As the Proposed Issuance is still subject to the fulfillment of various conditions, the Proposed Issuance may or may not proceed. Investors and potential investors in the Shares shall exercise caution and only rely on the information issued by the Company when dealing, or contemplate dealing, in the Shares.

This announcement is made by the Company pursuant to Rule 13.09(2) of the Listing Rules and the Inside Information Provisions under Part XIVA of the SFO.

The Board is pleased to announce that on 19 April 2019, the Board has approved the Proposed Issuance of the A Share Convertible Bonds. The Board will propose resolutions at the AGM and the 2019 First Class Meetings for the Shareholders to consider and approve, if thought fit, and among others, the Proposed Issuance, the A Share Convertible Bonds Issuance Plan and the Possible Subscription.

1. THE PROPOSED ISSUANCE

The principal terms of the A Share Convertible Bonds Issuance Plan are set out below:

- 1. Type of securities to be issued :** The type of securities to be issued by the Company are the A Share Convertible Bonds. The A Share Convertible Bonds and the A Shares to be converted therefrom will be listed on the Shanghai Stock Exchange.
- 2. Issue size :** Pursuant to the relevant laws and regulations and together with the Company's financial situation and investment plans, the total amount of the A Share Convertible Bonds proposed to be issued will be no more than RMB1.45 billion (inclusive of RMB1.45 billion). A resolution will be proposed to the Shareholders at the AGM and the 2019 First Class Meetings to authorise the Board to determine the final issue size within the range above.
- 3. Par value and issue price :** The A Share Convertible Bonds will be issued at par with a nominal value of RMB100 each.
- 4. Term :** The term of the A Share Convertible Bonds will be six years from the Issuance Date.
- 5. Coupon rate :** It will be proposed at the AGM and 2019 First Class Meetings to authorise the Board, and the Board shall determine the methods for determining the coupon rate and actual annual coupon rate for the interest accrual year with reference to the PRC government policies, market conditions and the actual conditions of the Company, prior to the issuance of the A Share Convertible Bonds, and by negotiating and agreeing with the sponsor (the lead underwriter). Also, if the deposit rate of the banks has adjusted prior to the issuance of the A Share Convertible Bonds, the authorisation from the Shareholders to the Board will also cover the adjustment of the coupon rate.

6. **Method and timing of interest payment** : Interest of the A Share Convertible Bonds will be paid annually, while the principal and the final year's interest will be paid upon maturity.

(i) Calculation of the annual interest rates

“**Annual Interest**” means the interest accrued for the year on each anniversary of the Issuance Date of the A Share Convertible Bonds, calculated based on the aggregate face value of the A Share Convertible Bonds that a Bondholder is entitled to.

The formula for calculating the annual interest is:

$$I = B \times i$$

where,

I = annual interest

B = the aggregate face value of the A Share Convertible Bonds held by a Bondholder as at the record date for interest payment in an interest accrual year (referred to as “**that year**” or “**each year**” for this purpose);

i = the coupon rate of the A Share Convertible Bonds of that year.

(ii) Method of Interest Payment

- (a) Interest of the A Share Convertible Bonds will be paid once a year, accruing from the Issuance Date of the A Share Convertible Bonds.
- (b) **Interest payment date:** The interest is payable annually on each anniversary of the Issuance Date. If such day falls on a statutory holiday or rest day, the interest payment date shall be postponed to the next trading day and no additional interest will be paid during the period of postponement. The period between an interest payment date and the next interest payment date will be an interest accrual year.

Matters relating to the interest and dividend entitlement during the year of conversion shall be determined by the Board in accordance with relevant laws, rules and regulations of the Shanghai Stock Exchange.

(c) **Record date for interest payment:** The record date for interest payment of each year will be the last trading day preceding the interest payment date. The Company will pay the interest accrued in that year within five trading days from the interest payment date. The Company will not pay any interest to Bondholders, who have applied for conversion of the A Share Convertible Bonds to A Shares on or before the record date for interest payment, for that year and subsequent interest accrual years.

(d) Tax payable on the interest income from the A Share Convertible Bonds shall be borne by the Bondholders.

7. Conversion period : The conversion period of the A Share Convertible Bonds commences on the first trading day immediately following the expiry of the six-month period after the Issuance Date and ends on the maturity date of the A Share Convertible Bonds.

Determination of the Conversion Price : The initial Conversion Price of the A Share Convertible Bonds shall not be lower than the higher of the average trading prices of A Shares of the Company for the 20 trading days preceding the publication date of the Offering Document (in the event that the price has been adjusted due to ex-rights or ex-dividend during such 20 trading days, the average trading price of each of these trading days before adjustment shall be adjusted with reference to the ex-rights or ex-dividend A Share price) and the average trading price of A Shares on the trading day preceding the publication date of the Offering Document.

It will be proposed at the AGM and 2019 First Class Meetings to authorise the Board, and the Board shall determine the actual initial Conversion Price with reference to the market conditions and the situation of the Company, and by negotiating and agreeing with the sponsor (the lead underwriter).

The averages shall be calculated as follows:

$$\frac{\text{The average trading price of A Shares for the 20 trading days immediately preceding the date of publication of the Offering Document}}{\text{The total trading amount of the A Shares during the 20 trading days}} = \frac{\text{The total trading volume of the A Shares during the 20 trading days}}{\text{The total trading amount of the A Shares during the 20 trading days}}$$

$$\frac{\text{The average trading price of A Shares for the trading day immediately preceding the date of publication of the Offering Document}}{\text{The total trading amount of the A Shares on the trading day}} = \frac{\text{The total trading volume of the A Shares on such trading day}}{\text{The total trading amount of the A Shares on the trading day}}$$

- 8. Adjustment to the Conversion Price and calculation method :** Upon completion of the Proposed Issuance, where there is distribution of scrip dividend, capitalisation issue, issuance of new Shares (excluding any increase in the share capital as a result of conversion of the A Share Convertible Bonds), rights issue or distribution of cash dividend by the Company, the Company will adjust the Conversion Price in accordance with the following formulae (the adjusted value shall be rounded off to two decimal places):

Distribution of scrip dividend or capitalization issue:

$$P_1 = P_0 / (1+n)$$

Issuance of new Shares or rights issue:

$$P_1 = (P_0 + A \times k) / (1+k)$$

If the two situations above took place together:

$$P_1 = (P_0 + A \times k) / (1+n+k)$$

Distribution of cash dividend:

$$P_1 = P_0 - D$$

If the three situations above took place together:

$$P_1 = (P_0 - D + A \times k) / (1 + n + k)$$

where,

A = price of issuance of new Shares or rights issue

D = cash dividend per Share

P_0 = the Conversion Price before adjustments

P_1 = the adjusted Conversion Price

n = the ratio of the scrip dividend or capitalisation

k = the ratio of issuance of new Shares or rights issue

Where the above changes in the Company's equity interests occur, the Conversion Price will be adjusted accordingly and an announcement will be published by means designated by the CSRC for disclosing information of listed companies and the website of the Shanghai Stock Exchange. The announcement will indicate the date of adjustment to the Conversion Price, adjustment method and period of suspension for Share conversion (if necessary). If the date of adjustment to the Conversion Price takes place on or after a Bondholder's application for conversion, and before the registration date of the shares, then such conversion will be based on the Conversion Price adjusted by the Company.

In the event that the rights and benefits of the Bondholders are affected by the change in the Company's share class, quantity and/or Shareholders' interest due to the possible Share repurchase, consolidation, subdivision or any other circumstances which may occur, the Company will adjust the Conversion Price based on the actual situation and in a fair, just and equitable manner and to protect the Bondholders' interests. The Conversion Price will be adjusted based on the relevant PRC laws and regulations and the relevant regulations of the securities regulatory authorities of the relevant time.

9. Downward adjustment to : (i) *Adjustment conditions and adjustment magnitude*
the Conversion Price

The Conversion Price may be subject to downward adjustments if, during the term of the A Share Convertible Bonds, the closing prices of the A Shares for 15 trading days out of any 30 consecutive trading days are lower than 90% of the prevailing Conversion Price. The Board may propose downward adjustments of the Conversion Price for the Shareholders to consider and seek their approval at a general meeting and the A Shares and H Shares class meetings.

The above proposal is subject to approval of more than two-thirds of the votes of the participating Shareholders at the general meeting and the class meetings. Shareholders holding the A Share Convertible Bonds should abstain from voting at the general meeting and the class meetings. The adjusted Conversion Price shall not be lower than the higher of the average trading price of A Shares of the Company for the 20 trading days preceding the said general meeting and class meetings, and the average trading price of A Shares of the Company for the trading day immediately before the said general meeting and class meetings. Furthermore, the adjusted Conversion Price shall not be lower than the latest audited net asset value per Share and the par value per Share.

In the event that another adjustment of Conversion Price has taken place within the prior 30 trading days, the Conversion Price and closing price of Shares will be calculated on an unadjusted basis during the trading days prior to the adjustment, while the adjusted Conversion Price and closing price of Shares will be adopted during the trading days on which the adjustment was made and the trading day afterwards.

(ii) Procedure of adjustment

If the general meeting and class meetings of the Company resolve to make a downward adjustment to the Conversion Price, the Company will publish an announcement on the relevant resolutions through the means designated by the CSRC for disclosing information of listed companies and on the website of the Shanghai Stock Exchange. The announcement will disclose the magnitude of the adjustment, the registration date of the Shares, the suspension period of Share conversion.

Application for share conversion will be restored based on the adjusted Conversion Price on the first trading day after the registration date of the shares (i.e. the effective date of the adjustment to the Conversion Price). If the adjustment date is on or after the share conversion application date and prior to the registration date of the shares, the share conversion application should be executed based on the Conversion Price after the adjustment.

- 10. Determination of the number of conversion shares :** When a Bondholder applies to convert the A Share Convertible Bonds during the conversion period, the number of the shares to be issued upon conversion is calculated as follows and any fractional share shall be rounded down to the nearest whole number:

$$\text{Number of converted shares} = \frac{\text{aggregate face value of the A Share Convertible Bonds that the Bondholder applies for conversion}}{\text{prevailing Conversion Price as at the date of application for conversion}}$$

Within five trading days from the conversion of the A Share Convertible Bonds by the Bondholders, the Company will pay the Bondholders in cash an amount equals to the face value of the remaining balance of the A Share Convertible Bonds which are insufficient to be converted into one A Share and the interest accrued on such balance in accordance with the relevant requirements of such as the Shanghai Stock Exchange and the securities registration authorities.

11. Terms of redemption : (i) *Terms of redemption at maturity*

Within five trading days after the maturity of the A Share Convertible Bonds, the Company will redeem all of the A Share Convertible Bonds which have not been converted into A Shares from the Bondholders at a price equivalent to the face value or a certain percentage higher than the face value of the A Share Convertible Bonds (including annual interests accrued for the final year). It will be proposed at the AGM and the 2019 First Class Meetings to authorise the Board, and the Board shall determine the actual redemption price after discussion and agreement with the sponsor (the lead underwriter) with reference to the market conditions at the time of issuance.

(ii) *Terms of conditional redemption*

During the term of the A Share Convertible Bonds, if the closing price of the A Shares of the Company is equal to or not lower than 130% of the prevailing Conversion Price for at least 15 trading days out of any 30 consecutive trading days, or when the balance of the outstanding A Share Convertible Bonds issued is less than RMB30 million, the Company has the right to redeem all or part of the A Share Convertible Bonds which have not been converted into A Shares based on the face value plus the accrued interest for the period.

The accrued interest for the period is:

$$IA = B \times i \times t/365$$

where,

IA = the accrued interest for the period

B = the aggregate face value of the A Share Convertible Bonds held by the Bondholder

i = the interest rate of the A Share Convertible Bonds for the year

t = the number of calendar days on which interest is accrued, from the beginning of current year to the redemption date and excluding the redemption date

In the event that another adjustment of Conversion Price has taken place within the prior 30 trading days, the Conversion Price and closing price of A Shares for the trading days prior to the adjustment date will be calculated based on the Conversion Price and closing price of A Shares prior to the adjustment, and for trading days after the adjustment, Conversion Price and closing price of the A Shares will be calculated based on the Conversion Price and closing price after the adjustment.

12. Terms of sell back : (i) *Terms of conditional sell back*

Within 2 years prior to the maturity of the A Share Convertible Bonds, where the closing price of the Company's A Shares is lower than 70% of the then Conversion Price for 30 consecutive trading days, the Bondholders are entitled to sell all or part of the A Share Convertible Bonds held by them back to the Company at the face value plus the interest accrued then.

If there is distribution of scrip dividend, capitalisation issue, issuance of new Shares (excluding any increase in the share capital as a result of conversion of the A Share Convertible Bonds), rights issue or distribution of cash dividend during the said 30 consecutive trading days, the Conversion Price and closing price of the A Shares will be calculated on an unadjusted basis during the trading days prior to adjustment, while the adjusted Conversion Price and closing price of the A Shares will be adopted during the trading days on which the adjustment was made and the trading day afterwards. If there is downward adjustment to the Conversion Price, then the "30 consecutive trading days" shall be re-counted based on the adjusted Conversion Price from the first trading day after the downward adjustment of the Conversion Price.

During the last two years prior to maturity, at the first time the requirements for the sell back are fulfilled for the year, the Bondholders may exercise the right of sell back once. If the Bondholders do not exercise their sell back rights after the requirements for sell back are first fulfilled during the sell back declaration period, such Bondholders cannot exercise their sell back rights during the current year. Furthermore, Bondholders shall not exercise the right of sell back multiple times.

(ii) Additional terms of sell back

If the Company's actual usage of the net proceeds from the Proposed Issuance is materially different from the undertaking of the use of proceeds set out in the Offering Document, and such difference is considered by the CSRC as a change in the use of the proceeds, the Bondholders will have a one-off right to sell all or part of the A Share Convertible Bonds held by them back to the Company at the face value plus the interest accrued. Under the said scenario, the Bondholders may sell their A Share Convertible Bonds back to the Company during the sell back declaration period. If the Bondholders do not exercise their sell back rights during the sell back declaration period, such right will automatically lapse. For interest accrued for the current period, please refer to the paragraph "term of redemption" above.

- 13. Dividend rights for the conversion year** : The new A Shares to be issued by the Company as a result of the conversion of the A Share Convertible Bonds shall rank pari passu with all the existing A Shares. As for the dividend distribution, all Shareholders (including Shareholders from the conversion of the A Share Convertible Bonds) registered on the register of members on the record date for dividend distribution are all entitled to such distribution.

- 14. Method of issuance and target investors :** The actual method of the issuance of the A Share Convertible Bonds will be determined by the Board with the sponsor (the lead underwriter), subject to the authorisation at the AGM and the 2019 First Class Meetings.

The target investors of the A Share Convertible Bonds are natural persons, legal persons, securities investment funds and other investors who meet the requirements under the laws, and who have maintained securities accounts with the Shanghai Branch of China Securities Depository and Clearing Corporation Limited (except those prohibited by the state laws and regulations in the PRC).

It will be proposed at the AGM and 2019 First Class Meetings to authorise the Board, and the Board shall determine by negotiating and agreeing with the sponsor (the lead underwriter) with reference to the prevailing market conditions, the actual amount to be allocated under the pre-emptive rights, and shall be disclosed in the A Share Convertible Bonds publications.

The remaining A Share Convertible Bonds after such preferential allocation to the existing A Shareholders or waived by the existing A Shareholders shall be issued to the institutional investors by off-line allocations or to the investors through the on-line offering system of the Shanghai Stock Exchange, and the lead underwriter shall underwrite any remaining balance.
