, have the same or similar end uses or purposes, and cannot be practicably evaluated separately from other items, provision for decline in value of inventories can be determined on an aggregate basis.

11. Held-for-sale non-current assets and disposal groups

Non-current assets and disposal groups are classified as held for sale category when the Group recovers the book value through a sale (including an exchange of nonmonetary assets that has commercial substance) rather than continuing use.

Non-current assets or disposal groups classified as held for sale are required to satisfy the following conditions: (1) the asset or disposal group is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such asset or disposal group; (2) the sale is highly probable, i.e. the Group has made a resolution about selling plan and obtained a confirmed purchase commitment and the sale is expected to be completed within one year.

When there is loss of control over a subsidiary due to disposal of investments in the subsidiary, and the proposed disposal of investment in the subsidiary satisfies classification criteria of held-for-sale category, the investments in subsidiaries are classified as held-for-sale category as a whole in the company's separate financial statement, and all assets and liabilities of subsidiaries are classified as held-for-sale category in the consolidated financial statements regardless that part of the equity investments are remained after the sale.

The Group measures the no-current assets or disposal groups classified as held for sale at the lower of their carrying amount and fair value less costs to sell. Where the carrying amount is higher than the net amount of fair value less costs to sell, carrying amount should be reduced to the net amount of fair value less costs to sell, and such reduction is recognised in impairment loss of assets and included in profit or loss for the period. Meanwhile, provision for impairment of held-for-sale assets are made. When there is increase in the net amount of fair value of non-current assets held for sale less costs to sell at the balance sheet date, the original deduction should be reversed in impairment loss of assets recognised after the classification of held-for-sale category, and the reverse amount is include in profit or loss for the period, except for the impairment loss of assets recognised before classified as held for sale.

Non-current assets classified as held-for-sale or disposal groups are not depreciated or amortized, interest and other costs of liabilities of disposal group classified as held for sale continue to be recognised.

All or part of equity investments in an associate or Joint Ventures are classified as held-for-sale assets. For the part that is classified as held-for-sale, it is no longer accounted for using the equity method since the date of the classification.

Notes to the financial statements

For the year ended 31 December 2018
Renminbi Yuan

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (continued)

12. Long-term equity investments

Long-term equity investments include investments in subsidiaries, Joint Ventures and associates.

A long-term equity investment is recorded at its initial investment cost on acquisition.

12.1 Recognition of investment cost

For a long-term equity investment acquired through business combination involving enterprises under common control, shares of book value of shareholders' equity of combined party in financial statements of ultimate controlling party is recognised as initial investment cost of long-term equity investment at the date of combination. The difference between initial investment cost of long-term equity investment and cash paid, non-cash assets transferred and book value of liabilities assumed, is adjusted in capital reserve. If the balance of capital reserve is not sufficient to absorb the difference, any excess is adjusted to retained earnings. If the consideration of the combination is satisfied by the issue of equity securities, the initial investment cost of the long-term equity investment is the share of book value of shareholders' equity of the acquired entity in the ultimate controlling party's consolidated financial statements at the date of combination. The aggregate face value of the shares issued is accounted for as share capital. The difference between the initial investment cost and the aggregate face value of the shares issued is adjusted to capital reserve. If the balance of capital reserve is not sufficient to absorb the difference, any excess is adjusted to retained earnings. If the initial investment cost of the long-term equity investment is the share of book value in the ultimate controlling party's consolidated financial statements, the difference between the initial investment cost and the sum of carrying amount of equity investments previously held in the acquiree and the new investment cost is adjusted to capital reserve. If the balance of capital reserve is not sufficient to absorb the difference, any excess is adjusted to retained earnings.

For a long-term equity investment acquired through business combination not involving enterprises under common control, the investment cost of the long-term equity investment is the cost of acquisition. Where equity interests in an acquiree are acquired in stages through multiple transactions ultimately constituting a business combination not involving entities under common control, the acquirer shall determine if these transactions are considered to be a "package deal". If yes, these transactions are accounted for as a single transaction where control is obtained. If no, the sum of carrying amount of equity investments previously held in the acquiree and the new investment cost is deemed as the initial investment cost of long-term equity investments that was changed to be accounted for using cost method. If the equity previously held was accounted for using the equity method, the corresponding other comprehensive income is not subject to accounting treatment temporarily. If the equity investment previously held is designated as non-trading equity instrument investment at fair value through other comprehensive income, the difference between its fair value and book value, and the accumulated changes in fair value previously included in other comprehensive income are transferred to retained earnings.

The expenses incurred by the acquirer in respect of auditing, legal services, valuation and consultancy services and other associated administrative expenses attributable to the business combination are recognised in profit or loss when they are incurred.

Long-term equity investment acquired otherwise than through a business combination is initially measured at its cost. When the entity is able to exercise significant influence or joint control (but not control) over an investee due to additional investment, the cost of long-term equity investments is the sum of the fair value of previously-held equity investments determined in accordance with Accounting Standard for Business Enterprises No.22 – Financial Instruments; Recognition and Measurement and the additional investment cost.

Notes to the financial statements

For the year ended 31 December 2018
Renminbi Yuan

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (continued)

12. Long-term equity investments (continued)

12.2 Subsequent measurement and recognition of profit and loss

12.2.1 Long-term equity investment accounted for using the cost method

For a long-term equity investment where the Company can exercise real-time control over the investee, the long-term investment is accounted for using the cost method in the Company's financial statements. Control is the power over an investee. An investor must have exposure or rights to variable returns from its involvement with the investee, and the ability to use its power over the investee to affect the amount of the investor's returns.

Under the cost method, the long-term equity investment is measured at its initial investment cost. The cost of long-term equity investment is adjusted if capital is contributed or withdrawn. The cash dividend or profit distribution declared by the investee is recognised as investment income for the period.

12.2.2 Long-term equity investment accounted for using the equity method

The equity method is adopted when the Group has joint control, or exercises significant influence on the investee. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control with other parties over those policies.

Under the equity method, where the initial investment cost of a long-term equity investment exceeds the Group's share of the fair value of the investee's identifiable net assets at the time of acquisition, the cost is made to the initial investment cost. Where the initial investment cost is less than the Group's share of the fair value of the investee's identifiable net assets at the time of acquisition, the difference is recognised in profit or loss for the period, and the cost of the long-term equity investment is adjusted accordingly.

Under the equity method, the Group recognises its share of the net profits or losses and other comprehensive income made by the investee as investment income or losses and other comprehensive income respectively, and adjusts the carrying amount of the investment accordingly. The Group recognises its share of the investee's net profits or losses after making appropriate adjustments to the investee's net profits and losses based on the fair value of the investee's identifiable assets at the acquisition date, using the Group's accounting policies and periods, and eliminating the portion of the profits or losses arising from internal transactions with its Joint Ventures and associates, attributable to the investing entity according to its share ratio (but impairment losses for assets arising from internal transactions shall be recognised in full), except for the disposal of assets that consist of operations. The carrying amount of the investment is reduced based on the Group's share of any profit distributions or cash dividends declared by the investee. The Group's share of net losses of the investee is recognised to the extent the carrying amount of the investment together with any long-term interests that in substance form part of its net investment in the investee is reduced to zero, except that the Group has the obligations to assume additional losses. The Group adjusts the carrying amount of the long-term equity investment for any statement of change in equity of the investee (other than net profits or losses, other comprehensive income, and profit distribution) and includes the corresponding adjustments in the shareholders' equity of the Group.

Notes to the financial statements

For the year ended 31 December 2018
Renminbi Yuan

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (continued)

12. Long-term equity investments (continued)

12.3. Disposal of long-term equity investments

On disposal of a long term equity investment, the difference between the proceeds actually received and receivable and the carrying amount is recognised in profit or loss for the period. For a long-term equity investment accounted for using the equity method, if remaining shares after the disposal are still accounted for using the equity method, other comprehensive income is accounted on the basis of directly disposed related assets and liabilities of investee, and profit or loss is carried forward proportionately; Other owners' equity recognised from changes of owners' equity except for net profit or loss, other comprehensive income and profit distribution is recognised in profit or loss of current period and carried forward proportionately. For a long-term equity investment accounted for using the cost method, if remaining shares after the disposal are still accounted for using the cost method, other comprehensive income recognised before controlling the investee according to equity method or recognition and measurement of financial instruments, accounted for on the basis of directly disposed related assets and liabilities of the investee, and recognised in profit or loss for the period and carried forward proportionately; changes of owners' equity except for net profit or loss, other comprehensive income and profit distribution are carried forward and recognised in profit or loss for the current period.

The Group loses control on investee due to disposal of part of shares, during preparing separate financial statement, remaining shares after disposal can make joint control or significant influence on investee, are accounted under equity method, and adjusted as they are accounted under equity method since the acquisition date; If remaining shares after disposal cannot make joint control or significant influence on investee, they are accounted according to recognition and measurement of financial instruments, and the difference between fair value on date of losing control and book value is recognised in profit or loss of current period. Before the Group obtained controls over the investee, other comprehensive income recognised due to equity method or recognition and measurement of financial instruments, is accounted on the basis of related assets and liabilities, and recognised in profit or loss; changes of owners' equity except for net profit or loss, other comprehensive income and profit distribution are recognised in profit or loss of current period. Remaining shares after disposal are accounted under equity method, other comprehensive income and other owners' equity are carried forward as proportion; remaining shares after disposal are accounted due to recognition and measurement of financial instruments other comprehensive income and other owners' equity are all carried forward.

Notes to the financial statements

For the year ended 31 December 2018
Renminbi Yuan

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (continued)

13. Fixed assets

A fixed asset is recognised only when the economic benefits associated with the asset will probably flow into the Group and the cost of the asset can be measured reliably. Subsequent expenditure incurred for a fixed asset that meets the recognition criteria shall be included in the cost of the fixed asset, and the carrying amount of the component of the fixed asset that is replaced shall be derecognised. Otherwise, such expenditure shall be recognised in the profit or loss for the period in which it is incurred.

Fixed assets are initially measured at cost. The cost of a purchased fixed asset comprises the purchase price, relevant taxes and any directly attributable expenditure for bringing the asset to working condition for intended use.

Depreciation is calculated using the straight-line method. The estimated useful lives, estimated residual value rates and annual depreciation rates of each category of fixed asset are presented as follows:

	Useful life	Expected residual value rate (%)	Annual depreciation rate
Buildings	20-45 years	5%	2.11%-4.75%
Machinery	6-10 years	5%	9.50%-15.83%
Vehicles	5 years	5%	19.00%
Office facilities and others	5 years	5%	19.00%

If a fixed asset is upon disposal or no future economic benefits are expected to be generated from its use or disposal, the fixed asset is derecognised. When a fixed asset is sold, transferred, retired or damaged, the amount of any proceeds on disposal of the asset net of the carrying amount and related taxes is recognised in profit or loss for the period.

The Group reviews the useful life, estimated net residual value of a fixed asset and the depreciation method applied at least once at each financial year-end, and makes adjustment if necessary.

14. Construction in progress

The cost of construction in progress is determined according to the actual expenditure incurred for the construction, including all necessary construction expenditure incurred during the construction period, borrowing costs that shall be capitalized before the construction gets ready for its intended use and other relevant expenses.

Construction in progress is transferred to a fixed asset when it is ready for intended use.

15. Borrowing cost

Borrowing costs are interests and other costs incurred by the Group in connection with the borrowing of funds. Borrowing costs include interests, amortization of discounts or premiums related to borrowings, ancillary costs incurred in connection with the arrangement of borrowings, and exchange differences arising from foreign currency borrowings.

The borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized. The amounts of other borrowing costs incurred are recognised as an expense in the period in which they are incurred. Qualifying assets are assets (fixed assets, inventories, etc.) that necessarily take a substantial period of time for acquisition, construction or production to get ready for their intended use or sale.

Notes to the financial statements

For the year ended 31 December 2018
Renminbi Yuan

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (continued)

15. Borrowing cost (continued)

The capitalization of borrowing costs commences only when all of the following conditions are satisfied:

- (1) expenses for the asset have incurred; and
- (2) borrowing costs are being incurred; and
- (3) activities relating to the acquisition, construction or production of the asset that are necessary to prepare the asset for its intended use or sale have commenced.

Capitalization of borrowing costs ceases when the qualifying asset being acquired, constructed or produced becomes ready for its intended use or sale. Any borrowing costs subsequently incurred are recognised as an expense in the period in which they are incurred.

During the capitalization period, the amount of interest to be capitalized for each accounting period shall be determined as follows:

- (1) Where funds are borrowed for a specific purpose, the amount of interest to be capitalized is the actual interest expense incurred on that borrowing for the period less any bank interest earned from depositing the borrowed funds before being used on the asset or any investment income on the temporary investment of those funds.
- (2) Where funds are borrowed for a general purpose, the amount of interest to be capitalized on such borrowings is determined by applying a weighted average interest rate to the weighted average of the excess amounts of accumulated expenditure on the asset over and above the amounts of specific-purpose borrowings.

Capitalization of borrowing costs is suspended during periods in which the acquisition, construction or production of a qualifying asset is interrupted by activities other than those necessary to prepare the asset for its intended use or sale, when the interruption is for a continuous period of more than 3 months. Borrowing costs incurred during these periods are recognised as an expense of the current period until the acquisition, construction or production is resumed.

16. Intangible assets

An intangible asset shall be recognised only when it is probable that the economic benefits associated with the asset will flow to the enterprise and the cost of the asset can be measured reliably.

The useful life of an intangible asset is determined according to the period over which it is expected to generate economic benefits for the Group. An intangible asset is regarded as having an indefinite useful life when there is no foreseeable limit to the period over which the asset is expected to generate economic benefits for the Group.

Notes to the financial statements

For the year ended 31 December 2018
Renminbi Yuan

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (continued)

16. Intangible assets (continued)

The useful lives of the intangible assets are as follows:

	Useful life
Land use right	40-50 years
Software licenses	3-10 years
Patents, licenses and technical know-how	5-10 years
Trademark	20 years
Backlog orders and service contracts	Over the service providing periods

Land use rights that are purchased by the Group are accounted for as intangible assets. For buildings such as plants that are developed and constructed by the Group, the relevant land use rights and buildings are accounted for as intangible assets and fixed assets, respectively. Payments for the land and buildings purchased are allocated between the land use rights and the buildings; if the payments cannot be reasonably allocated, all of the land use rights and buildings are accounted for as fixed assets.

An intangible asset with a finite useful life is amortized using the straight-line method over its useful life. For an intangible asset with a finite useful life, the Group reviews the useful life and the amortization method at least at each financial year-end and makes adjustment if necessary.

An intangible asset with an indefinite useful life is tested for impairment annually, irrespective of whether there is any indication that it may be impaired. Such asset is not amortized, but its useful life is reassessed in each accounting period. If there is evidence indicating that the useful life of the intangible asset is finite, it is accounted for using the above accounting policies applicable to intangible assets with finite useful lives.

The Group classifies the expenditure on an internal research and development project into expenditure on the research phase and expenditure on the development phase. Expenditure on the research phase of an internal research and development project is recognised in profit or loss for the period in which it is incurred. Expenditure on the development phase is capitalized when the Group can demonstrate all of the following: (i) the technical feasibility of completing the intangible asset so that it will be available for use or sale; (ii) the intention to complete the intangible asset and use or sell it; (iii) how the intangible asset will generate probable future economic benefits. Among other things, the Group can demonstrate the existence of a market for the output of the intangible asset or the intangible asset itself or, if it is to be used internally, the usefulness of the intangible asset; (iv) the availability of adequate technical, financial and other resources to complete the development and the ability to use or sell the intangible asset; and (v) its ability to measure reliably the expenditure attributable to the intangible asset during its development phase. Expenditure on the development phase that does not meet the above criteria is recognised in profit or loss for the period in which it is incurred.

Notes to the financial statements

For the year ended 31 December 2018
Renminbi Yuan

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (continued)

17. Impairment of assets

The Group determines the impairment of assets of goodwill, long-term equity investment, fixed assets, construction in progress, intangible assets and assets relating to contract cost, using the following methods:

The Group assesses at the balance sheet date whether there is any indication that an asset may be impaired. If any indication exists that an asset may be impaired, the Group estimates the recoverable amount of the asset and performs test for impairment. Goodwill arising from a business combination and an intangible asset with an indefinite useful life are tested for impairment at least at each year-end, irrespective of whether there is any indication that the asset may be impaired. Intangible assets that have not been ready for intended use are tested for impairment each year.

The recoverable amount of an asset is the higher of its fair value less costs to sell and the present value of the future cash flow expected to be derived from the asset. The Group estimates the recoverable amount on an individual basis. If it is not possible to estimate the recoverable amount of the individual asset, the Group determines the recoverable amount of the asset group to which the asset belongs. Identification of an asset group is based on whether major cash inflows generated by the asset group are largely independent of the cash inflows from other assets or asset groups.

When the recoverable amount of an asset or asset group is less than its carrying amount, the carrying amount is reduced to the recoverable amount. The reduction in carrying amount is treated as impairment loss and recognised in profit or loss of the current period. A provision for impairment loss of the asset is recognised accordingly.

For the purpose of impairment testing, the carrying amount of goodwill acquired in a business combination is allocated from the acquisition date on a reasonable basis, to each of the related asset groups; if it is impossible to allocate to the related asset groups, it is allocated to each of the related sets of asset groups. Each of the related asset groups or sets of asset groups is an asset group or set of asset group that is able to benefit from the synergies of the business combination and shall not be larger than a reportable segment determined by the Group.

In testing an asset group or a set of asset groups to which goodwill has been allocated for impairment, if there is any indication of impairment, the Group firstly tests the asset group or set of asset groups excluding the amount of goodwill allocated for impairment, compares the recoverable amount with the carrying amount and recognises impairment loss if any. After that, the Group tests the asset group or set of asset groups including goodwill for impairment, the carrying amount (including the portion of the carrying amount of goodwill allocated) of the related asset group or set of asset groups is compared to its recoverable amount. If the carrying amount of the asset group or set of asset groups is higher than its recoverable amount, the amount of the impairment loss firstly reduces the carrying amount of the goodwill allocated to the asset group or set of asset groups, and then reduces the carrying amount of other assets (other than the goodwill) within the asset group or set of asset groups, pro rata on the basis of the carrying amount of each asset.

Once the above impairment loss of above except for the assets relating to contract cost is recognised, it cannot be reversed in the subsequent accounting periods.

The Group shall recognised an impairment loss to the extent that the carrying amount of an asset exceeds: (a) the remaining amount of consideration that the Group expects to receive in exchange for the goods or services to which the asset relates; less (b) the estimated costs that relate to providing those goods or services. The Group shall, after the impairment has been provided, recognised in profit or loss a reversal of some or all of an impairment loss previously recognised when the impairment conditions no longer exist or have improved. The increased carrying amount of the asset shall not exceed the carrying amount that would have been determined if no impairment loss had been recognised previously.

Notes to the financial statements

For the year ended 31 December 2018
Renminbi Yuan

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (continued)

18. Long-term deferred expenses

Long-term deferred expenses are amortized using the straight line method. Their amortization period is as follows:

	Amortization period
Improvement expenditure for rental fixed assets	Shorter period between the estimated useful life and the lease period

19. Employee benefits

Employee benefits are all forms of considerations given by an entity in exchange for services rendered by employees or for the termination of employment. Employee benefits include short-term benefits, post-employment benefits, termination benefits and other long-term employee benefits. The benefits the Group provided to employees' spouse, children, dependent, and families of deceased employees also belong to employee benefits.

19.1 Short-term benefits

The actual short-term benefits occurred during the accounting period that employees provide services are recognised as liability in the costs of the relevant assets or profit or loss of the current period.

19.2 Benefits after demission (defined contribution plan)

The employees of the Group participate in pension insurance and unemployment insurance which are managed by the local government, along with supplementary pensions, and the relevant expenditure is recognised, when incurred, in the costs of the relevant assets or profit or loss of the current period.

19.3 Termination benefits

The Group recognises a liability and expenses for termination benefits at the earlier of the following dates: a) when the Group can no longer withdraw the offer of those benefits; and b) when the Group recognises costs for a restructuring and involves the payment of termination costs.

20. Provisions

Except for contingent consideration transferred and contingent liabilities assumed in business combinations involving enterprises under common control, the Group recognises an obligation related to a contingency as a provision when all of the following conditions are satisfied:

- (1) the obligation is a present obligation of the Group;
- (2) it is probable that an outflow of economic benefits from the Group will be required to settle the obligation; and
- (3) the amount of the obligation can be measured reliably.

A provision is initially measured at the best estimate of the expenditure required to settle the related present obligation, with comprehensive consideration of factors such as the risks, uncertainty and time value of money relating to a contingency. The carrying amount of a provision is reviewed at the balance sheet date. If there is clear evidence that the carrying amount does not reflect the current best estimate, the carrying amount is adjusted to the best estimate.

A contingent liability recognised in a business combination not involving enterprise under common control is initially measured at its fair value. Subsequently, it is measured at the higher of (i) the amount that would be recognised in accordance with the general guidance for provisions above; and (ii) the amount initially recognised less, when appropriate, cumulative amortization recognised in accordance with the principle of revenue recognition.

Notes to the financial statements

For the year ended 31 December 2018
Renminbi Yuan

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (continued)

21. Revenue

The revenue of the Group is mainly generated from business types as follows:

- (1) Sales of goods and raw materials
- (2) Maintenance revenue
- (3) Construction contract revenue
- (4) Technology service revenue

The Group recognises revenue based on the transaction price allocated to such performance obligation when a performance obligation is satisfied, i.e. when “control” of the goods or services underlying the particular performance obligation is transferred to the customer. A performance obligation represents the commitment that a good and service that is distinct shall be transferred by the Group to the customer. Transaction price refers to the consideration that the Group is expected to charge due to the transfer of goods or services to the customer, but it does not include payments received on behalf of third parties and amounts that the Group expects to return to the customer.

If there are two or more of performance obligations included in the contract, at the contract inception, the Group allocates the transaction price to each single performance obligation based on the proportion of stand-alone selling price of goods or services promised in single performance obligation. However, if there is conclusive evidence indicating that the contract discount or variable consideration is only relative with one or more (not the whole) performance obligations in the contract, the Group will allocate the contract discount or variable consideration to relative one or more performance obligation. Stand-alone selling price refers to the price of single sales of goods or services. The stand-alone selling price cannot be observed directly, the Group estimates the stand-alone selling price through comprehensive consideration of all reasonably acquired relative information and maximum use of observable inputs.

It is a performance obligation satisfied during a period of time if one of the following conditions is met: (i) the customer obtains and consumes economic benefits at the same time of the Group’s performance; (ii) the customer is able to control goods in progress during the Group’s performance; (iii) goods generated during the Group’s performance have irreplaceable utilization, and the Group is entitled to collect amounts of cumulative performance part which have been done up to now. Otherwise, the Group will recognise revenue at the point in time when the customer obtains control over relative goods or services.

The Group adopts the input method to determine performance schedules, namely according to the Group’s input into the performance of contractual obligations.

Notes to the financial statements

For the year ended 31 December 2018
Renminbi Yuan

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (continued)

21. Revenue (continued)

For sales with quality assurance terms, if the quality assurance provides a separate service to the customer other than ensuring that the goods or services sold meet the established standards, the quality assurance constitutes a single performance obligation. Otherwise, the Group will account for the quality assurance responsibility in accordance with the Accounting Standard for Business Enterprises No. 13 – Contingencies.

The Group determines whether it is a principal or an agent at the time of the transaction based on whether it owns the “control” of the goods or services before the transfer of such goods or services to the customer. The Group is a principal if it controls the specified good or service before that good or service is transferred to a customer, and the revenue shall be recognised based on the total consideration received or receivable; otherwise, the Group is an agent, and the revenue shall be recognised based on the amount of commission or handling fee that is expected to be charged, and such amount is determined based on the net amount of the total consideration received or receivable after deducting the prices payable to other related parties or according to the established commission amount or proportion.

When the Group collects amounts of sold goods or services in advance from the customer, the Group will firstly recognise the amounts as a liability and then transfer to revenue until satisfying relevant performance obligations.

If the costs incurred in fulfilling a contract are not within the scope of other standard other than standards on revenue, the Group shall recognise an asset from the costs incurred to fulfill a contract only if those costs meet all of the following criteria: 1) the costs relate directly to a contract or to an anticipated contract that the Group can specifically identify; 2) the costs generate or enhance resources of the entity that will be used in satisfying performance obligations in the future; and 3) the costs are expected to be recovered.

The asset mentioned above shall be amortized on a basis that is consistent with the transfer to the customer of the goods or services to which the asset relates and recognised in profit or loss for the period.

Contract asset refers to the Group’s right to consideration in exchange for goods or services that the Group has transferred to a customer when that right is conditioned on something other than the passage of time. Accounting policies relating to contract asset are specified in Note III. 9. The Group’s unconditional (i.e., depending on the passage of time only) right to receive consideration from the customer is separately presented as receivables.

Contract liabilities refer to the Group’s obligation to transfer goods or services to a customer for which the Group has received consideration from the customer.

Contract assets and contract liabilities under the same contract are presented at net amount.

Notes to the financial statements

For the year ended 31 December 2018
Renminbi Yuan

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (continued)

22. Government grants

Government grant is recognised when the Group can comply with the conditions attached to it and it can be received. If a government grant is in the form of a transfer of a monetary asset, it is measured at the amount received or receivable. If a government grant is in the form of a transfer of a non-monetary asset, it is measured at fair value; if fair value is not reliably determinable, it is measured at a nominal amount.

Pursuant to government documents, if the government grant is a compensation for constructing or forming long-term assets, the government grant is recognised as government grants related to assets. When government documents are not stated clearly, the fundamental conditions attached to the grant should be the criterion for judgments. If the fundamental conditions attached to the grant are for constructing or forming long-term assets, the government grant is recognised as government grants related to assets, otherwise, the government grant is recognised as government grants related to income.

A government grant related to income is accounted as follows: (a) if the grant is a compensation for related costs or losses to be incurred in subsequent periods, the grant is recognised as deferred income, and recognised in profit or loss over the periods in which the related costs are recognised; (b) if the grant is a compensation for related expenses or losses already incurred, it is recognised immediately in profit or loss of the current period. The Group classifies government grants that are difficult to be distinguished as government grants related to income aggregately.

A government grant related to an asset shall be recognised as deferred income and included in profit or loss over the useful life of the related asset with a reasonable and systemic method. (However, a government grant measured at a nominal amount is recognised immediately in profit or loss in the current period.) Where the relevant asset is sold, transferred, scrapped or damaged prior to the end of its useful life, the related undistributed deferred income is transferred to the profit or loss of the disposal period.

A government grant related to the Group's daily activities is recognised in other income/written off related cost and expense based on the nature of economic activities; a government grant is not related to the Group's daily activities is recognised in non-operating income and expenses.

23. Income tax

Income tax comprises current and deferred tax. Income tax is recognised as income or expense in profit or loss of the current period, or recognised directly in other comprehensive income or shareholders' equity if it arises adjustments for goodwill from a business combination or relates to a transaction or event which is recognised directly in other comprehensive income or shareholders' equity.

The Group measures a current tax asset or liability arising from the current and prior periods based on the amount of income tax expected to be paid by the Group or returned by the tax authority calculated according to related tax laws.

For temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts, and temporary differences between the carrying amounts and the tax bases of items, the tax bases of which can be determined for tax purposes, but which have not been recognised as assets and liabilities, deferred taxes are provided using the liability method.

Notes to the financial statements

For the year ended 31 December 2018
Renminbi Yuan

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (continued)

23. Income tax (continued)

A deferred tax liability is recognised for all taxable temporary differences, except:

- (1) where the taxable temporary differences is not arisen from the transaction which is not a business combination; and at the time of the transaction, it affects neither accounting profit nor taxable profit or deductible loss.
- (2) in respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in Joint Ventures, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not be reversed in the foreseeable future.

A deferred tax asset is recognised for deductible temporary differences, carry forward of unused deductible tax losses and tax credits, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carryforward of deductible tax losses and tax credits can be utilized, except:

- (1) where the deferred tax asset arises from a transaction that is not a business combination and, at the time of the transaction, neither the accounting profit nor taxable profit or deductible loss is affected.
- (2) where the deductible temporary differences associated with investments in subsidiaries, associates and interests in Joint Ventures meet the conditions that: it is probable that the temporary differences will be reversed in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized in the future.

At the balance sheet date, deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, according to the requirements of tax laws. The measurement of deferred tax assets and deferred tax liabilities reflects the tax consequences that would follow from the manner in which the Group expects at the balance sheet date, to recover the assets or settle the liabilities.

The carrying amount of deferred tax assets is reviewed at the balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available in future periods to allow the deferred tax assets to be utilized. Unrecognised deferred tax assets are reassessed at the balance sheet date and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax assets and deferred tax liabilities are offset if the Group has a legally enforceable right to set off current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realize the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

Notes to the financial statements

For the year ended 31 December 2018
Renminbi Yuan

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (continued)

24. Leases

A finance lease is a lease that transfers in substance all the risks and rewards incidental to ownership of an asset. An operating lease is a lease other than a finance lease.

24.1 In the case of the lessee of an operating lease

Lease payments under an operating lease are recognised by a lessee on the straight-line basis over the lease term, and either included in the cost of the related asset or charged to profit or loss of the current period. Contingent rents are charged to profit or loss in the period in which they actually arise.

24.2 In the case of the lessor of an operating lease

Rent income under an operating lease is recognised by a lessor on the straight-line basis over the lease term, through profit or loss. Contingent rents are charged to profit or loss in the period in which they actually arise.

25. Production safety expenses

Production safety expenses accrued according to the rules shall be recorded in the costs of related products or profit or loss for the current period, and "Special reserve". When used to distinguish whether it will generate fixed assets for processing, respectively: if belongs to disbursement costs, directly offset against special reserve; if generates fixed assets, summarise the expenditure occurred, and recognised as fixed assets until the asset is ready for its intended use. Meanwhile, offsetting against the special reserve and the accumulated depreciation shall be recognised equivalent at the same time.

26. Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Group measures its assets or liabilities at fair value at the end of each reporting period. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group at the measurement date. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole: Level 1 – based on quoted prices (unadjusted) in active markets for identical assets or liabilities; Level 2 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly; Level 3 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

Notes to the financial statements

For the year ended 31 December 2018
Renminbi Yuan

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (continued)

26. Fair value measurement (continued)

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorization at every balance sheet date.

27. Critical judgement in applying accounting policies and key assumptions and uncertainties in accounting estimates

As operating activities have inherent uncertainties, the Group need to make judgments, estimates and assumptions upon report items that cannot be accurately calculated in applying the above accounting policies set out in Note III. These judgments, estimates and assumptions are made based on historical experiences of the management of the Group, taking other related factors into consideration. The actual results may be different from the estimates of the Group.

The Group reviews the above judgments, estimates and assumptions periodically based on going concern. If the changes of accounting estimates only affect the current period, the influence amount is recognised in the current period. If the changes of accounting estimates affect both of the current year and the future period, the influence amount is recognised in the current period and the future period.

Critical judgements in applying accounting policies

In the process of applying the Group's accounting policies, management has made the following judgements which have the most significant effect on the amounts recognised in the financial statements:

Consolidation of entities in which the Group holds less than a majority of voting rights

The Group considers that it controls Qingdao CRRC Electric Equipment Co., Ltd. ("Qingdao Electric") even though it owns less than 50% of the voting rights. This is because the Group is the single largest shareholder of Qingdao Electric with a 45% equity interest. Pursuant to articles of Qingdao Electric, for resolutions of the shareholders' meeting affecting relative operating activities of Qingdao Electric, CRRC Qingdao Sifang Co., Ltd., a related party of the Company, which owns Qingdao Electric 38% equity interest, commits to comply with the Company in the exercise of the proposal rights and voting rights. The Company recommends four of the seven directors in Board of Qingdao Electric and the resolutions of Board are deemed as valid when more than half of all directors approve.

The key assumptions and uncertainties used in accounting estimates

The key assumptions and uncertainties, which may lead to significant adjustment to carrying amount of assets and liabilities in the future on balance sheet date, are set out as follows:

27.1 Provision for expected credit losses of contract assets

The group recognises impairment provision for financial instruments measured at amortized cost, financial instruments at fair value through other comprehensive income and contract assets based on expected credit losses. The Group divides the above items into different portfolios based on the common risk characteristics, and employs impairment matrix on the basis of portfolios to determine the credit loss of related items. If there is an evidence proving that the value trade receivables or contract assets has been recovered, and the recovery is related to the matter subsequent to the determination of the loss objectively, the impairment loss originally recognised shall be reversed. As at 31 December 2018, the Group has reevaluated the historically observable overdue ratio and considered the changes in forward-looking information to calculate the expected credit losses through default risk exposures and lifetime expected credit losses.

Notes to the financial statements

For the year ended 31 December 2018
Renminbi Yuan

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (continued)

27. Critical judgement in applying accounting policies and key assumptions and uncertainties in accounting estimates (continued)

The key assumptions and uncertainties used in accounting estimates (continued)

27.2 Provision for impairment of inventories

According to the accounting policy for inventories, the Group adopts the lower of cost and net realizable value to measure inventories, and recognises provision for impairment of inventories on the condition that the cost of them is higher than the net realizable value or they are slow-moving or obsolete. At the end of each year, the Group will review whether a single inventory is an obsolete and slow-moving item and whether the net realizable value is lower than its cost. The differences (if any) between the re-estimated value and the current estimate will impact the carrying amount of the inventory in the period in which the estimate is changed.

27.3 Impairment of goodwill

The Group determines whether goodwill is impaired at least on an annual basis. This requires a calculation of the present value of the future expected cash flows from the asset groups or sets of asset groups in which the goodwill is included and an estimate of the expected future cash flow from the asset groups or sets of asset groups, and also chooses a suitable discount rate which reflects the time value of currency and particular risk of assets in the present market.

27.4 Impairment of non-financial assets (other than goodwill)

The Group assesses whether there are any indicators of impairment for all non-financial assets at the balance sheet date. Intangible assets with indefinite useful lives are tested for impairment annually and at other times when such indicator exists. Other non-financial assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable. Where the carrying amount of an asset or asset group is higher than its recoverable amount (i.e., the higher of its fair value less costs to sell and the present value of the future cash flows expected to be derived from it), it is indicated that such asset or asset group is impaired. The fair value less costs to sell is determined with reference to the price in the relevant sales agreement or an observable market price in an arm's length transaction, adjusted for incremental costs that would be directly attributable to the disposal of the asset or asset group. When calculating the present value of expected future cash flows from an asset or asset group, management shall estimate the expected future cash flows from the asset or asset group and choose a suitable discount rate.

27.5 Deferred tax assets

Deferred tax assets are recognised for all unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilized. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, such as the expected actual profitability condition of the enterprise running under deficit and the actual tax rate in the expected reversed years based upon the likely timing and level of future taxable profit together with future tax planning strategies.

27.6 Provision for warranties

The Group makes product warranty provision for the sales of some products. Management estimates future maintenance expense based on the historical maintenance experience of products and translates it into the present value by selecting an appropriate discount rate to recognise provision for warranties.

Notes to the financial statements

For the year ended 31 December 2018
Renminbi Yuan

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (continued)

28. Changes in significant accounting policies

28.1 Standards for Revenue

The Group has adopted "Accounting Standards for Business Enterprises No.14 – Revenue" ("new standards for revenue") revised by the MOF in 2017 since 1 January 2018. The pre-revision standards referred to as ("original standards for revenue"). The new standards for revenue have introduced the 5-step method for recognition and measurement of revenue and added more instructions on specific transactions (or events). See Note III.21 for the accounting policies for recognition and measurement of revenue. The new standards for revenue require the entity to adjust the retained earnings at the beginning of initial adoption (i.e. 1 January 2018) of the new standards for the cumulative affected figures and amounts of other relative items in the financial statements, and not to adjust information in comparable period. At the adoption of new standards for revenue, the Group solely adjusts the cumulative affected figures in contract not yet been completed at the initial adoption date of the new revenue standard at the beginning of the year. For changes in contract incurred before the beginning of adoption of new standards for revenue, the Group will make simplified treatment, namely, the Group will identify the fulfilled and unfulfilled performance obligations, determine transaction price and allocate the transaction price between the fulfilled and unfulfilled performance obligations according to the final arrangement of contract changes.

(1) Besides provision of more widen disclosures of revenue transactions, impacts from the adoption of new standards for revenue on relevant items of statement of financial position at the beginning of the current year are as follows:

Items	31 December 2017	Reclassification	Remeasurement	1 January 2018
Current assets:				
Trade receivables	6,248,888,609	(133,785,053)	–	6,115,103,556
Contract assets	N/A	250,274,369	–	250,274,369
Inventories	3,498,039,948	(116,489,316)		3,381,550,632
Non-current liabilities:				
Long-term receivables	68,963,685	(68,963,685)	–	–
Other non-current assets	90,507,247	68,963,685		159,470,932
Current liabilities:				
Advances from customers	856,636,427	(856,636,427)	–	–
Contract liabilities	N/A	856,636,427	–	856,636,427

Notes to the financial statements

For the year ended 31 December 2018
Renminbi Yuan

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (continued)

28. Changes in significant accounting policies (continued)

28.1 Standards for Revenue (continued)

(2) Impacts from the adoption of the new standard for revenue on the relevant Items of the current financial statements are as follows:

Balance sheet

Items	Effected amount
Current assets:	
Trade receivables	(173,637,167)
Contract assets	173,637,167
Non-current liabilities:	
Long-term receivables	(24,088,224)
Other non-current assets	24,088,224
Contract liabilities:	
Contract liabilities	649,337,643
Advances from customers	(649,337,643)

28.2 Standards for Financial Instruments

From 1 January 2018, the Group implemented the Accounting Standard for Business Enterprises No. 22 – Financial Instrument: Recognition and Measurement, Accounting Standard for Business Enterprises No. 23 – Transfer of Financial Assets, Accounting Standard for Business Enterprises No. 24 – Hedging Accounting and Accounting Standard for Business Enterprises No. 37 – Financial Instrument: Presentation (hereinafter referred to as “new standards for financial instrument”, and the standards for financial instrument before modification are referred to as “original standards for financial instrument” modified by the MoF.

For classification and measurement of financial assets, the new standards for financial instrument require that the financial assets should be classified into three categories: “financial assets measured at amortized cost”, “financial assets at fair value through other comprehensive income (“FVTOCI”)” and “financial assets at fair value through profit or loss (“FVTPL”)” based on characteristics of contractual cash flows and business models for the enterprise to manage these assets. The original categories including loans and receivables, held-to-maturity investments and available-for-sale financial assets have been cancelled. Investments in equity instrument are generally categorized into financial assets at FVTPL. The enterprise is also allowed to designate the non-tradable equity instruments as financial assets at FVTOCI, but such designation is non-cancellable, and the cumulative amounts of changes in fair value previously recognised in other comprehensive income shall not be carried forward in profit or loss for the period at disposal of the financial assets.

For impairment of financial assets, the new standards for financial instrument on impairment are applicable to financial assets measured at amortized cost and at FVTOCI, lease receivables, contract assets, etc. The new standards for financial instrument require adoption of expected credit losses model to replace the original credit-impaired model. The new impairment model requires adoption of three-phase model, where credit loss allowance is made based on expected credit losses within 12 months or during the whole life according to whether the credit risks of relevant items have been significantly increased since initial recognition. If the trade receivables, contract assets and lease receivables have simplified method, it is allowed to recognise impairment allowance for the expected credit losses during the whole life.

Notes to the financial statements

For the year ended 31 December 2018
Renminbi Yuan

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (continued)

28. Changes in significant accounting policies (continued)

28.2 Standards for Financial Instruments (continued)

If the recognition and measurement of financial instrument before 1 January 2018 is inconsistent with the new standards for financial instrument, the Group will make connection and adjustment as required by the new standards. In case of inconsistency between the comparative figures in financial statements in prior period and requirements of the new standards, the Group will not make adjustment. The shortfall between the original carrying amount of the financial instrument and the new carrying amount at the adoption date of the new standards shall be recognised in retained earnings or other comprehensive income at 1 January 2018. Effects on adoption of new standards for financial instrument at 1 January 2018 are as follows:

Summary of impacts from initial implementation of new standards for financial instrument since 1 January 2018

Items	Carrying amount under previous standards 31 December 2017	Total impacts from adoption of new standards for revenue	Impacts from new standards for financial instruments				Carrying amount under new standards for financial instruments 1 January 2018

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (continued)

28. Changes in significant accounting policies (continued)

28.2 Standards for Financial Instruments (continued)

Summary of impacts from initial implementation of new standards for financial instrument since 1 January 2018 (continued)

Note 1: Transfer from financial assets previously classified as loans and receivables

In managing the liquidity, the Group discounts or endorses part of the bills receivable and trade receivables before their maturity, and derecognises the discounted or endorsed bills receivable and trade receivables if the Group has transferred substantially all the risks and rewards to relevant counterparty. The Group manages such bills receivable and trade receivables using the business model of which the objective is to receive the contractual cash flow but also to sell such financial assets. At 1 January 2018, bills receivable and trade receivables amounting to RMB794,097,847 and RMB122,619,716 respectively are reclassified at fair value through other comprehensive income and included in other current assets. The previous measurement of bills receivable and trade receivables at amortized cost was changed to fair value measurement, resulting in decrease of RMB15,904,000 in the carrying amount of other current assets, decrease of RMB13,384,000 in other comprehensive income, increase of RMB2,387,000 in deferred tax assets and decrease of RMB133,000 in non-controlling interest.

Note 2: Transfer from financial assets previously classified as available for sale

Transfer from Available-for-sale financial assets to other equity instruments investment

As at 1 January 2018, available-for-sale financial asset of RMB900,000, which is non-trading equity instrument investment, was reclassified to financial assets designated at fair value through other comprehensive income and included in other equity instrument investment. Such available-for-sale financial asset is equity instruments investment that is not quoted in active market and of which the fair value can't be measured reliably, and was measured at cost in prior period according to previous standards and reclassified to other equity instrument investments under the new standards. Measuring such equity investment at fair value at 1 January 2018 has no significant impact on the carrying amount of the other equity instrument.

Note 3: Transfer from financial assets previously classified as at fair value through profit or loss

As at 1 January 2018, other current assets of RMB1,350,000,000 represent guaranteed floating income financial products which used to be classified as financial assets at fair value through profit or loss in prior period according to the previous financial instrument standards, and are reclassified as financial assets at fair value through profit or loss to held-for-trading financial assets under the new financial instrument standards.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (continued)

28. Changes in significant accounting policies (continued)

28.3 Presentation of financial statements

The Group started adopting the Notice of the Revised Format of 2018 Financial Statements for General Business Enterprise (Cai Kuai (2018) No. 15, hereinafter referred to as the "Cai Kuai No.15 Document") released by the MoF on 15 June 2018 since the preparation of financial statements for the year of 2018. Cai Kuai No.15 Document revised the presenting accounts in the Statement of financial position and Statement of profit or loss, added line items of "Bills Receivable and Trade Receivables", "Bills Payable and Trade Payables" and "Research and Development Expenses", revised the presenting contents of the line items of "Other Receivables", "Fixed Assets", "Construction in Progress", "Other Payables", "Long-term Payables" and "Administrative Expenses", removed part of the line items, added line items of "Including: Interest Expenses" and "Interest Income" under "Finance Costs", and adjusted the presenting location of some accounts in the income statement. For the changes of the above items, the Company has adjusted comparable data for the prior year.

Notes to the financial statements

For the year ended 31 December 2018
Renminbi Yuan

IV. TAXATION

1. Major categories of taxes and respective tax rates

The corporate income tax of the Company and the subsidiaries incorporated in the PRC is levied at 25% of taxable profit. The subsidiaries incorporated out of the PRC shall pay the enterprise income tax in accordance with their local tax laws.

Other major categories of taxes and respective tax rates of the Company and its PRC subsidiaries in the current year are set out below:

Value-added tax ("VAT", Note)	–	Output VAT is calculated by applying applicable rate to the taxable sales, less deductible input VAT of the current period.
City maintenance and construction surtax	–	It is levied at 7% on the turnover taxes paid

Note: According to Cai Shui [2018] No.32, since 1 May 2018, the VAT rate for sales or import of goods is adjusted from 17% to 16%.

2. Tax benefits and official approval

The Group's tax benefits and official approval are as follows:

Pursuant to the provisions of Article 28 of the Corporate Income Tax Law of the People's Republic of China, high-tech enterprises that require government support are subject to corporate income tax at the rate of 15%. The Company and its subsidiaries, including Zhuzhou Times Electronics Technology Co., Ltd. ("Times Electronics"), Ningbo CRRC Times Sensor Technology Co., Ltd. ("Ningbo Times"), Zhuzhou National Engineering Research Center of Converters Co., Ltd. ("ZNERCC"), Hunan CRRC Times Signal Communication Co., Ltd. ("Times Signal & Communication"), Shenyang CRRC Times Transportation Equipment Co., Ltd. ("Shenyang Times"), and Qingdao CRRC Electric Equipment Co., Ltd. ("Qingdao Electric") were accredited as high-tech enterprises, in which the Company, Times Electronics, Ningbo Times, ZNERCC and Times Signal & Communication held the qualification valid for 3 years (from 2017 to 2019), and Shenyang Times and Qingdao Electric held the qualification valid for 3 years (from 2016 to 2018). The Company and the above subsidiaries are subject to income tax at the rate of 15% (2017: 15%) in 2018.

Pursuant to "The Notice Regarding the Tax Policies of the Strategy of Further Development of Western Region Issued by Ministry of Finance, General Administration of Customs and State Administration of Taxation" (《財政部、海關總署、國家稅務總局關於深入實施西部大開發戰略有關稅收政策問題的通知》), the subsidiaries of the Company, including Baoji CRRC Times Engineering Machinery Co., Ltd. ("Baoji Times") enjoyed the preferential tax at the rate of 15% and held the qualification valid for 3 years (from 2017 to 2019).

Pursuant to "The Notice Regarding the Tax Policies of the Encouragement Policy of Further Development of Software Industry and Integrate Circuit Industry Issued by Ministry of Finance and State Administration of Taxation" (《財政部、國家稅務總局關於進一步鼓勵軟件產業和集成電路產業發展企業所得稅政策的通知》), CRRC Times Electric Software Technology Co., Ltd. ("Times Software") enjoyed the preferential tax policy of "Two years exemptions and three years halve" ("兩免三減半") since year 2015.

Notes to the financial statements

For the year ended 31 December 2018
Renminbi Yuan

V. NOTES TO ITEMS IN THE CONSOLIDATED FINANCIAL STATEMENTS

1. Cash and bank balances

	31 December 2018	31 December 2017
Cash	61,065	31,278
Cash in bank	4,380,951,733	3,639,081,061
Other cash and bank balances	<u>13,366,352</u>	<u>168,758,307</u>
	<u>4,394,379,150</u>	<u>3,807,870,646</u>

As at 31 December 2018, the cash and bank balances of RMB13,366,352 (31 December 2017: RMB71,086,352) of the Group are restricted as security deposits for issuance of bank letters of guarantee.

As at 31 December 2018, the Group has no cash and bank balances as security deposits for issuance of bank acceptance bills (31 December 2017: RMB97,671,955).

As at 31 December 2018, the cash and bank balances deposited overseas by the Group were equivalent to RMB148,472,651 (31 December 2017: equivalent to RMB154,503,088).

Interest income earned on current deposits is calculated by using the current deposit interest rate. The deposit periods for short-term deposits vary from 1 day to 3 months depending on the cash requirements of the Group and earn interest at the respective deposit rates.

2. Held-for-trading financial assets

	31 December 2018
Bank financial products	1,203,855,068
Structural deposits	<u>400,000,000</u>
	<u>1,603,855,068</u>

As at 31 December 2018, the bank financial products and structural deposits held by the Group are with expected yield rates from 2.20% to 4.30% per annum.

Notes to the financial statements

For the year ended 31 December 2018
Renminbi Yuan

V. NOTES TO ITEMS IN THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

3. Bills receivable and trade receivables

	31 December 2018	31 December 2017
Bills receivable	3,508,440,870	4,985,366,054
Trade receivables	<u>6,485,964,593</u>	<u>6,248,888,609</u>
	<u>9,994,405,463</u>	<u>11,234,254,663</u>

(1) Bills receivable

	31 December 2018	31 December 2017
Commercial acceptance bills	3,084,493,236	3,735,058,967
Bank acceptance bills	<u>485,616,749</u>	<u>1,250,307,087</u>
	3,570,109,985	4,985,366,054
Less: provision for credit loss	<u>61,669,115</u>	<u>–</u>
	<u>3,508,440,870</u>	<u>4,985,366,054</u>

The credit risks of commercial acceptance bills and bank acceptance bills held by the Group have not been significantly increased since initial recognition. The Group has measured the provision for impairment losses based on 12-month expected credit losses of the financial instrument.

Provision for credit loss of bills receivable:

	Opening balance	Provision	Closing balance
12-month expected credit losses	<u>–</u>	<u>61,669,115</u>	<u>61,669,115</u>

Notes to the financial statements

3. Bills receivable and trade receivables (continued)

(1) Bills receivable (continued)

Five highest bills receivable are listed as follows:

	31 December 2018
CRRC Zhuzhou Locomotive Co., Ltd.	1,249,690,890
Non-related party	813,400,000
CRRC Qingdao Sifang Co., Ltd.	206,780,000
Non-related party	192,080,000
Guangzhou Locomotive Co., Ltd.	161,700,000
	<u>2,623,650,890</u>
	<u>2,623,650,890</u>
	31 December 2017
CRRC Zhuzhou Locomotive Co., Ltd.	1,428,158,866
Non-related party	1,174,884,184
Guangzhou Locomotive Co., Ltd.	469,508,548
CRRC Qingdao Sifang Co., Ltd.	186,744,000
Non-related party	169,639,710
	<u>3,428,935,308</u>
	<u>3,428,935,308</u>

(2) Trade receivables

The credit period of trade receivables is usually 6 months. The trade receivables bear no interest.

The aging analysis of trade receivables is as follows:

	31 December 2018	31 December 2017
Within 6 months	5,769,340,250	5,323,934,152
6 months to 1 year	530,702,851	514,990,495
1 to 2 years	207,491,912	493,010,877
2 to 3 years	91,220,576	171,936,623
Over 3 years	155,047,044	141,904,798
	<u>6,753,802,633</u>	<u>6,645,776,945</u>
Less: Provision for credit loss/bad debt provision	267,838,040	327,924,651
	<u>6,485,964,593</u>	<u>6,317,852,294</u>
Less: Classified as long-term receivables	-	68,963,685
	<u>6,485,964,593</u>	<u>6,248,888,609</u>
	<u>6,485,964,593</u>	<u>6,248,888,609</u>

V. NOTES TO ITEMS IN THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

3. Bills receivable and trade receivables (continued)

(2) Trade receivables (continued)

As a part of the Group's credit risk management, the Group evaluates the expected credit losses ("ECL") of trade receivables generated from the following four categories of customers by aging. The four categories of customers are involving a large quantity customers with the same risk characteristics respectively. Aging information can indicate repayment ability of the four categories of customers when trade receivables falls due.

As at 31 December 2018, the credit risk and ECL of the trade receivables of the four categories of customers are as follows:

	Expected average loss rate %	Gross carrying amount	Impairment provision	Carrying amount
Category I				
Credit losses has not occurred	0.82	2,191,142,580	17,893,572	2,173,249,008
Credit-impaired	4.08	116,884,894	4,772,931	112,111,963
Category II				
Credit losses has not occurred	0.84	1,895,148,841	15,905,439	1,879,243,402
Credit-impaired	15.37	37,478,405	5,758,861	31,719,544
Category III				
Credit losses has not occurred	0.63	1,602,209,952	10,171,656	1,592,038,296
Credit-impaired	10.15	10,095,604	1,025,109	9,070,495
Category IV				
Credit losses has not occurred	5.14	611,541,728	31,420,409	580,121,319
Credit-impaired	62.53	289,300,629	180,890,063	108,410,566
		<u>6,753,802,633</u>	<u>267,838,040</u>	<u>6,485,964,593</u>

Provision for credit loss/bad debt provision of trade receivables are as follows:

	Lifetime expected credit losses (credit losses has not occurred)	Lifetime expected credit losses (credit losses occured)	2018 Total
1 January 2018	80,308,610	247,616,041	327,924,651
Transferred-in of credit-impaired losses	(5,262,144)	5,262,144	-
Provision (Reversal)	311,099	(54,470,940)	(54,159,841)
Write-off	-	(5,960,281)	(5,960,281)
Exchange realignment	33,511	-	33,511

7. Contract assets

(1) Details of contract assets

	31 December 2018		
	Gross carrying amount	Impairment provision	Carrying amount
Quality guarantee deposits	222,360,099	5,173,409	217,186,690
Less: Contract assets included in other non-current assets	24,937,877	849,653	24,088,224
	<u>197,422,222</u>	<u>4,323,756</u>	<u>193,098,466</u>

(2) Provision for credit losses of contract assets

	31 December 2018		
	Opening balance	Impairment provision	Closing balance
Lifetime expected credit losses (credit losses has not occurred)	–	5,173,409	5,173,409

As a part of the Group's credit risk management, the Group evaluates the expected credit losses ("ECL") of contract assets generated from the following four categories of customers by aging. The four categories of customers are involving a large quantity customers with the same risk characteristics respectively. Aging information can indicate repayment ability of the four categories of customers when contract assets falls due.

As at 31 December 2018, the credit risk and ECL of the contract assets of the four categories of customers are as follows:

	Expected average loss rate %	Gross carrying amount	Impairment provision	Carrying amount
Category I Credit losses has not occurred	0.82	77,116,272	628,498	76,487,774
Category II Credit losses has not occurred	0.84	26,290,445	219,525	26,070,920
Category III Credit losses has not occurred	0.63	39,531,486	247,072	39,284,414
Category IV Credit losses has not occurred	5.14	79,421,896	4,078,314	75,343,582
		<u>222,360,099</u>	<u>5,173,409</u>	<u>217,186,690</u>

Notes to the financial statements

V. NOTES TO ITEMS IN THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

10. Fixed assets (continued)

Fixed assets held under operating lease are as follows:

	31 December 2018	31 December 2017
Buildings	42,645,749	53,688,021

As at 31 December 2018 and 31 December 2017, the Group had no fixed assets pledged to obtain bank borrowings. As at 31 December 2018, the carrying amount of fixed assets does not include title certificates that have not been obtained. (31 December 2017: RMB7,753,051)

11. Construction in progress

	31 December 2018	31 December 2017
Semiconductor key lab construction project	144,742,066	131,826,777
Innovation experiment platform construction project	29,894,316	-
The revamping and expansion of high voltage IGBT chip module production line	16,625,106	451,165
HCMT test bench	11,427,371	-
Development of electrical drive system for passenger cars and tester of industrialized power drive	10,062,925	-
Laboratory Relocation and Expansion Project	9,961,349	7,157,711
Changsha laboratory of CSL3 Signal system-engineering verification system	7,070,696	-
Changsha laboratory of CSL4 Signal system-engineering verification system	5,146,569	-
Data centre computer room	4,821,690	-
Germany laboratory of CSL3 Signal system-engineering verification system	4,401,030	-
High temperature ion implantation equipment	-	13,404,421
PECVDS equipment	-	13,241,298
Low pressure chemical vapor deposition	-	7,105,167
Renovation of logistics warehouse for passenger cars electrical drive system	-	6,947,364
Power cycle tester of press pack IGBT	-	6,376,617
Auto silver sintering equipment	-	5,218,349
ICP etching machine	-	4,954,139
Power curve tracer and semi-automatic probe station	-	3,004,741
Others	30,928,563	37,035,688

Statutory surplus reserve	<u>1,416,051,748</u>	<u>182,158,445</u>	<u>1,598,210,193</u>

Note 1: The Company merged Zhuzhou CRRC Times Equipment Technology Co., Ltd. ("Times Equipment"), a wholly-owned subsidiary, therefore, the charged surplus reserve of Times Equipment among the retained earnings was transferred to the Company's surplus reserve. Refer to VI. 1 for details.

Note 2: Because of loss of control due to the capital increase by minority shareholders, the Group accounted its investment in Wenzhou Electric under equity method and adjusted the Group's surplus reserve and retained earnings. Refer to VI. 2 for details.

Note 3: According to the Company Law and the Company's articles of association, the Company is required to transfer 10% of its net profit to the statutory surplus reserve. After statutory surplus reserve is accrued, discretionary surplus reserve can be accrued accordingly, which can be used to make up for the annual losses of previous years or increase equity in accordance upon approval.

Lease income	13,272,962	14,121,997
Other operating income	12,654,327	17,917,827
	<u>15,657,900,734</u>	<u>15,143,709,348</u>

(3) Significant performance obligations:

Sales of goods and materials

The Group principally engages in sales of on-board electric system and components. The Group recognises revenue at the timing that the customer obtains control over the goods. The Group mainly adopts land transportation and recognises revenue upon receipts and approval of the goods as qualified by the customer.

Prepayments received by the customer before delivery of electric equipment and goods are recognised as contract liabilities in the consolidated financial statements. The sales course of electric equipment has no significant financing component and right of return existed.

Maintenance income

The Group's repair and maintenance business is to repair and maintain on-board electric system and components. The Group recognises revenue using input method based on performance progress during performance obligation of repair and maintenance.

Revenue from construction contract

The Group's revenue from construction contract mainly arises from production of marine engineering products such as deep-water robot. The Group adopts marine transportation and recognises revenue upon receipts and approval of the goods as qualified by the customer.

Prepayments received by the customer before delivery of marine engineering products are recognised as contract liabilities in the consolidated financial statements. The sales course of marine engineering products has no significant financing component and right of return existed.

VI. CHANGES IN SCOPE OF CONSOLIDATION

1. The cancellation of subsidiaries

In May 2018, the Company merged Times Equipment, a wholly-owned subsidiary of the Company, The related industrial and commercial registration is finished on 15 May 2018.

2. Loss control of a subsidiary

The Group originally held an equity of 51% of Wenzhou Electric and have control over it. In May 2018, as approved by the interim general meeting of shareholders of Wenzhou Electric, Wenzhou Electric, a subsidiary originally included in the Group's consolidation scope, completed capital increase, the original minority shareholders added investments by means of cash and re-elects the board of directors. The Company has no longer control over Wenzhou Electric. According to the new Joint Ventures agreement, Wenzhou Electric has become the Company's Joint Ventures and subsequently accounted under equity method. The change of industrial and commercial registration was completed on 24 May 2018. Since then, the Group will no longer include Wenzhou Electric in the consolidation scope. At the date of loss of control right over Wenzhou Electric, the balance of cash and cash equivalents is RMB30,699,682, the fair value of residual stock right is RMB15,783,118, which is subsequently accounted under equity method.

3. New subsidiaries

In December 2018, the subsidiary company Baoji CRRC Times Engineering Machinery Co., Ltd. ("Baoji Times") and CRRC Times Taiyuan Locomotive and Rolling Stock Co., Ltd. jointly established the subsidiary Taiyuan Zhongche Time Track Construction Machinery Co., Ltd. ("Taiyuan Times") with a registered capital of RMB50 million. As the Group owns 55% of its shares and holds more than half of the voting seats on the board of directors, the Group has control over the Taiyuan era.

4. Business combination involving enterprises under common control

In August 2007, the Company obtained 68% of the equity of Shanghai CNR Yongdian Electronic Technology Co., Ltd. ("Shanghai Yongdian") by cash of RMB10,356,300. Shanghai Yongdian is the shareholding subsidiary of CRRC Jinzheng Investment Co., Ltd., a wholly-owned subsidiary of the Company's ultimate holding party CRRC Group Co., Ltd. Since both parties are under the non-temporary control of the same ultimate holding party prior and subsequent to the combination, such combination is the business combination involving enterprises under common control. According to the equity transfer agreement, the delivery of 68% shares transferred to the Company by CRRC Jinzheng Investment Co., Ltd. was completed on 2 August 2017. Upon that time, the Company has completed the business combination involving enterprises under common control against Shanghai Yongdian and the combination date is 2 August 2017. Meanwhile, at the combination date, the Company acquired 32% of the equity of Shanghai Yongdian from minority shareholders at a consideration of RMB4,873,500. Upon the completion of the transactions aforesaid, the Company holds 100% equity in Shanghai Yongdian.

	<u>17,637,544,852</u>	<u>900,000</u>	<u>17,638,444,852</u>

Financial liabilities

	Other financial liabilities
Short-term borrowings	202,427,360
Trade payables and Bills payable	5,454,698,714
Other payables	556,316,992
Long-term borrowings (including long-term borrowings due within one year)	102,006,235
Long-term payables	119,375,682
	<u>6,434,824,983</u>

Transferred financial assets that are not derecognised in their entirety

As at 31 December 2018, the Group endorsed specific bank acceptance bills or commercial acceptance bills with a carrying amount of RMB128,819,890 (31 December 2017: RMB197,323,488) to certain of its suppliers in order to settle the trade payables. In the opinion of the directors, the Group has retained the substantial risks and rewards, which include default risks relating to such bills receivable. Accordingly, it continued to recognise the full carrying amounts of the settled trade payables.

Notes to the financial statements

For the year ended 31 December 2018
Renminbi Yuan

VIII. RISKS RELATED TO FINANCIAL INSTRUMENTS (continued)

1. Classification of financial instruments (continued)

Transferred financial assets that are derecognised in their entirety with continuing involvement

As at 31 December 2018, the Group endorsed specific bank acceptance bills with a carrying amount of RMB237,129,183 (31 December 2017: RMB348,296,635) to certain of its suppliers in order to settle the trade payables. At 31 December 2018, the specific acceptance bills had a maturity of one to eleven months. In accordance with the Bill Law of the People's Republic of China, the holders of the specific bank acceptance bills have a right of recourse against the Group if the PRC banks default. The management is of the opinion that the Group has transferred substantially all risks and rewards, therefore, the specific bank acceptance bills were derecognized. In 2018, the Group has not recognised any gain or loss on the date of transfer of the specific bank acceptance bills. The endorsement has been made evenly throughout the year.

2. Financial instruments and their risks

The Group's principal financial instruments, other than derivative instruments, comprise cash and bank balances, held-for-trading financial assets, bills receivable and trade receivables, other receivables, contract assets and other current assets, bills payable and trade payables, other payables, borrowings and long-term payables and etc.. The main purpose of these financial instruments is to raise finance for the Group's operations. The Group has various other financial assets and liabilities such as the trade receivables and trade payables, which arise directly from its operations.

The Group also conducts derivative transactions, mainly including forward currency contracts, aiming at managing the exchange rate risk from the operation of the Group. During the entire year, the Group implements the policy of not conducting derivative instrument speculating transactions.

The main risks arising from the Group's financial instruments are credit risk, liquidity risk, and market risk. In this regard, the Group's risk management policies are outlined below.

Credit risk

The Group trades only with recognised and creditworthy third parties. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis and the Group's exposure to bad debts is not significant.

The credit risk of the Group's other financial assets, which mainly comprise cash and bank balances, other receivables and other current assets, arises from default of the counterparty, with a maximum exposure equal to the carrying amounts of these instruments.

Notes to the financial statements

VIII. RISKS RELATED TO FINANCIAL INSTRUMENTS (continued)

2. Financial instruments and their risks (continued)

Credit risk (continued)

The major customers of the Group are the subsidiaries of CRRC Corporation Limited as well as other state-owned enterprises and institutions in the railway transportation industry. Since the Group trades only with recognised and creditworthy third parties, there is no requirement for collateral. Concentrations of credit risk are managed by customer. As at 31 December 2018, the Group had certain concentrations of credit risk as 16.5% (31 December 2017: 23.5%) and 37.5% (31 December 2017: 46.2%) of the Group's trade receivables were due from the Group's largest customer and the five largest customers, respectively.

Principles for assessing whether the credit risk has increased significantly since the initial confirmation, basis for determining the financial impairment of financial assets, the method of using financial instruments to assessing expected credit risk and the direct write down method are listed in Note III, 9.2.

As part of the Group's credit risk management, the group uses the aging of trade receivables to assess the impairment losses of trade receivables and contract assets for difference portfolios of customers. This type of business involves a large number of customers, which with the same risk characteristics, and the aging information can reflect the solvency of them when the trade receivables expire.

The above-mentioned expected average loss rate is based on historical actual bad debt rate and takes current conditions and forecasts of future economic conditions into consideration. In 2018, the group's assessment methods and major assumptions have not changed.

Credit risk exposures of the Group's financial assets and other items are detailed as follows:

	12-month ECL	Lifetime ECL (Non-credit- impaired)	Lifetime ECL (Credit-impaired)	Carrying amount 31 December 2018
Financial assets measured at amortized cost:				
Cash and bank balances	4,394,379,150	–	–	4,394,379,150
Bills receivable and trade receivables	3,570,109,985	6,300,043,101	453,759,532	10,323,912,618
Other receivables	108,783,220	–	–	108,783,220
Contract assets	–	197,422,222	–	197,422,222
Other current assets	2,634,610,548	–	–	2,634,610,548
Other non-current assets	–	24,937,877	–	24,937,877
Financial assets at FVTOCI				
Other current assets	854,151,906	176,768,180	–	1,030,920,086

VIII. RISKS RELATED TO FINANCIAL INSTRUMENTS (continued)

2. Financial instruments and their risks (continued)

Liquidity risk

The Group monitors its risk of shortage of funds using a recurring liquidity planning tool. This tool considers both the maturity of its financial instruments and expected cash flows from the Group's operations.

The Group's objective is to maintain a balance between the continuity of funding and flexibility through the use of various financing means, such as bills settlement and bank borrowings. The Group has obtained banking facilities from several commercial banks to meet working capital requirements and capital expenditures.

The Group's management monitors the liquidity position of the Group on an ongoing basis to ensure the availability of sufficient liquid funds to meet all obligations as they fall due and to make the most efficient use of the Group's financial resources.

The maturity profile of the Group's financial liabilities as at the end of the reporting period, based on the contractual undiscounted payments, is as follows:

As at 31 December 2018

	Within 1 year	1-2 years	Over 2 years	Total	Carrying amount
Short-term borrowings	170,808,318	–	–	170,808,318	168,246,814
Bills payable and trade payables	5,534,578,308	–	–	5,534,578,308	5,534,578,308
Other payables	669,071,995	–	–	669,071,995	669,071,995
Long-term borrowings (including long-term borrowings due within one year)	6,374,676	5,056,915	227,272,740	238,704,331	237,329,655
Long-term payables	–	24,354,272	17,170,901	41,525,173	41,525,173
	<u>6,380,833,297</u>	<u>29,411,187</u>	<u>244,443,641</u>	<u>6,654,688,125</u>	<u>6,650,751,945</u>

Long-term borrowings (including long-term borrowings due within one year)	3,737,934	7,794,059	99,859,934	111,391,927	111,319,128
Long-term payables	–	83,575,825	35,799,857	119,375,682	119,375,682
	<u>6,221,131,924</u>	<u>91,369,884</u>	<u>135,659,791</u>	<u>6,448,161,599</u>	<u>6,444,137,876</u>

Market risk

Currency risk

The Group's business is mainly located in China and the vast majority of transactions are settled in RMB, but there is still certain sales, purchases and borrowings shall be settled in foreign currencies such as Japanese Yen, US Dollar and GBP, etc. The fluctuation of these foreign currencies against RMB will have an impact on the Group's operating results. As at 31 December 2018, the Group's assets and liabilities dominated in foreign currencies are as follows:

VIII. RISKS RELATED TO FINANCIAL INSTRUMENTS (continued)

3. Capital management

The primary objectives of the Group's capital management are to safeguard the Group's ability to continue as a going concern and to maintain healthy capital ratios in order to support its business and maximize shareholders' value.

The Group manages its capital structure and makes adjustment to it in light of changes in economic conditions and the risk characteristics of underlying assets. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Group is no subject to any externally imposed capital requirements. No changes were made in the objectives, policies or processes for managing capital during 2018 and 2017.

The Group monitors capital using a gearing ratio, which is net debt divided by the adjusted capital plus net debt. The Group's policy is to maintain the gearing ratio below 30%. Net debt includes financial liabilities at fair value through profit or loss, interest-bearing bank and other borrowings, bills payable and trade payables, employee benefits payable, other taxes payable excluding income tax payable, other payables and net amount of long-term payables less cash and cash equivalents. Capital includes equity attributable to shareholders of the Parent. The gearing ratios as at balance sheet date were as follows:

	31 December 2018	31 December 2017
Short-term borrowings	168,246,814	202,427,360
Bills payable and trade payables	5,534,578,308	5,454,698,714
Employee benefits payable	135,840,963	47,223,201
Taxes payable (excluding income tax payable)	217,086,580	116,862,035
Other payables	669,071,995	556,316,992
Long-term borrowings (including due within one year)	237,329,655	102,006,235
Long-term payables	41,525,173	119,375,682
Less: Cash and cash equivalents	<u>4,381,012,798</u>	<u>3,422,194,522</u>
Net liabilities	2,622,666,690	3,176,715,697
Equity attributable to the shareholders	<u>19,824,763,980</u>	<u>17,764,353,968</u>
Capital and net debt	<u>22,451,030,670</u>	<u>20,941,069,665</u>
Gearing ratio	<u>11.68%</u>	<u>15.17%</u>

IX. DISCLOSURE OF FAIR VALUE (continued)

2. Liabilities disclosed at fair value

31 December 2018

	Inputs used in financial instruments measured at fair value			Total
	Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)	
Long-term borrowings	–	232,329,655	–	232,329,655
Long-term payables	–	–	41,525,173	41,525,173

31 December 2017

	Inputs used in financial instruments measured at fair value			Total
	Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)	
Long-term receivables	–	–	68,963,685	68,963,685
Long-term borrowings	–	99,427,028	–	99,427,028
Long-term payables	–	–	119,375,682	119,375,682

3. Fair value evaluation

Management has assessed the fair values of cash and bank balances, bills receivable and trade receivables, other receivables, other current assets, short-term borrowings, bills payable and trade payables, other payables and long-term borrowings due within one year approximate to the carrying amounts of financial assets and financial liabilities not measured at fair value largely due to the short-term maturities of these instruments.

The Group's finance team headed by the finance manager is responsible for determining the policies and procedures for the fair value measurement of financial instruments. The corporate finance team reports directly to the chief financial officer and the audit committee. At each reporting date, the corporate finance team analyses the movements in the values of financial instruments and determines the major inputs applied in the valuation. The valuation is reviewed and approved by the chief financial officer.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values.

The fair values of long-term receivables, long-term borrowings, long-term payables, etc. have been calculated by discounting the expected future cash flows using rates currently available for instruments with similar terms, credit risk and remaining maturities. The Group's own non-performance risk for interest-bearing bank and long-term and short-term borrowings as at 31 December 2018 was assessed to be insignificant.

X. RELATED PARTY RELATIONSHIPS AND TRANSACTIONS (continued)

6. Amounts due from and due to related parties (continued)

As at 29 December 2017, the Company entered into a Financial Service Framework Agreement with CRRC Finance Co., Ltd. which was effective from 31 December 2017 to 30 December 2018. Pursuant to Financial Services Framework Agreement, the maximum daily deposit balance with CRRC Finance Co., Ltd. is no more than RMB700,000,000. The interest rate is no less than the higher of the benchmark interest rate set by People's Bank of China for similar deposits, the interest rate payable by other major commercial banks in China and the interest rate payable by CRRC Finance Co., Ltd. to other members of the CRRC Group for comparable deposits.

As at 28 December 2018, the Company and CRRC Finance Co., Ltd. entered into the framework agreement on financial services (the above framework agreement on financial services signed on 29 December was terminated). In accordance with the agreement, from 31 December 2018 to 30 December 2019, the maximum amount of total deposits per day in the CRRC Finance Co., Ltd. is no more than RMB700,000,000 and the deposit rate is no less than the higher of the benchmark interest rate issued by the People's Bank of China for similar type of deposits, the interest rate at which other major commercial banks of China should pay for comparable deposits and the interest rate at which CRRC Finance Co., Ltd. should pay for comparable deposits to other member companies of CRRC.

X. RELATED PARTY RELATIONSHIPS AND TRANSACTIONS (continued)

6. Amounts due from and due to related parties (continued)

	31 December 2018	31 December 2017
Current portion of non-current liabilities		
Corporations controlled by the parent company	<u>5,000,000</u>	<u>2,500,000</u>
Long-term borrowings:		
Shareholders of the parent company	<u>92,688,000</u>	<u>97,688,000</u>

In 2018, the related party transactions about providing and purchasing goods and services of RMB6,712,954,687 (2017: RMB6,411,842,012) and RMB2,102,382,040 (2017: RMB1,802,647,601) respectively between the Group and the parent company and corporations controlled by the parent company, the ultimate holding party and corporations controlled by the ultimate holding party, Joint Ventures of the ultimate holding group as well as associates with above 30% share held by the ultimate holding party and the parent company constituted connected transactions or continuing connected transactions under the provisions of Chapter 14A of the Hong Kong Listing Rules. Relevant agreements are framework agreements about mutual supply of products and corresponding services, which were signed on 28 March 2016 by the Company and CRRC Group Co., Ltd. (together with its affiliated companies but excluding the Group).

In 2018, the related party transactions about providing and purchasing goods and services of RMB8,531,885 (2017: RMB48,827,977) and RMB139,755 (2017: RMB2,325,694) respectively between the Group (excluding Qingdao Electric) and Qingdao Electric also constituted connected transactions or continuing connected transactions under the provisions of Chapter 14A of the Hong Kong Listing Rules. Relevant agreements are framework agreements about mutual supply of products and corresponding services, which were signed on 22 December 2016 by the Company and Qingdao Electric (together with its affiliated companies).

Since China Railway Baoji Machinery Co., Ltd. (the "CRBM", a wholly-owned shareholding company of China Railway Group Limited (the "CREC")) is a main shareholder of the Group's subsidiary Baoji Times, in 2018, the transactions about providing and purchasing goods and services of RMB65,826,635 and RMB16,212,587 respectively between the Group and CREC (together with its affiliated companies) also constituted connected transactions or continuing connected transactions under the provisions of Chapter 14A of the Hong Kong Listing Rules. Relevant agreements are framework agreements about mutual supply of products and corresponding services, which were signed on 12 January 2017 by the Company and CREC (together with its affiliated companies).

The Group's bills receivable from and bills payable to related parties are non-interest-bearing, unsecured and have fixed terms of repayment; cash and bank balances are interest-bearing, unsecured and have no fixed terms of repayment; and long-term borrowings are interest-bearing, unsecured and have fixed terms of repayment. Other amounts due from and due to related parties are non-interest-bearing and unsecured. In particular, the repayment period of trading amounts is subject to the provisions of the trading terms. Non-trading amounts have no fixed repayment periods.

XI. COMMITMENTS AND CONTINGENCIES

1. Commitments

	31 December 2018	31 December 2017
Contracted but not provided for		
Capital commitments	385,505,762	186,529,276
Investments in subsidiaries	27,500,000	—
Total	413,005,762	186,529,276

2. Contingencies

The Group had no contingencies which should be disclosed.

XII. POST BALANCE SHEET EVENTS

Excluding the dividend distribution plan of the board of directors disclosed in the Note V. 35 retained earnings, the Group is also required to make disclosures for the following events subsequent to the balance sheet date:

Acquisition of all the shares of Dynex Power Inc. (“Dynex Power Inc.”) issued and issued abroad

On 18 January 2019, the Company signed an arrangement plan (the “Plan”) with Dynex. According to the Plan and the Canada Business Corporations Act, the Company acquired all the ordinary shares of Dynex issued and issued abroad which are not held by the Company at a cash consideration of CAD 0.65 per share. The total consideration is CAD 13.1 million. The Plan was completed on 15 March 2019, and Dynex has become the wholly-owned subsidiary of the Company. Shares of Dynex were delisted from Growth Enterprise Market of Toronto Stock Exchange by the end of trading on 19 March 2019 (Canadian time)

XIII. OTHER SIGNIFICANT EVENTS

1. Segment report

Operating segments

For management purposes, the Group’s operating activities are attributable to a single operating segment, focusing on the provision of rolling stock and its extension products and services in the market. Therefore, no other operating segment is presented.

Other information

Products and services information

Revenue from external customers

CRRC Qishuyan Co., Ltd.	104,068,822
	<u>3,343,419,420</u>

(2) Trade receivables

The credit period of trade receivables is usually 6 months. The trade receivables bear no interest.

The aging analysis of trade receivables is as follows:

	31 December 2018	31 December 2017
Within 6 months	4,378,300,687	4,482,494,405
6 months to 1 year	321,343,339	334,575,052
1 to 2 years	294,297,963	322,119,712
2 to 3 years	44,980,487	32,519,094
Over 3 years	1,287,670	30,975,265
	<u>5,040,210,146</u>	5,202,683,528
Less: Provision for credit loss/ Provision for bad debts	81,188,171	112,281,522
	<u>4,959,021,975</u>	5,090,402,006
Less: Classified as long-term receivables	-	3,811,432
	<u>4,959,021,975</u>	<u>5,086,590,574</u>

As part of the Company's credit risk management, the Company assesses the expected credit losses of trade receivables arising from the following four categories of customers by aging. All of the four categories of customers involve large number of customers with similar risk characteristics. The aging information can reflect the solvency of the four categories of customers when trade receivables expire.

Notes to the financial statements

For the year ended 31 December 2018
Renminbi Yuan

XIV. NOTES TO KEY ITEMS OF THE COMPANY'S FINANCIAL STATEMENTS (continued)

2. Bills receivable and trade receivables (continued)

(2) Trade receivables (continued)

As at 31 December 2018, the credit risk and ECL of the trade receivables of the four categories of customers are as follows:

	Expected average loss rate %	Carrying amount	Provision for losses	Closing balance
Category I				
Credit impairment not occurred	0.50	2,961,102,997	14,724,398	2,946,378,599
Credit impairment incurred	2.27	258,096,473	5,863,183	252,233,290
Category II				
Credit impairment not occurred	0.84	1,433,103,965	12,027,629	1,421,076,336
Credit impairment incurred	15.37	36,200,582	5,562,514	30,638,068
Category III				
Credit impairment not occurred	0.63	92,483,808	587,135	91,896,673
Credit impairment incurred	10.15	4,902,598	497,810	4,404,788
Category IV				
Credit impairment not occurred	5.43	212,953,255	11,552,860	201,400,395
Credit impairment incurred	73.42	41,366,468	30,372,642	10,993,826
		<u>5,040,210,146</u>	<u>81,188,171</u>	<u>4,959,021,975</u>

Provision for credit loss/bad debt provision of trade receivables is as follows:

	Lifetime expected credit losses (credit losses has not occurred)	Lifetime expected credit losses (credit losses occurred)	2018 Total
1 January 2018	53,507,773	58,773,749	112,281,522
Transferred to incurred credit losses	(2,997,491)	2,997,491	-
Provision (Reversal)	(14,145,440)	(29,617,162)	(43,762,602)
Write-off	-	(3,359)	(3,359)
Increases as a result of merger by absorption (Note)	<u>2,527,180</u>	<u>10,145,430</u>	<u>12,672,610</u>
31 December 2018	<u>38,892,022</u>	<u>42,296,149</u>	<u>81,188,171</u>

Note: In May 2018, Zhuzhou CRRC Times Equipment Technology Co., Ltd., the wholly-owned subsidiary of the Company, was merged by the Company which led to the increase in bad debt.
