The board of directors (the “**Board**”) of the Company wishes to inform the shareholders of the Company and potential investors that, based on a preliminary review of the unaudited consolidated management accounts of the Company and its subsidiaries

(collectively the “**Group**”) and the information currently available to the Board, while the Group is expected to report a mild decrease in revenue for the six months ended 30 June 2020 (the “**Period**”) when compared with the same period last year, the Group is expected to record an increase by between 230% to 270% in the consolidated profit attributable to owners of the Company for the Period when compared with approximately HK\$14.48 million for the same period last year. Such expected increase was mainly attributable to:

- (i) decrease in Group’s operating cost due to process improvement and product mix, which has led to a drop in cost of sales;
- (ii) increase in operational efficiency as a result of continuous integration of the Group’s resources and optimisation of information systems, from which the Group achieved reduction in manufacturing overhead; and

The Company is still in the process of finalising the interim results of the Group for the Period, and the information contained in this announcement is only based on the Board’s preliminary assessment of the Group’s latest unaudited consolidated management accounts for the Period, which have not been reviewed by the Company’s auditors and the Company’s audit committee.
